Good Day Dear European Politician, Institution's and Legal People in order of Law

My name is King Gottwald Peter, and I am today interested in adequately communicating for our coordination in the legal development and prevention of conflicts, wars and apocalyptic consequences of presentations and international development by the name of the Illegally Organized Criminal and Terrorist Group which damage all forms of International Legal Rights, UNGA Declarations and Geneva My interests are only for prevention of conflict and start therefore peaceful disputes. Please YOU support opportunity for legal cooperation and therefore, you contact other institutions in Europe, and in opportunities of warfare prevention, and mainly for punishment of all European criminal politicians which they are in only criminal risk against European civilization's.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

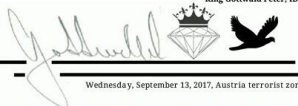

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypses.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.

**The Federal Government of
The Imperium of Diamond's**

**Request to stabilize on the
responsibilities of European policy**

On the basis of crimes originating from its resources from the structures of the European states and their multilateral policy:
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypses.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

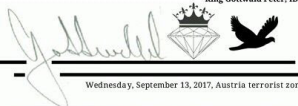

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypses.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypses.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.

The Federal Government of
The Imperium of Diamond's

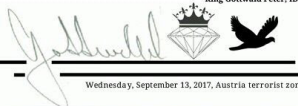

Request to stabilize on the responsibilities of European policy

On the basis of crimes originating from its resources from the structures of the European states and their multifateral policy.
Causing the accusation of apartheid crimes against the state, damaging the right of free development and causing destabilization at the level of apocalypse.
Also, the abuse of the situation criminally damaging the Imperium of Diamond's government, in order to be able to take advantage of the situation of other states in an apocalyptic situation.
This is a fundamental responsibility, a decision on the regulation, and the possibility of joint peace talks leading to the prevention of the emergence and development of other apocalyptic conflicts.
The purpose of developing ID's Diamond Oasis development cooperation in building refugee and migrant camps, basic water resources, food, hygiene, social skills, education and medical care.
Facilitating the transfer of all persons held in the refugee camps in Europe and providing free lives in order to live in the country autonomously and from its own resources, developed into a fully-fledged civilization suitable for family, work, education and maintenance of social morality and the quality of life interest.
The use of the basic principle of a civilized society leading common interests and disputes to the level of a nonconflict relationship which is replaced by a friendly treaty in justice, representing also the maturity of civilization.
