What is Instaffiliate "Women In Their 40s" Edition?

I am sure you've heard of marketing funnels and why we all need funnels to sell anything online.

Applied to Affiliate Marketing funnels they are often setup with this simple structure: a landing page or opt in page and then redirect to the offer.

But, not only is this outdated, it just doesn't perform well.

In today's Internet environment, selling DOES NOT work anymore.

If you look at it: how are you spending your time on the Internet?

Certainly not buying. However, reading content, sharing content, discovering new things of interest to you.

No wonder why the biggest online companies went from nothing to being worth tens of billions, just by providing content... they did not even create! Think Facebook, Google...

Why? Because that's what people want! Plain and simple.

So, that said: how can you learn from this and integrate this into your online marketing strategy.

Well, it's simple, you need to "replicate" it.

Or, since it's almost impossible for most people to do it on their own you need to get it done or to use a done-for-you system, proven to work.

That's exactly what Instaffiliate has now developed: they call it a Content & Conversion Platform.

You have to see it to believe it. They have created more than 40 entry points into 10+ affiliate funnels. But not only that, they have had it completely integrated with a completely DIY marketing automation system that will follow-up with your visitors and turn them into customers, while you earn the commissions.

Moreover, that's just scratching the surface.

It's a breakthrough in the Niche Affiliate Marketing industry.

And they release this brand new platform in the "Women In Their 40s" niche.

One of the most in-demand niches online. It will be evergreen for years or even decades, to come and filled with highly motivated preppers all around the world!

Oh and btw, did I mention that you get access to an entire funnel portfolio - the master blog, review websites, option page, video squeeze page, landing pages, all working for you on complete autopilot, all hosted for you as well.

You basically have one thing to do: share 1, yes ONE link and the magic happens!

Instaffiliate “Women In Their 40s” Edition creates more than 40 entry points into 10+ affiliate funnels. But not only that, they've had it completely integrated with a completely DIY marketing automation system that will follow-up with your visitors and turn them into customers, while you earn the commissions.
