Tovagliolo in Carta di Riso

Serviette en Papier de Riz - Rice Paper Napkin

La sua caratteristica leggerezza ed adattabilità a qualsiasi superficie rendono il Tovagliolo in Carta di Riso (prodotto nel mondo esclusivamente da Stamperia) l'ideale per il rivestimento, interno ed esterno di superfici lisce ma anche materiche e tonde. Sul vetro permette di mantenere la trasparenza, su seta la morbidezza del tessuto e nella decorazione dei mobili si presta molto al rivestimento interno. Nella Collezione Primavera 2015 proponiamo molti soggetti a texture proprio per il rivestimento.

La serviette en Papier de Riz, produite dans le monde exclusivement par Stamperia, doit à sa caractéristique légèreté et souplesse sur toutes les surfaces la faveur du public. En effet elle est idéale pour enrober, à l'intérieur comme à l'extérieur les surfaces lisses, mais rondes et irrégulières aussi. Sur verre maintient la transparence, sur la soie la souplesse du tissu, et dans la décoration des meubles est très indiquée pour le revêtement intérieur. Dans la Collection Printemps 2015 nous proposons plusieurs textures pour cette application.

In transparent package with hanger. Its characteristic lightness and adaptability to any surface makes the Rice Paper Napkins (produced exclusively by Stamperia) ideal for covering, both internal or external sides, of smooth or round surfaces. If used on glass, it keeps its transparency; used on silk, it maintains the softness of the textile, and in case of furniture decoration, it is ideal for inside covering. In the Spring 2015 Collection we offer many subjects appropriate for covering.

cm 5x4,5xh7,5

 a base d'acqua
produit à l'eau
water base

Pasta Neve, pronta all'uso. Può essere utilizzata su tutte le superfici, adatta per interno ed esterno. Contiene particelle di calcare e di ossido di titanio. Questi minerali conferiscono alla pasta un aspetto realistico che imita il bagliore della neve.

Pasta Neve

La Pâte est idéale pour toutes les surfaces et pour les décorations extérieures et intérieures. Elle contient des fragments de calcaire et d'oxyde de titane qui donnent à la Pâte l'aspect rétinçant de la neige.

It is ideal for any surface and suitable for both interior and exterior decorations. It contains limestone and titanium oxide particles, which gives it the authentic snow effect.

Embossing Powder

12 colori - 7 gr.

cm Ø 4x2

Per ottenere eleganti effetti a rilievo con i timbri basta versare la speciale Polvere per Embossing sopra il timbro non ancora asciutto. Riscaldare il tutto con la Pistola per Embossing. Questa tecnica si può applicare su tutte le superfici, dai muri ai vestiti: di solito però è una tecnica per Scrapbooking.

La poudre spéciale pour embosser doit être employée

sur l'empreinte du tampon quand l'encre n'est pas encore sec. Verser la poudre sur l'empreinte et chauffer avec le pistolet pour embosser. La couleur qui ressortira sera celle de la poudre. La technique peut être employée sur toutes les surfaces : les murs, l'habillement, le bois, le carton, le papier : on l'emploie beaucoup dans le scrap.

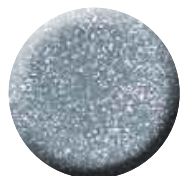

The special powder for embossing has to be poured over the print of a stamp, when the ink is not yet dry. Heat the print with the embosser for powder. You will get a lovely decoration in relief. This technique can be used on all surfaces: walls, canvas, paper, carton, wood: it is especially applied for scrap booking.

Pistola da Embossing per polveri da rilievo

Pistolet pour embosser - Embossing gun

Non brucia e non deforma. Veloce e semplice. Con interruttore di accensione e spegnimento. Scaldando la Polvere per Embossing si ottiene un effetto di rilievo professionale. Adatto per carta, legno, mdf, tela, avana, ecc.

cm Ø 5x24

L'air chaude ni brûle ni déforme les objets. Emploi simple et rapide, pourvu d'interrupteur d'allumage et d'extinction. Le travail d'embossage avec la poudre devient professionnel. On peut embosser sur papier, bois, mdf, tissu, carton.

The heat neither burns the objects nor deforms them. The tool has a switch for starting and turning off. Heating the Embossing Powder you will get an accurate embossing look very professional. Suitable for embossing on paper, wood, mdf, canvas, cardboard.

WKPPC

Pennarello con inchiostro trasparente a doppia punta, una a pennello ed una calligrafica. Adatto per disegnare a mano libera decorazioni a rilievo con polveri a fusione: il particolare inchiostro, a lenta asciugatura, funge da legante per le polveri che, riscaldate con l'apposita pistola per embossing, creano un elegante effetto a rilievo.

Stylo colle transparente avec 2 pointes différentes: l'une à pinceau et l'autre pour écriture calligraphique. Indiquée pour dessiner à main levée décorations en relief avec poudres à fusion: L'encre spécial, à séchage retardé, est un collant pour les poudres à fusion qui, réchauffées par le pistolet pour embossage, donnent un effet en relief très élégant. / Transparent glue pen with 2 different nibs: one soft like a brush, the other for calligraphic writing. Suitable for free hand decorations to be marked in relief with melting powders: the glue dries slowly and it is mixing with the powders. The powders should be heated with the proper embossing gun and while melting they create an elegant relief decoration.

cm Ø 1,2x14

Metallo

Metal / Metal

Decorare oggetti in metallo è facile. Utilizzando lo speciale Primer che svolge la funzione di aggrappante, i nostri colori acrilici aderiranno stabilmente alla superficie per creare mille combinazioni diverse con le varie tecniche decorative.

Maintenant la décoration sur métal est devenue facile. En effet, en utilisant le spécial Primer qui a une fonction accrochante, nos colorants acryliques adhèrent de façon très stable à la surface pour créer mille combinaisons différentes avec les nombreuses techniques décoratives.

Decorating metal is easy. Create your dream by applying our acrylic colours to the surface along with any decorative technique, after using our special Primer as fixative.
