TRUE PRICE DISCOVERY IS NEAR

Terry Sacka made a recent appearance on the Wealth Transfer News Show with Dr. Charles Vance to discuss America's credibility loss and the attack it has on our dollar dominance. The destruction amongst the leadership is continuing to impact the dollar's dominance globally. Meanwhile under the pressure of the Deutsche Bank's collapse, along with the Italian, Greek, and Spanish banks, troubles and debt burdens weigh heavy on the western economic system.

JUPITER, Fla. - Oct. 18, 2016 -- In part one of the four-part series, Mr. Sacka opened the show with criticisms of the current presidency and handling of the nation's affairs by stating, "We have to, as American people, wake up from our ether state ... and know that our country has lost tremendous credibility. So much so in the last 7 years that they (other nations) mock us and they think we're a joke."

To support his claims, he mentioned the recent G20 Summit over Labor Day weekend which was hosted in China and attended by the top world economic powers (Group of Twenty). In the photograph they had last year, President Obama was isolated and standing in the wives club while the other leaders were standing together. In the photograph this year, the president seems to be positioned away from the world leaders' power structure again.

The photograph can be seen in the video below:

He went on to say, "We (America) have lost tremendous credibility under the democratic regime. They're just wimps ... liberal progressives typically are. The world sees that and they know it. I love my country but I just can't stand the socialists."

Mr. Sacka gave additional examples of the loss of American credibility and how the Russians and Chinese have now dominated the narrative. He warns if this is to

continue it will have a serious impact on the American dollar and our standard of living.

Silver & Gold-Backed IRAs

Regarding this topic he stated, "Gold and silver is the best performing asset class in the last ten years. The nice part about a precious metals IRA, there actually is a physical metal purchased and stored on your behalf. Gold is capable of going back to its high, yielding a 60% return and silver a 200% return. Gold and silver are really the wealth transfer in the physical market."

Safe Christian Investments

On one of his websites specifically aimed toward Christians, Mr. Sacka offers five reasons why Christians should invest in gold and why [Christians should invest in silver](#) with detailed charts, figures and video content. He believes that the most valuable assets are gold, silver and survival food which they provide at Cam Ready Food (<http://camreadyfood.com>).

Terry Sacka, AAMS is a financial analyst and founder of **Cornerstone Asset Metals** in Jupiter, Florida. He assists and guides investors on how to use precious metals in the form of physical assets such as gold and silver to hedge against systematic and inflationary risk and preserve their hard-earned wealth.

Mr. Sacka pointed out how gold and silver historically have been protection and hedges against systematic risk associated with geopolitical jitters, events and inflationary factors which all have historically lead to financial crashes.

He emphasized this by stating, "I'm a strategist so I'm an analyst in natural resources. So my job mainly with Cornerstone is the role of natural resources,

we're right from the earth, we deal with things right from the ground."

He went on to say, "We're custom minters and refiners but we supply this beautiful God product to people...I understand the systems of the world and I understand the biblical principles that God taught us."

Refining and custom minters, Cornerstone Asset Metals are the manufacturers of the only good delivery Judeo-Christian Hallmarked Silver in the country

Their silver coins are manufactured refined, hallmarked and minted by a COMEX Certified, LMBA Good Delivery Refiner. Same quality and purity as an American Silver Eagle and because it's good delivery it technically can be

used in bank settlement transactions. There are scriptures on it, 12 stars on both sides, for the tribes and for the disciples and finally a lion and a crown for **The King**.

So religiously manufactured it gives first amendment protection against confiscation attempts. It is the only one of it's kind out there.

He advises people on how to protect their assets and hard earned wealth with precious metals in times of financial hardship which the coming of the Shemitah is said to historically align itself with. Mr. Sacka's teachings coincide with Jonathan Cahn's "The Mystery of the Shemitah" as the author's theory is that God has visited warnings and or judgment against the United States according to a seven-year cycle going back many decades.

Mr. Sacka has posted all eight videos of The Shemitah Series on his website in the [Wealth Transfer Archive](#).
