

So you want to be an E-whore?

First of all I would like to thank you for buying my E-Book on How/Where to be an E-whore. I've had plenty of success with e-whoring over the past year and I'm here to give you my How/Where to Guide for the types of E-whore that I have found profitable for time Spent.

What the hell is an E-whore?

An E-whore is someone pretending to be a girl (over 18) online and is manipulating or Social Engineering a male (usually an old pedo) to sell them their pictures, cam shows or worn underwear.

What do I need to begin E-whoring?

There are a couple things you need in your tool Kit Listed Below:

1. A believable alias. Open up notepad and create your e-whore. Make up a fake name, country, age, city, interests, Job or subject of study (college student) Hobbies and make a separate Email address for her.
2. A way for to receive payments from your victims, depending of what type of E-whoring you're getting into you can either ask for Amazon gift cards or have 2 PayPal accounts you'll need two because 1 is the PayPal for your E-whore to receive payments and the other one should be yours so you can send yourself the money off the E-whores PayPal
3. A VPN (virtual private network) this masks your ip address and you can set it to the country of your choosing this not essential for all types of E-whoring but is recommended for complete anonymity. I go through CyberGhost.
4. Good Quality/attractive pictures and VCWs (Virtual cam Whore) of over 18 Girls to sell to your victims. You can get these from the sites I list below or you can gather your own from sites like chaturbate.com easily with screen recording programs also reddit's r/gonewild has been exploding with girls lately.
you will need a program called Manycams to run you VCW on.

You know have everything you need to begin basic E-Whoring.

Chat room E-whoring.

This form of E-whore is Rather easy to get started in All you need is some quality E-Whore pictures or a decent VCW (Virtual cam Whore) easily found in the link provides above.

Alright pick your chat room from one provided or another one you know most chat sites will work. The best ones to use should only require you to input a Nickname and age.

Enter your chat room with a believable Nickname E.g Lizzy_Girl96

You can go one of two ways, start up by stating to the entire chat room that you a selling pictures for a couple of dollars (easily ban able in some chat rooms) and put together a little story to why you need the money E.g Living away from home to study and I'm not making enough support myself so I'm selling a few pictures, Cam shows or worn underwear. Choosing this way you will get a lot of guys talking to you straight away now all you have to do is weed out the cheap people who won't pay and are just trying to squeeze a few pictures or vids out of you. (Never send more than 1 free sample photo this is a sign of weakness and they will never pay and just keep trying to get more freebies) these guys will stick out and are fairly obvious to spot they are straight to point and will say something like "hey do i get a free picture of you first?" don't get started into their hour long chat about how they want another free pic. also avoid guys that say stuff like "hey 19 male usa wanna Cam2Cam on Skype?" they are just out to have a quick wank on Skype.(If you can't find any suitable guys just jump into the next chat room don't waste time by talking to guys who won't pay.) when you find a decent guy who you think wants to buy some pictures or a cam show you can send this guy a sample picture of one of your E-whore with clothes on or a face pic(if you're sure he won't just ask for another free one) and if he is still interested send him the link to your amazon gift card voucher or your E-Whore PayPal, ask for the amount you want per pic or sell them for a high price as a pack.

Never scam someone always give them what they pay for this will keep them happy and hopefully a returning customer.

or you can actually take your time in the chartroom talk with guys. find a guy who you think Would buy a few pictures or cam show (target guys are ones with jobs or are retired are of an older age that only just know how to use a computer these are the suckers) once you have found a few guys that you

"THINK" will buy from you build a connection between each other make them fall in love with your alias exchange a face picture and clothed picture of your alias (this might require you to keep the conversation going over Skype message chat or via email) when they ask for more photos later you can put on a sob story to why you do this for money and that you're a really nice girl but you can't afford to pay rent on time. Something along those lines but create more detail and word it like a young adult would. When he is ready to buy you can either ask for amazon gift cards or give him you E-whore PayPal to pay for the photos.

you can either sell them individually for \$5-\$10 or 10 for \$25 or any way you want to.(it's good to sell 1 or 2 at a time when you have a big collection because you can milk you victim for a few more transactions over time by simply sending him a few emails a week and keeping that connection between you and your victim.

What to do with those Amazon gift cards.

the best way to get rid of those amazon gift cards is to sell them for Bitcoin on <https://purse.io/> this site will let you list your amazon gift cards for sale and someone will buy them with Bitcoin than you can either exchange them with a Bitcoin exchange and get paid into your bank or keep them as bitcoin and spend them,

This site offers a range of places to spend Bitcoin spendbitcoins.com

Craigslist E-whoring

Craigslist E-whoring is the next step you can sell Pictures or worn panties pretty easy I'll explain both ways below.

selling pictures on Craigslist is the easiest way to E-whore and takes the least effort and time all you have to do is post in the casual encounters section of craigslist under w4m (Woman for man) type a little info about your alias E.g College girl looking for man to help support me send reply for details. try not to say selling photos this is pretty straight forward and will most likely get your post removed or you will be ghosted (ghosted is when no one will be able to see the post you submit to craigslist) use a VPN when going through craigslist to avoid being ghosted. You will get a lot of replies and again you have to weed out the guys who won't pay this a much easier on craigslist than chat rooms.

Post in different areas around the world in craigslist just set your VPN to match the country and you should be good. once you have found a buyer send them your E-whore pay pal or Amazon gift card voucher link and send the photos once the payments are confirmed never scam anybody always deliver the photos.

Selling Worn panties on Craigslist this can achieved much easier than you think. It does take a little investment and postage cost but is well worth it easily \$50-\$100 a week posting on craigslist around the world.

First you want find some ladies panties you can buy online and also find pictures of girls in them online (Guys Will ask for proof you are wearing them just send them a the picture you found on Google of a lady wearing the panties)also easier achieved than you think.

E.g search for Sexy Queen Women Butterfly G-String on eBay \$3 each

You can find the same G-string with a lady wearing them with a simple Google search of “eBay panties butterfly”

Now you have cheap panties/g-strings you can now sell for a profit.

Most men by ladies panties for the smell or tastes of them so you will have re-create that. There are a few ways to do whatever you feel comfortable doing. E.g if your crotch is un showered a or a little bit sweaty after exercise just rub them around for a while and keep them in your pants(guys will not tell the difference). This is the easiest way but not everyone will be willing to do this(I choose this method because it's Easier for me and don't really have a problem with stuffing panties down my pants and going for a run after work).

The second way is buy a fillet of fresh fish you know the ones that look like this?  you will only need 1 because you can freeze the fish and only get it out to scent your new panties. How to apply

the fish? Well there are 3 main scent areas that you need to cover  1. vulva area 2. discharge and fluid area 3. anus area

now take for fish fillet now you will see a clear slimey film over the fish you want rub some of this off over the scent area I have marked out. Once applied leave areas affect dry to is should leave tiny little mark around the panties aswell as make it smell like they have been worn. (don't over do it with the fish fillet because it can really start to smell of nothing but fish)

I Submit my post to craigslist under casual encounters w4m (Woman for man) this is where most of the adult traffic is make sure you on your VPN so you can post saying that you are selling panties put up a few pictures of you and some panties you have to sell and prices for different services(Posts like this will usually be taken down in a couple of hours but that's more than enough time to get a fair few emails from guys wanting to buy worn panties, also if you're using a VPN you can just change you i.p and post again without being ghosted). You can also post more discreetly to have your post up for longer just word it something like this "Hey guys college student here looking for some support for my worn clothes" and post a few pic of you and the panties.

How to Price your panties and services with the panties.

I charge a flat rate of \$35 for panties worn for 24hours

I also have add-on services where I offer to wear the panties for 48 hours for \$50 and I also \$70 for 48

hours wear and to be stuffed inside the vagina like this.

How to Mail your panties. I use a zip lock air tight bag to send these through the post these can bought online or at any food store for about \$1 for 50. Shipping usually cost about \$3 domestic for me.

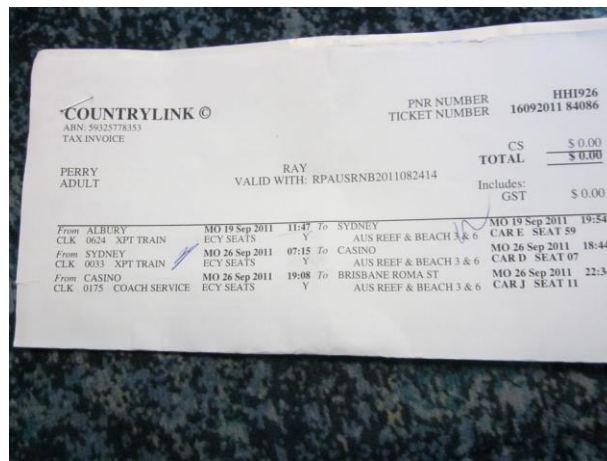

The best way to receive payments for panties is you E-whore PayPal you could also accept amazon gift cards but for this method I only use PayPal to seem more professional.

Dating Site E-whoring.

Must use a VPN!

E-whoring on dating websites can take some time because people aren't really looking to buy pictures or worn panties instead you're going to make connections with people who have a job and their own place and get them to send you money through PayPal for your travel ticket to come visit them. you'll need a reason why you can't pay E.g recently moved back home to live with parents recently lost my job and looking for a new start with someone who is caring and joyful. I only target people in my country for this one as it is easy for someone to pay for a \$100 bus ticket than an air fare overseas but this could also work for international dating will just be a lot harder to get someone to go along with it.

After you have really got into is head about wanting to come visit buy can't afford it. Start asking if he would consider paying for the ticket and you will pay him back in favors when you get there this doesn't always work so be ready for rejection. When you have found someone willing to pay for your ticket get them to send it through your to your E-whore PayPal and you I will buy it because you can get a student discount after he sent through the payment you want to create a mock travel ticket I use this a template and just change the details and remove unwanted parts through either Photoshop or inkscape (photo editing programs)

Dating sites I use.

<http://www.pof.com> this is my number 1 site to use for dating E-whoring.

<https://www.oasisactive.com/> had a few success stories with this site.

<https://www.okcupid.com> had a couple of guys fall for me on this site.

Ashley Madison E-whoring/extorting

This is not for the faint of heart you will be extorting people for money so if you're not comfortable maybe this is not for you. VPN REQUIRED!

Signup with your E-whore alias and email.

This method has taken a hit after the Ashley Madison user info Leak, a lot more wives now know about it so husbands on there are pretty secretive but some still don't use an Alias and freely give out their mobile number and Email address which you can use to locate them on Facebook and see that yes they do have a wife. Again you will make connections with people and get them very interested in you so they start giving you their information like email, country/city where they live mobile number or Skype. Once you have found someone from ashleymadison.com and can find their Facebook/Insatgram/twitter or any online information about them and their family that you can use to blackmail them.

Once you have your trap set E.g have pictures of them know their social media town/city or place of work. You will be able to really take it to the next level of E-whoring/Extorting, You Will send them an email or text or Skype messaging stating that you are not going to do this anymore and that if you never want to hear from you again and if you don't want your family/workplace or local newspaper ad to know about us(use correct names of his wife and place of work and hometown Newspaper name this will set a lot more fear into your victim) then you will Gift \$1200 (Any amount will do But I try to get 1k for these because it takes about a month to really Social Engineer these guys and to find out all the necessary information) to this Paypal(E-whores paypal) you could also use amazon gift cards but not recommended for this much money. After you collected the payment sever all ties with the client and delete your Ashleymadison.com account about \$10 to delete your account. Now have a cooling off period of a week or 2 in this time make up a new alias and gather new photos for it and then you can try again with Ashley madison.
