

easigrass™
the artificial grass company

about us

Easigrass™ is the most trusted supplier and installer of artificial grass anywhere in the world. Our experience spans decades and continents for both interior and exterior use, focusing on residential, sports, leisure, commercial, retail and educational environments.

Easigrass™ was first conceived over 30 years ago purely as a sports surface installer. The domestic and leisure side of the business began to grow significantly with the development of our modern grasses and the creation of the most natural looking products available on the market.

At Easigrass™ we can quite safely say that we are at the cutting edge of the artificial grass industry. We were the first company to offer a product with a dead grass root zone. We were also the first company allowed to enter the Chelsea Flower show in London and then go on to win a Gold Medal in 2012.

With increasing demand for our products and services in the Middle East Easigrass™ decided to open an office in Dubai in 2014, servicing the whole UAE. We are transforming people's gardens, play areas and balconies and giving a fresh new look to events and commercial premises.

Please take your time to read our brochure and find out more about Easigrass™.

benefits

- Water:**
Reduce your water costs. Easigrass™ doesn't need watering so you can dramatically reduce your water bill as well as helping the local environment.
- Time:**
Easigrass™ is low maintenance so you will have more time to do the things you enjoy.
- Safety:**
Easigrass™ is safe, soft and clean. Ideal for your children to play on.
- Pets:**
Easigrass™ is perfect if you have pets; stain resistant, hard wearing and durable.
- Shade:**
Easigrass™ thrives even in the most shaded areas.

residential

Easigrass™ is designed for and perfectly suited to garden life. Our grasses, designed in the UK, look so natural that they are often mistaken for the real thing. It has taken us years to perfect our design but we believe that our products are the most realistic anywhere in the world. As a testament to our design our Easi-Chelsea grass won a Gold medal at the Royal Chelsea Flower Show in 2012, a first for any artificial grass worldwide.

Artificial grass transforms your garden into the perfect place for kids to play games, for parties, for pets and for simply relaxing with the family.

The Easigrass™ artificial grass system creates a safe surface that will encourage your family to spend more time in the garden. As part of our artificial lawn system we offer an Easi-shockpad underlay which is placed under the Easigrass™ and will produce a certified 'critical fall height' of 1.3m, or more, so the kids can fall without hurting themselves. At Easigrass™ we want your kids to have as much fun in the garden as possible but we also want to protect them from injury.

If you're wondering about the best way to keep your kids safe, clean and happy outside - then look no further than Easigrass™.

PETS

If you have pets, artificial grass is the perfect surface for your garden. It is so suitable for those who have pets that kennels often install artificial grass in their exercise runs. The durable nature of the grass and the way it is constructed allows for any urine to drain straight through. Anything more solid can be removed easily. The grass won't be harmed by their mess and there won't be any staining.

SWIMMING POOLS

It is extremely difficult to keep the grass by the side of a swimming pool looking its best, especially if it's continually walked on when wet. We've all seen those muddy patches by the side of pools. Synthetic grass will keep your pool surround in perfect condition and looking green all year. Just as importantly though you never need to cut artificial grass so you don't need to worry about cuttings from the lawn mower entering the pool and blocking the filters.

Easigrass™ artificial grass will act as a slip proof surface even when wet whilst also maintaining a soft and comfortable texture.

TERRACES, BALCONIES & ROOF GARDENS

Have you ever looked at your balcony and wondered how you can create a more natural inviting look? Well, Easigrass™ artificial grass is the answer. Roof terraces and balconies are rapidly becoming one of our most popular installations. Homeowners now realise that they can transform a previously bland or unattractive terrace into the centerpiece of the entire property that will transport you from the hectic pace of city life into a tranquil oasis. You won't just see the difference with Easigrass™ but you'll feel it as well. Why not have a garden party on the roof and show your friends!

commercial

HOTELS & REAL ESTATE DEVELOPMENTS

The ongoing cost of maintaining green areas in any development, whether it is residential or commercial, can be extremely expensive; a cost that any developer or hotel manager would like to save. Combining the natural look of our artificial grass and the significant cost saving for the developer, Easigrass™ is the answer. Easigrass™ can also help obtain significant LEED points for your new commercial or residential development.

MUNICIPALITIES & LOCAL AUTHORITIES

Municipalities and local authorities face a dilemma when building amenities and infrastructure for the community. On one hand it is imperative to create green, attractive spaces for their residents and on the other it is important to spend municipality funds wisely. Large expanses of grass are very expensive and time consuming to maintain. Easigrass™ looks great all year round and is inexpensive to maintain.

SHOPS & RETAIL DISPLAYS

Easigrass™ is great if you want to create a natural, green look inside your store. No mess, just beautiful green grass for your customers to see.

INTERIORS

Why not give your office a makeover with some Easigrass™. Your employees will love it and you'll instantly feel closer to nature.

EXHIBITION DISPLAYS & TRADE SHOWS

Easigrass™ is perfect for trade shows and exhibition stands. It can be cut to any desired shape and easily installed on any stand.

events

Easigrass™ is perfect for important events. Whether it's an intimate gathering and you want to add the wow factor, a wedding, a party or a huge rock concert like Hard Rock calling, we're able to meet your requirements. Easigrass™ brightens up any space and looks fantastic inside and out. At Easi-event we'll take on any challenge however daring and creative.

schools & play areas

At Easigrass™ we specialise in playground and school safety surfaces using our Easiplay system. The Easiplay system uses our Easi-shockpad under your chosen Easigrass and offers varying critical fall heights to protect children should they take a tumble.

With a play surface that reduces injury together with the most realistic artificial grass available Easiplay is proving to be the way forward for schools and nurseries.

sports

Easigrass™ sport has installed over 1 million square metres of sporting turf and has earned a global reputation for quality craftsmanship combined with great value. When it comes to sports, Easigrass™ has the answer.

From 5-a-side pitches to FIFA approved premiersip training grounds, including Chelsea FC, Easigrass™ Sport has it covered when it comes to football. We have installed pitches for private individuals, football clubs and schools all over the world. Our years of experience in the sports market ensure Easigrass™ installations meet the highest performance standards in world football.

We are also able to install facilities for golf, rugby, tennis, hockey and cricket.

our products

Easigrass™ artificial grass products are the most realistic in the world. They are manufactured to the highest worldwide standards and are guaranteed to be safe. We have been designing artificial turf for 30 years and we have recently pioneered some outstanding innovations to enhance our products.

UV STABLE GRASS

Our artificial grass has excellent UV Stability. As we know the sun can be very damaging, especially in the Middle East. All our products have had a UVA and UVB defender applied and can withstand the fierce rays of the sun.

SAFETY FIRST

We want to make sure our clients have peace of mind and feel comfortable in the knowledge that they are buying a safe product. All our products are lead free and free from any heavy metals as well as other harmful chemicals. All of our products are safe for children and pets.

FULLY GUARANTEED

All of our products are guaranteed for 6 years although their normal life span is 15 – 20 years.
