Content

Roll-up 2

A very fast solution for displaying an advertisement in an indoor space. The printed material rolls inside the case and is thus protected during transportation.

Counter Desk 9

Depending on the available surface or the location where you have to present, you need one of our counters. Used for promotions in hypermarkets or as presentation desks at conferences,

Units 18

UNITS® foam furniture combines utility and imagination to build creative discussion spaces. Made of polyurethane foam elements, they are comfortable and easy to transport.

Stand 22

Easy to install low cost banner stands, people stoppers and brochure holders that offer a simple and functional solution to display your message and hold your catalogues.

Pop-up Tent 28

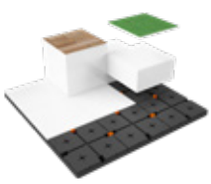
Here is the perfect solution for your outdoor events! Thanks to its expandable aluminium structure, strong hexagonal profile and waterproof canopy material, the Pop-up Tent is great for regular use regardless of weather conditions.

Pop-up 6

Large images draw attention. Pop-up walls are very useful in creating a custom background for a conference or partitioning an exhibition stand. They are easy to install and transport. To install a pop-up no qualified staff or additional tools are needed.

Wave 12

A spectacular new display system ideal for exhibitions, presentations, conferences, product launches or meetings. The one piece sublimation printed textile fabric ensures a seamless and beautiful display.



Easycubes 20

EasyCubes® is a revolutionary modular system that allows you to build POSM displays, floors and exhibit areas using prefabricated elements.

Flag 25

Vision flags are portable and easy to install, perfect for advertising campaigns or other outdoor or indoor events. They are made from durable anti-corrosive fiberglass and tested in the toughest weather conditions to last a long time.

Exhibition solutions 30

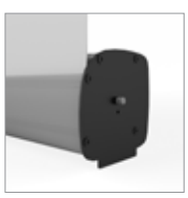
Vision wall systems are modular and can be easily adapted to any exhibition space. You can choose from over 100 predefined solutions with the possibility of a 3D preview before execution.

Roll-up Vision

ID: RU-060, RU-085, RU-100, RU-120, RU-150

Features:	Aluminium casing, superior holding rod with click fastening system, three-jointed support bar, textile carry bag
Available colors:	Silver

Indoor | Setup | Best seller | Warranty



The VISION roll-up system is made of high quality aluminium elements and provides an excelent flatness to the printed advertising message. Mount the printed message using the superior bar on the support rod and your print surface will be tensioned and ready to attract customers. Roll the printed media back in the system when transporting so it will be protected from shocks, bumps or scratches.

"

We represent brands such as Durex, Air Wick, Vanish, Calgon, so working with us means that our needs are urgent and important to the success of campaigns. I was impressed to see that they have a very clear vision about brand communication and fully comply with our requirements.

All we can say is that we give Vision a strong recommendation for any customer or brand that wants to work with an efficient team.

"

Florentina Baciu
Customer Marketing Manager
Reckitt Benckiser

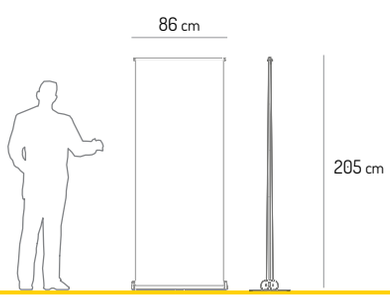
Features: Aluminium casing, superior holding rods with click fastening systems, three-jointed support bar, textile carry bag

Print dimensions:	**85 x 200 cm x 2 sides**
Weight:	4.7 kg
Available colors:	Silver

Indoor | Setup | Impressive | Warranty

An excellent idea for fast and successful presentations. Just open the Roll-up display, hoist the two printed surfaces and everything is ready in less than 1 minute. During transportation, the printed media is rolled inside the high quality aluminium support and is thus protected from shocks, bumps or scratches.



"

We are working with Vision for almost 4 years and at first, our attention was attracted by the competitive prices with which they entered the market. It's that 'best-value' any buyer of advertising is looking for.

To our satisfaction we found a supplier that not only gave us the best price, but the highest quality product. With promotions and new products that Vision has, we were able to distinguish ourselves from our competitors at trade fairs and within our resellers. Services that enhance our collaboration today are: innovation, quality, timeliness, helpfulness, cost and reliability.

We recommend Vision to any company that wants to buy advertising systems to the same standards as in Western Europe.

This pop-up system (spider) is an ideal choice for presenting large advertisements due to its height (2.30 m). It is great for exhibitions, presentations, conferences, various meetings, etc.. It is a collapsible bar system that is mounted quickly, even by one person, without using additional tools. All necessary accessories are included in the carry case it comes in.

Graphic plates can be added to the back of the systems to make them double faced. The back plates have a width of 75 cm for straight pop-up systems and 82 cm for curved pop-up systems.

Pop-up Accessories

Textile Trolley

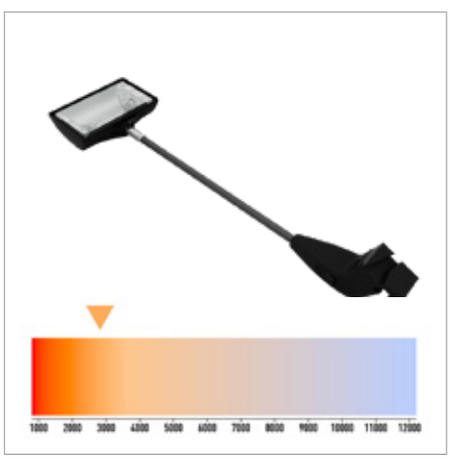
ID: ASE-2TT
Dimensions: 85 x 40 x 36 cm
Weight: 6.2 kg

The textile trolley is the easiest way to transport pop-up systems. Its padded walls protect the system and pvc strips from bumps and scratches.

Pop-up Shelf

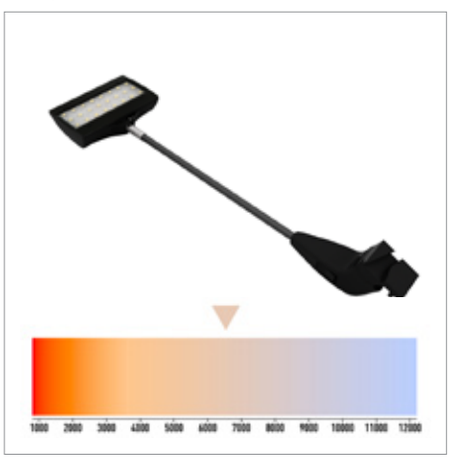
ID: ASE-MS
Dimensions: 70 x 72 x 28 cm
Dim. (unassembled): 7 x 73 x 38 cm
Weight: 10.5 kg

The pop-up shelf is used for displaying products without taking up extra space. The shelf is secured in place by magnetic strips to the pop-up structure and is compatible with any VISION pop-up system that is straight.



Pop-up Halogen Spotlight

ID: ASE-2SLH
Dimensions: 59 x 17 x 6 cm
Weight: 1.1 kg
Color: 2800 K



Pop-up LED Spotlight

ID: ASE-2SLL
Dimensions: 59 x 17 x 6 cm
Weight: 1.1 kg
Color: 6000 K

The pop-up spotlight is used to increase visibility of your printed message on pop-up systems in low lighting conditions. This spotlight is compatible with any VISION pop-up system because it attaches directly to the top connecting rods.

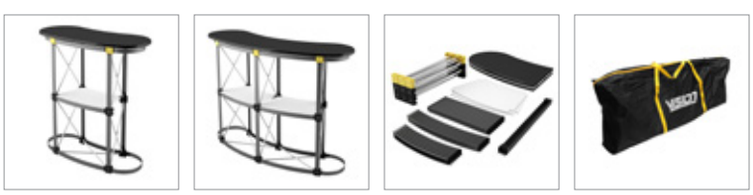
Pop-up Desk

ID: PPD-1, PPD-2C

Features: Expandable pop-up system, vertical rods, horizontal rods, 4 PVC strips, magnetic strip, wooden countertop, textile carry bag

Available colors: White, Black, Beech, Oak

Indoor | Setup | Storage inside | Warranty



Fully customizable and elegant, with a carefully finished wooden countertop, Pop-Up Desk VISION is very inviting. The structure is similar to that of a pop-up system (spider). Consequently, it is expandable and easy to install and transport. The system comes in a textile carrying case. Area of use: exhibition stands, showrooms, conferences, events, receptions, etc. Position the "Desk Vision" display in front of any large Pop-Up display and it represents both an opportunity for additional advertising and a storage space for your promotional tools.

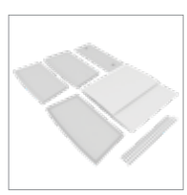
Promoter Desk

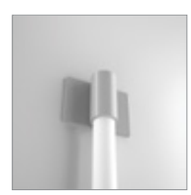
ID: D-2D

Features: Personalizable plastic base and top, four metal tubes, three PVC counters (bottom, middle and top), carry bag

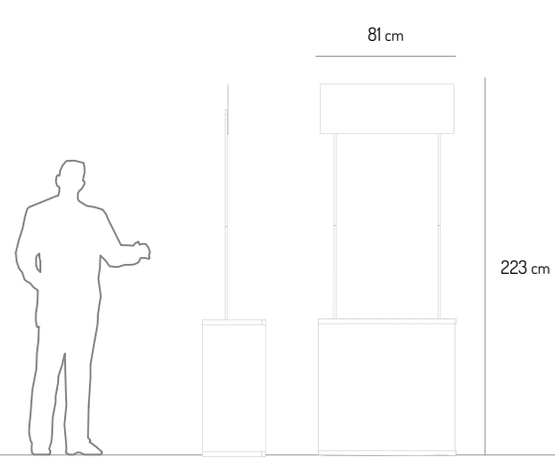
Print dimensions (base):	**178 x 80 cm**
Print dimensions (top)	**80 x 30 cm**
Weight:	7.2 kg
Available colors:	White

Indoor | Setup (5min) | Best seller | Warranty (1 YEAR)





The promoter desk represents an advertising product and at the same time an additional storage space for your promotional tools. Just place it in front of a pop-up display or wave system and setting up for your advertising campaign is complete! It can be easily mounted, even by a single person, and the printed media can be quickly attached to the body. It can be used for various activities: sampling, product presentations, etc.



Pieces per package:	2
Package dimensions:	91 x 85 x 13 cm
Package weight:	15.4 kg

Wave® Desk

ID: WVD-1 (Oval),
WVD-2 (Square)

Features: aluminium bars, 2x wooden tops, carry case, custom printed fabric

Available colors: Silver

Indoor | Setup (10 min) | Storage inside | Warranty (1 YEAR)

Fully customizable and elegant, with a carefully finished wooden counter top, VISION Wave® Desks are very inviting. They are easy to install and transport. Area of use: exhibition stands, showrooms, conferences, events, receptions, etc.
It can be an opportunity for additional advertising and also a storage space for your promotional tools. The system comes in a textile carrying case.

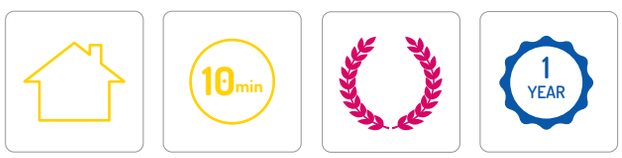
Wave® Curved

ID: WV-265C, WV-325C

Features: Inter-connectable aluminium tubes, textile carry bag, custom printed fabric

Available colors: Silver



Indoor | Setup | Best seller | Warranty

Vision Wave® is a spectacular new display system ideal for exhibitions, presentations, conferences, product launches, meetings, etc. Being a series of inter-connecting aluminium elements that make up a frame designed to stretch the fabric graphic, your marketing message is displayed perfectly and can be printed on both sides. Part of the large wall family, the Vision Wave® is easy to mount and unmount (no tools needed) thanks to the one piece textile graphic that easily fits into place on the aluminium structure. A great solution for campaigns that need to change advertising messages often. We recommend two people for assembling.

Why exhibit at a fair?

Contacting clients through online promotions and printed advertisement both have a downside: they are impersonal. As opposed to that, exhibiting at a fair and presenting the products/services directly to the public allows you to have a more personal approach to the client and gives you the opportunity to differentiate yourself from other similar businesses.

This setup includes:

1 x Wave Straight Volume WV-125W-305H-30D
2 x Wave Straight WV-300W
1 x Wave Desk Oval WVD-1
2 x Brochure Stand Plexiglas SB-3A

1 x Wave Straight WV-600W-305H
1 x Wave Desk Square WVD-2
5 x Wave 150W Spotlight Halogen

65 kg
5 bags

Types of exhibition stands

Design can range from economy, if your only interest is to present your product, to very complex and imposing when you are looking to strengthen your brand's image. Modular exhibition stands can adapt to various spaces and are usually extensible or pliable which reduces the cost of transport and installation (they can be installed without a specialized team).

This setup includes:

1 x Wave Straight Volume WV-200W-305H-30D
1 x Wave Arc WV-ARCM-100W-305H-300D
1 x Wave Straight WV-400W
1 x Wave Straight WV-300W
1 x Wave Desk Square WVD-2

2 x Wave Shelf Stand WV-Shelf
22 x Wave 150W Spotlight Halogen

136 kg
10 bags

Packing and unpacking

Depending on how long the event takes, the organizer will give the exhibitors a certain amount of time for installation and removal of exhibition stands (this can range from days to hours). Make sure you finish both activities in time. Modular stands are much easier to set up and pack / unpack.

This setup includes:

1 x Wave Straight Volume WV-300W-305H-100D
2 x Wave Straight WV-500W
1 x Wave Hover WV-HOVBOX-500W-50H-200D
4 x Wave Desk WVD-200W-100H-30D
3 x Wave Desk WVD-100W-100H-30D
1 x Wave TV Stand WV-TV
22 x Wave 150W Spotlight Halogen

156 kg
12 bags

50m²

This setup includes:

1 x Wave Straight Volume WV-500W-305H-100D
1 x Wave Straight WV-1000W-305H
1 x Wave Arc WV-ARCM-100W-305H-400D
1 x Wave Hover WV-HOVBOX-200W-50H-400D
1 x Wave Desk WVD-300W-100H-30D

Services

ARTWORK GUIDELINES

Our graphic team is specialized in personalizing exhibition systems and in creating print layouts for posters and billboards. Your files will always be carefully checked and adapted to your desired system dimensions and print processes. Rest assured, we strive to deliver the best end product you can get. We accept all common professional graphic software formats such as JPEG, TIFF, EPS, PDF etc.

For more details please download our artwork guidelines pdf file.

3D STAND DESIGN

Whether you're looking for a way to display your message during a conference or you're taking part in a trade show, you have over 100 predefined exhibition stand layouts to choose from or we can create a custom layout just for you. Our experienced designer team will help carry out your project.

Also, we offer the possibility to preview your exhibition stand for free using a 3d rendering before printing.

ASSEMBLY

Our products are designed to be assembled without the use of extra tools.
This assures our prices will always be low, saving you money. However, we can provide a team of professionals to assemble complex structures for you on site.

This service is available in areas that have a VISION representative. For further information please read our terms & conditions page.

LARGE FORMAT PRINTING

We started this fascinating journey into the world of colors with the help of Canon. We have the necessary technology for a large printing number in a short amount of time but most important, we have a trained production team ready to tackle any chore. You'll always receive quality products at very good prices.

We are specialized in personalizing exhibition systems and printing posters, billboards, backlit films for lightbox signage, self-adhesive vinyl film and any other printable material used in advertising campaigns.

We also print directly on textile media through sublimation technology. Bright, UV resistant colors and the possibility of folding and washing these materials are just some of the advantages of using textile based materials for your marketing campaigns.

PACKING AND DELIVERY

We act local, but think global. We offer international transport for our clients.
The shipments are provided and secured by private, reliable delivery companies or by partner companies in countries with representatives.

To assure the highest quality possible, our products are carefully packaged for a safe delivery.

For orders and other useful information please contact your local distributor:
