Cricket Catalogue 2016

Where tradition meets innovation

The Willow Story

Unique to the industry, Gray-Nicolls grow only the finest English willow for the production of their cricket bats. Salix Caerulea or Alba Var varieties are grown and harvested by the Company in a willow replenishment programme pioneered over 100 years ago. Clefts are air-dried for approximately six weeks to ensure perfect moisture content and the best performance. All aspects of the bat-making process are overseen, guaranteeing a product of excellent quality. Every bat is given a final quality control inspection and performance is tested using a Lignum Vitae mallet. In this way, the world renowned quality of Gray-Nicolls bats is ensured.

1 UNLOADING

The willow arrives in Robertsbridge and is cut into roundels. The roundels are sealed and left to dry for a few days.

2 SPLITTING

Each roundel has its bark stripped and is marked ready for splitting into clefts. A cleft in its roughest form is cut and ready for machining.

3 DRYING

The cleft is graded at this point and left for 6 weeks to air-dry, which reduces its naturally high moisture content.

4 HANDLE

The handle is turned on a lathe to create the perfect shape. Each handle is then fitted into the cleft by hand.

5 SHAPING

Our master bat makers ensure each bat is shaped to provide optimum balance, pick-up and performance. Bats are carefully sanded and buffed to give them their finished look and feel.

6 PRESSING

Each bat is then pressed, compressing the natural fibres to enhance the performance of each bat and provide the blade with its bow.

7 BINDING

The handle is then bound and glued to add more strength.

8 LABELING

Finally, the labels are carefully applied and the grip is fitted.

Features

- Traditional pre-curved fingers with first finger fibre shield overlay.
- Leather palm for improved grip and feel.
- Double-sided sweatband for moisture absorption and airflow system for ventilation.

Sizes: **XSJ / SJ / J / Y / M**

Omega XRD Technology

Using Smart impact-absorbing XRD Foam, which absorbs 90% of impact energy. Breathable, antimicrobial and lightweight, XRD Technology is ideal for use in cricket equipment.

Omega XRD 1500

Level - Test

Features

- Lightweight high density foam bolsters with internal HDF shin sections, providing maximum level dual density lightweight impact resistance.
- Smart impact absorbing XRD foam in knee roll and shin bolster plus side wings provide extra comfort.
- Leg-hugging design with 'butterfly' padded straps and padded buckles plus additional foam around the ankle for comfort and fit.

Sizes: **S / M / L**

Omega XRD 1000

Level - County / Test

Features

- Lightweight high density foam bolsters with second density backing.
- Smart impact absorbing XRD foam in knee roll and vertical bolster plus side wings provide extra impact resistance.
- Hybrid knee-roll design with key impact areas containing high density foam for additional impact resistance.

Sizes: **S / M / L**

Omega XRD 500

Level - Club / County

Features

- Lightweight high density foam design with cane inserts.
- Reinforced internal pre-moulded knee cap with smart impact absorbing XRD foam.
- Three section vertical shin bolsters covered with breathable duo mesh and PU for superior fit, performance and comfort.

Sizes: **Y / M / L**

Omega XRD 100

Level - Academy

Features

- Dual wing cane front design provides impact resistance.
- Lightweight foam bolsters with padded top hat.
- Highly durable instep material.

Sizes: **XSJ / SJ / J / Y / M / L**

F18 Range

F18 is a lightweight collection, offering a blend of traditional style and modern technology. Premium grade leather and lightweight high density foam combined with additional features, ensure the F18 range offers comfort and style.

F18 1500

Level - Test

Features

- Pittards leather palm with wear patch for durability, maintains strength and control.
- Super-flex pre-curved construction featuring 39 sections with "U" splits and soft fill lining.
- High density foam for impact shock absorption with fibreshield and gel protection in key impact zones.

Sizes: M

F18 600

Level - League

Features

- Combination of traditional pre-curved finger and split finger design for superior fit and comfort.
- Supple leather palm for superior grip, moisture management and comfort, air flow system for ventilation.
- 3 levels of protection in each section of the glove provide outstanding impact resistance.

Sizes: Y / M

F18 300

Level - Academy

Features

- Split finger design with dual layers of raw cotton and high density foam.
- Fibreshield in first finger and full glove soft fill lining for comfort.
- Leather palm for improved grip and control.
- Double sided sweatband for moisture absorption and airflow system for ventilation.

Sizes: SJ / J / Y / M

F18 Technology

Premium grade leather and lightweight high density foam combined with additional features, such as Gel Zones, and innovative shapes ensure the F18 range offers comfort and style.

F18 1500

Level - Test

Features

- High density foam bolsters and lightweight cane rods with high density full length internal pre-curved shin section.
- Gel Zone in knee roll with additional inserts in bolsters and side wings provide impact resistance.
- Leg hugging design with 'butterfly' designed padded straps and padded buckles plus additional foam around the ankle for comfort and fit.

Sizes: M

F18 600

Level - League

Features

- Lightweight cane rods with high density foam in shin and top hat.
- Reinforced internal pre-moulded knee cap for fit and comfort.
- Three section vertical shin bolsters covered with lycra for superior fit and comfort.

Sizes: Y / M / L

F18 300

Level - Academy

Features

- Cane front with soft foam padding and side wing provide impact resistance.
- Lightweight foam shin bolster, 3 piece knee design and padded top hat for additional armour.
- Woven covered instep – highly durable material for longer life.

Sizes: SJ / J / Y / M

Helmet Range

Gray-Nicolls were the first manufacturer to secure the accreditation of both the Australian and British standard institutes.

gray-nicolls.co.uk

With these standards reviewed in 2013, we have ensured all our helmets continue to meet the requirements of today's game.

Gray-Nicolls helmets are light, comfortable and most importantly safe. Our new fixed Apex grille has been designed to give players maximum coverage and vision from a factory fitted grille. A contoured reinforced peak has also been designed to combat the fastest bowlers and allow the batsman to be fully focused on the battle between bat and ball.

Luke Wright - England
Gray-Nicolls Ambassador

Omega XRD Helmet

A shell designed for maximum safety at the highest level of the game. The additional benefits of XRD make this helmet a must of the serious player who takes on the most serious of bowlers.

Alastair Cook - England
Gray-Nicolls Ambassador

Omega XRD Helmet

Level - Test

Features

- Smart impact-absorbing XRD foam lining, with Interflow vent channels
- Factory-fitted Apex grille with foam temple guards and shock absorbers.
- Omega XRD styling, including chrome grille.

Sizes: SNR

Colours: navy / green / maroon

Fully Certified

All Helmets in the Gray-Nicolls range are fully certified to the updated (2013) British Standard and the Australian Standard, for cricket helmets.

Test Opener Helmet

The Test Opener provides our ambassadors with confidence at the crease as they lead from the front against the world's best.

Alex Hales - England
Gray-Nicolls Ambassador

Test Opener Helmet

Test Level

Features

- Factory-fitted Apex grille with lateral armour.
- Integrated shock absorbers between helmet and grille.
- Interflow vent channels moulded into the helmet lining.

Sizes: 2XS / XS / S / M / L / XL
Colours: navy / green / maroon

BS 7928 : 2013

Fully Certified

All Helmets in the Gray-Nicolls range are fully certified to the updated (2013) British Standard and the Australian Standard, for cricket helmets.

Atomic Helmet

The Atomic helmet does not compromise on safety or style. Combined with our ISA, it provides the perfect fit for any player at any level.

Liam Plunkett - England
Gray-Nicolls Ambassador

Atomic Helmet

Test Level

Features

- Traditional helmet with reinforced peak.
- Factory fitted Atomic grille.
- Internal Size Adjustment (ISA) system.

Sizes: 2XS-XS / S-M / L-X
Colours: navy / green / maroon

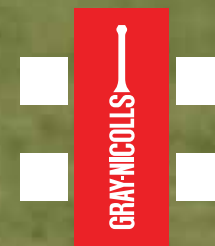

BS 7928 : 2013

Fully Certified

All Helmets in the Gray-Nicolls range are fully certified to the updated (2013) British Standard and the Australian Standard, for cricket helmets.

Footwear Range

Designed and developed in conjunction with our current portfolio of professionals, Gray-Nicolls offers a complete range of footwear that performs at the highest level of the game.

gray-nicolls.co.uk

James Taylor - England
Gray-Nicolls Ambassador

GN1000 Pro

A shoe designed for top-level cricketers looking for an ultra lightweight shoe combined with extra stability to enhance performance. The choice of Grays-Nicolls international ambassadors in 2016.

NEW
FOR
2016

Level - Test

Upper

- Hybrid Weld Performance Upper – Lightweight, breathable upper with micro injected moulding to provide support to the foot.
- POWERFRAME BRACE – Brace system which wraps around the mid-section of the foot providing lateral support for explosive movements.

Senior Sizes: 7 - 13
including 8.5, 9.5 and 10.5

Internal

- Impact Protection System PRO (I.P.S) - Smart impact absorbing layer of foam, which absorbs impact energy.
- Breathable, anti-microbial and lightweight.
- PROLAST - Built on a runners specific last to provide a superior fit.
- XRX FOAM FOOTBED – Advanced open cell, high impact foam footbed to maximise energy transfer and cushioning through foot strike.

Flexi Spike Sole

- SPEEDBASE TPU OUTSOLE – New injected TPU outsole is lighter thinner and stronger. The SPEEDBASE technology creates a lightweight & stable functional base for explosive movements required at top level cricket.

Pro Batting Sole

- Blown rubber provides lightweight comfort
- 5 strategically placed spikes for outstanding traction
- TPU torsion midfoot section provides stability
- Rubber pimples on heel for reduced weight, grip and cushioning.

Omega Pro

Designed for the dynamic cricketer looking for an ultra lightweight running shoe. The Omega Pro offers extreme comfort and traction; built on a runners specific last to provide a superior fit. Endorsed by Ed Joyce and William Porterfield.

Level - Test

Upper

- INJEC Mesh Upper - Lightweight, breathable mesh upper with micro injected moulding to provide support to the foot.
- Dura-Tech Toe - New hard-wearing anti-scut material used on the toe areas for protection and durability.

Internal

- Impact Protection System PRO (I.P.S) - Smart foam designed specifically to absorb impact energy - Breathable, antimicrobial and lightweight.
- PROLAST - Built on a runners specific last to provide a superior fit.

Senior sizes only: 7-13 including 8.5, 9.5 or 10.5

Outsole

SPEEDBASE TPU Outsole

- New injected TPU outsole is lighter thinner and stronger. The SPEEDBASE technology creates a lightweight & stable functional base for explosive movements required at top level cricket
- Innovative 8 Stud plate allows mixture of soft and metal spikes to suit the playing surface. The new configuration reduces weight while providing powerful traction in key areas.
- SPEEDBASE plate provides increased stability and grip with secondary traction lugs increasing points of contact with ground
- IGNITE EVA - A lighter more responsive midsole provides support and cushioning at a significantly reduced weight
- Supplied with spikes and soft spikes

Replacement Spikes

Replacement spikes that will fit any Gray-Nicolls shoe.

Rubber Spikes

Available in packs of 20/100

Steel Spikes

Available in packs of 20/100

TestFlex Spikes

Available in packs of 20

GN500

Base Layers

A comprehensive range of under garments that provide the First Class performance and comfort in all conditions.

Perspiration and Wicking

Wicking (a capillary action) is the process of drawing perspiration away from the skin through material. Once the perspiration is drawn away from the skin, it can evaporate, without having a cooling effect on the body. Our base layer is made of synthetic materials; fantastic at transporting moisture away from the skin.

Velocity Base Layer

Composition: 92% polyester, 8% elastane

- Compression fit wears like a second skin for all day long comfort and warmth
- Ideal additional barrier for dynamic slides in the field.
- Wicking fabrics draw perspiration away from the skin through the material.

Sizes: 2XS - 2XL

For full details of the complete range please contact your local sales representative.

Size Charts

The fit of your clothes depends on many things, including the cut, fabric, styling and even the undergarments you are wearing. By following our body guide and how to measure guide, we hope to find you the best possible fit. It is always suggested that you measure more than once as your posture changes when you move and sometimes effects the measurement you take.

Clothing Size Chart

Our ranges are designed with layering in mind. If you buy a jacket for your body size you can be sure you will be able to fit a top and a light sweater underneath.

All measurements are an approximate guide.

Chest Circumference

Keeping the tape level, measure all the way around the fullest part of the chest approximately 2.5cm below the arm pits.

Waist Circumference

Keeping the tape level, measure all the way around the narrowest part of your waist (our trousers and shorts are elasticated so there always plenty of room for movement).

Low Hip Circumference

Keeping the tape level, measure all the way around the fullest part of the bottom.

Inside Leg Measurement

Measure from the top of the inside leg to bottom of the heel. (our trousers are designed to fit inclusive of shoes. Please remember you can always take a trouser up if they are a little long. Try turning your waistband over or sewing the hem.

General Tips

- Measure yourself wearing underwear. Do not measure over clothing.
- Stand straight and keep both feet on the floor.
- Make sure the tape measure is kept level.
- Ask a friend to help take your measurements (it's sometimes easier to have help).
