

# Minecraft: Story Mode Game Sequence From Telltale, Mojang

Minecraft: Story Mode - A Telltale Sport Series is an episodic, narrative-driven recreation sequence based in Minecraft's blocky world, coming in 2015 to Laptop, Mac, cell gadgets and what Mojang calls "Xbox consoles" and "PlayStation consoles." We've reached out to Telltale for clarification on platforms.

The game has an original storyline that's influenced by the alternatives players make, similar to Telltale's other offerings, Tales from the Borderlands, Sport of Thrones, The Wolf Amongst Us and The Strolling Useless. "Telltale's game sequence will combine new characters with familiar themes, in an entirely original Minecraft expertise, inspired by the Minecraft neighborhood and the game that continues to inspire a technology," Telltale writes.

Mojang affords a little bit more element about its method to story on its blog: "We're not intending on creating an 'official' story for Steve, or explaining the world of Minecraft in detail. minecraft survival games servers will be a cool game."

Mojang revealed the collaboration with a mini-sport called Information Quest 2 (which is pretty adorable). Microsoft accomplished a \$2.5 billion acquisition of Mojang in November. [Picture: Telltale]
