What transformations are needed for research institutes to support citizen science?

27-06-2023 ***online***

DESCRIPTION:

The process of integrating citizen and community science within research institutions and universities is full of challenges and opportunities. This webinar, from the European TIME4CS and INCENTIVE projects, explores lessons learned from a range of institutions and their experiences, from our symposium on the topic at the CSA's C*Sci conference in May 2023, and from webinar participants on the day. Participants have the opportunity to hear about and discuss potential strategies for embedding citizen science within institutions. Participants can also share their own experiences and contribute to the creation of a resource to share possible pathways to integrate activities to promote and embed citizen science in research performing organisations (RPOs), hopefully supporting this often difficult process. The final resource will, of course, be openly available on the EU-citizen.science platform, project websites and shared widely.

The webinar is a combined effort of the TIME4CS and INCENTIVE projects.

TARGET:

Research-performing organisation staff, i.e. researchers, admin staff, support function staff and management, from RPOs interested in, or in the process of, embedding citizen science into their organisation. We also invite anyone working with RPOs as partners to participate and provide their perspectives.

The TIME4CS project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101006201

TIME	TITLE	SPEAKER
14.00 – 14.10	**Welcome by TIME4CS & INCENTIVE projects**	**Alessio Livio Spera**, APRE / TIME4CS **Sofia Mojica**, UAB / INCENTIVE
14.10 – 14.20	**Presentation of work done and lessons learned so far**	**Gitte Kragh,** Aarhus University / TIME4CS
14.20 – 14.40	**Fishbowl for open discussion of lessons learned and participants' experiences**	**Muki Haklay**, UCL / TIME4CS
14.40 – 15.05	**Community Exchange: Interactive facilitated discussions of participants' experiences**	**Gitte Kragh** **Muki Haklay** **Sofia Mojica** **Alessio Livio Spera**
15.05 – 15.15	**Format of final resource: suggestions and discussion**	**Gitte Kragh,** Aarhus University / TIME4CS
15.15 – 15.25	**Crowdhelix Platform, Citizen Science Helix for impact acceleration and future collaboration**	**Cais Jurgens,** Crowdhelix/TIME4CS
15.25 – 15.30	**Wrap up and conclusion**	**Sofia Mojica**, UAB / INCENTIVE
