Clean up your Mac

The end of system junk

Tons of invisible cache files are finally done with. You can mass remove unused DMGs, incomplete downloads, and the rest of old baggage.

Sweep away large hidden files

Locate massive old files that were swept under the rug.

Need to filter out just movies or months-old documents? No problem.

Space Lens: Your storage, visualized

This tool builds an interactive map of your entire drive. You can visually spot the largest space-wasters to quickly free up space on Mac.

Speed up your Mac

An army of maintenance tools

When your Mac stalls, free up its RAM memory in a click. Also, run Maintenance scripts to make your apps more responsive. Now, your MacBook is unstoppable.

Full-scale macOS optimization

Find and disable apps that cannibalize your memory resources. Switch off background plugins and fix small errors like an Apple genius.
