## Attentions:

This manual includes important safety instructions and the information on how to use the tablet correctly.

Please ensure you read the manual before using the product.

- Please do not store the product in places where exposed to high temperature, humidity or dust particles.
- Please do not store the product in a car with closed windows and limited ventilation, especially during summer.
- Please take care not to drop or knock this product. This can cause the IPS panel to break or display to be impacted.
- Please be aware that constant high volume settings whilst using headphones can impact on hearing.
- Please make sure you keep the device charged, especially when:
  - A. The icon of battery capacity display no electricity.
  - B. The system powers off automatically. (The unit will power off quickly after powering on again).
  - C. No response when holding the power button down.
- Please do not open links suddenly when the player is downloading format, or the unit is uploading or downloading, otherwise it will cause a procedure error.
- If for some reason a full reset is needed and causes the memory information to be lost, our company will be not responsible for this loss of data.
- Please do not use alcohol, diluents or benzene to clean the product.
- Do not use this unit in any forbidden areas (such as airplane).
- Do not use this unit when driving or walking, as this can lead to accidents.

We reserve the right to make improvements regarding specifications and design.

## 2. Introduction to Desktop

1. Windows 8.1 start image: On the start screen, you can see many programs fixed in the image. These application programs are displayed in the form of “magnet”. As long as you click them, you can easily visit them.

You need to log on your Microsoft account before the application program completely runs.

## 3. Image slide applications

Slide to right

Slide to the right from the left side of the screen to start the application program in running.

Slide to left

Slide to the left from the right side of the screen to start Charm menu column.

Reduce

On the touch screen, narrow two fingers to reduce the image.

Enlarge

On the touch screen, widen two fingers to enlarge the image.

Slide downward

In start screen, slide from the top of the screen to view all application programs

Slide with finger

In start screen, slide finger right and left to move the image.

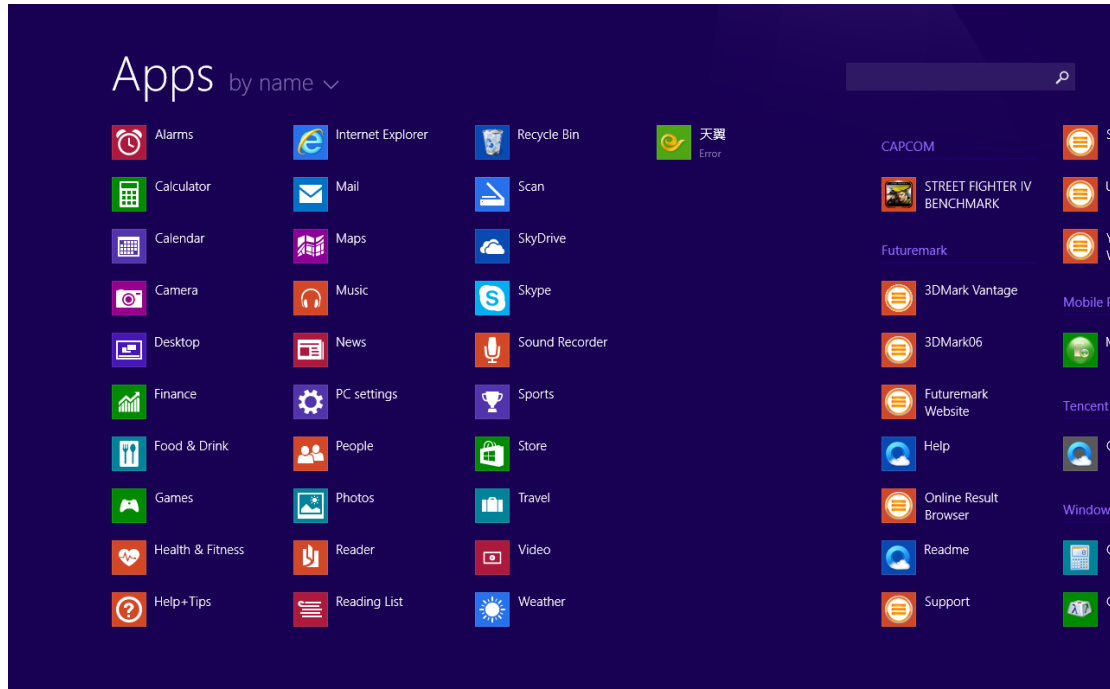

Slide upward

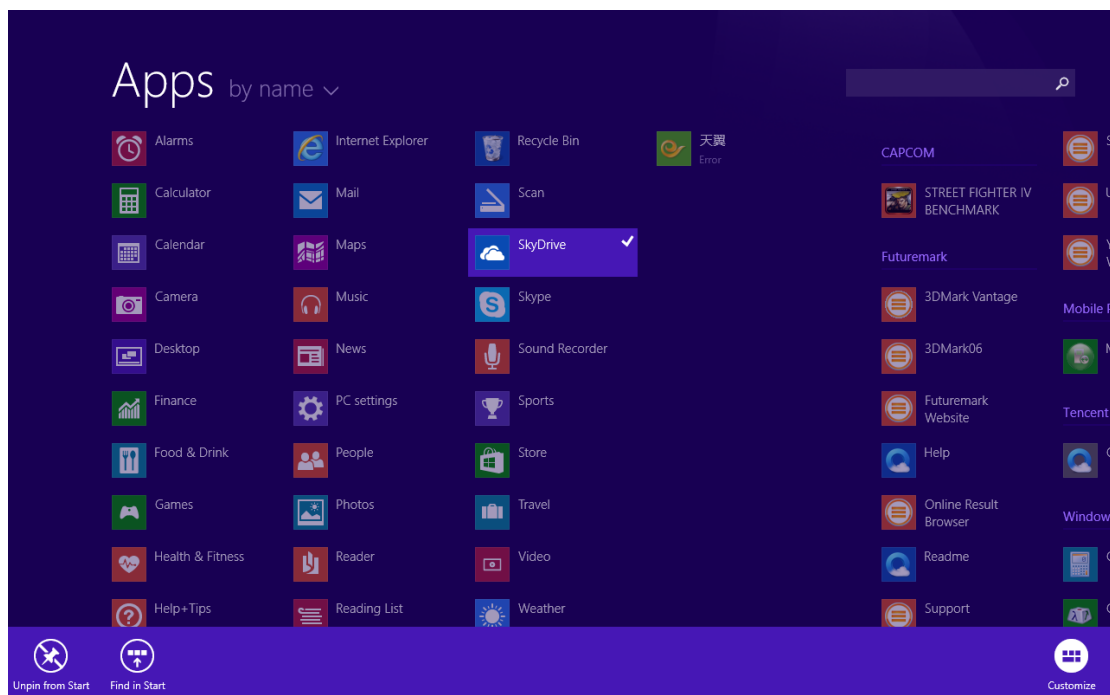

In the start screen, slide upward from the bottom of the screen to visit all application program (APPS) interfaces.

#### 4. Introduction to app Interface

Besides the application programs already fixed on the start screen, you can also start other application programs in all application programs, such as other software application programs attached to the Tablet PC.

If you want to fix more application programs on the start interface, see the operation in the figure below, (1) lightly touch, press and hold the application program magnet for about one second and then let go, and select (2) to fix to the start screen.

Alternatively, if you want to cancel or delete a certain application in the start screen, (1) lightly touch, press and hold the application program magnet for about one second and then let it go and run, and select (2) attribute column to cancel the programs such as fixation and deletion and then it can be completed.

## 5. Charm menu column

Slide it to the left from the right side of the screen to start Charm menu column, including: Start, Device, Setup, Share, and Search Program.

Slide it to the left from the right side of the screen to start Charm menu column, including: Start, Device, Setup, Share, and Search Program.

Can let you search the files and application programs in the Tablet PC.

Can let you share the program through social exchange website or e-mail.

Can return to the start screen. From the start screen, you can also use this function to return the application program that is opened in the latest.

Can let you read, write and share files, connect external screen or printer with the device connected to the Tablet PC.

Can let you set up the Table PC.
