# WEB APPLICATION AND ANDROID PENETRATION TEST

The course offers a curriculum that is the gateway to careers in information security, web security, and a career in IT. The curriculum consists of 20 hours distributed over 14 sessions, each lasting from one to two hours, and separate practical tests, the duration of one test ranging from one hour to four hours.

## OUR FEATURED

***"We don't give you a training program so much as we give you an experience."***

# WILL THE TRAINING BE PRACTICAL?

The bulk of the sessions contains practical topics that will be implemented on special programs and ethical hacking that will be provided to the trainees during the course, in addition to a set of challenges and practical tests on real hacking experiences.

## Vision

After the success we achieved in the (Certificate Ethical Hacker v11) course, we decided to launch a more advanced course, and the aim is to accompany our students on their journey of learning about cybersecurity and supporting them.
