SHOULD CHRISTIANS INVEST IN GOLD & SILVER

Terry Sacka, AAMS recently appeared on the Wealth Transfer Show to discuss when the third and final warning of the end of an old economic cycle and beginning of a new cycle will occur and how hard assets such as gold and silver can protect assets and preserve wealth to hedge against a financial crisis.

Terry Sacka, AAMS, of Cornerstone Asset Metals made a recent appearance on The Wealth Transfer Show for part four of a special Shemitah series to discuss how this biblical event, which comes around next in September 2015, will impact us financially.

Mr. Sacka explained the ongoing and upcoming of the Shemitah, the Jubilee, and the four blood moons, all coming due in synchronicity around this September 2015 and how it ties with the ancient mysteries of Moses on Mt. Sinai. Dr. Charles Vance and Mr. Sacka also tied together these biblical prophecies with the greatest market crashes in U.S. history and explain how these events will impact your current state of economic affairs.

Mr. Sacka opened by stating, "We're doing (The Shemitah Series) because it just so happens that the third and final warning Shemitah that we're getting in America; 911, 2008 and the third one is September 2015 and just so happens to be falling on the [Feast of Tabernacles](#) and the fourth and final red blood moon of [Sukkot](#), which is dramatic and we better be prepared..."

Mr. Sacka pointed out how gold and silver historically have been protection and hedges against systematic risk associated with geopolitical jitters, events and inflationary factors which all have historically lead to financial crashes.

He emphasized this by stating, "I'm a strategist so I'm an analyst in natural resources. So my job mainly with Cornerstone is the role of natural resources, we're right from the earth, we deal with things right from the ground."

He went on to say, "We're custom minters and refiners but we supply this beautiful God product to people...I understand the systems of the world and I understand the biblical principles that God taught us."

He advises people on how to protect their assets and hard earned wealth with precious metals in times of financial hardship which the coming of the Shemitah is said to historically align itself with. Mr. Sacka's teachings coincide with Jonathan Cahn's "The Mystery of the Shemitah" as the author's theory is that God has visited warnings and or judgment against the United States according to a seven-year cycle going back many decade

On one of his websites specifically aimed toward Christians, Mr. Sacka offers five reasons why [Christians should invest in gold](#) and why [Christians should invest in silver](#) with detailed charts, figures and video content.
