## **I am a Thankfull, King Gottwald Peter**

I Thank You very much for Your support of my ideology with a better meaning for society, I'am Thank's to Your real steps of public support, truly a genuine choice, and also by proving the organization of society the purpose of peace.

It is my awareness of the value of Your courage, meaning for me the ability to survive and prevent many forms of tyranny and inhuman treatment, mutilation and killing, and other crimes that can not be concealed in society.

Your support also proves the reality for me, here as a prisoner, hostage in public arrest and blocking from the Terrorist Parties of Europe, so I am able to further extend some steps to the performance of my government, leading to the future of achieving the ability to deploy many humanitarian projects around the world. I'am Thankfull, and always all Generation's of The World !

Your support and courage is a great and truly responsible right of appreciation for each of You to the Nobel Peace Prize, as well as many awards for Literature and inspiration!

Your support is therefore another step and hope for children starving with food shortages, and each year dying in counts to real 15,000,000 people. Over the last time, over 370,000,000 young children have died on the responsibility of the terrorist parties in Europe. It is true that even Thank's to You, it is much more certain that responsible criminals will be punished one day responsibly according to their criminal merits, which outweigh the responsibility for the Second World War crimes led by Adolf Hitler! Your support is therefore a step of the great victory of all mankind, and a great pride for You too, in Your attitude that one day will be an essential part of world history and the fundamental knowledge of all nations of mankind!

Your support is a step in allowing at least ideas for the ability to support the future stability of all refugees in the whole world and to prevent their long-term detention in refugee camps or racist murders in the seas. Today is World Refugee situation most critical problem in the world. Every refugee can do so in the future, always living freely in a new country that is the place of his new civilization, freedom, human rights and all the modes of life.

Your support is also of great importance in preventing war and preventing the development of corruption and crime at International level, as each of the political circles knows much better about its certainty in the early or future punishment of all responsible criminals, their career losses, hate in the state society as well as hate Internationally.

These people, therefore, jointly refuse to support and accept their corrupt offerings and thus make it more confident that the terrorist network does not strengthen its own stability and cooperation, strength and domination.

This is why it is more and more confirmed that the European terrorist organization has a much greater opposition force, and in the case of conflict and long-term opposition, this crime will be destroyed and therefore much more reluctant to support the path of a peaceful judicial process the ability to achieve justice in all countries of the world and the peoples, and without any consequences of war crimes!

**Your support is a great honor and historical heroism!**

That is why, in my legitimate belief, Your common rights to the Nobel Peace Prize as a whole range of You are a global group because of Your support and Your importance for the function of human rights, implying greater certainty in the function of International law and thus the stability of the world order, nations to live in a free world.

Certainly, I am very sorry for my real inability to respond to all Your works, I am really busy, socially isolated every day, legally apartheid blocked, socially hard in oppression, without the ability to develop steadily, and above all without the ability of such massive performance.

Sometimes I also have to apologize for my refusal to respond fully to You for reasons of security when terrorist acts are carried out in the form of threats in the form of aircraft downgrades, bus crashes, fake and real bombs in public streets, and such attacks in centers of state authorities and other crimes another format that serves to threaten or to manipulate people with crime.

That's why I sometimes worry about being threatened by Your people and therefore do not want to point out Your specific name and identity or relationship so I do not damage Your safety. The sides of European terrorism are genuinely based on the ideology of aggression, true inhumanity, coldness and racism, and their basic hatred against humanity and responsible justice and the spirit of man, and therefore such persons are often a great threat and the risk of organizing terrorist attacks and manipulating society.

I also have to apologize, as I have already written, I am under the blocking of a terrorist group and therefore often I can not take steps to properly detect the meaning of Your communication because my capture in the structures of the organized enemy network also means allowing for hypnotic influence on understanding Your code and the importance of messages, which often means my understanding only as a threat against me, the suicide burglary, other attempts to harm Your own health and, above all, efforts to spread disorientation and oppositional vulgarism, or simply do not even have the ability to get an original recording in a public resource, and the sources are steadily below blocking a terrorist group.

That's why I'm again forced to refrain from responding anyway, because I am not able to respond by sufficient understanding and I can not know what the meaning of common understanding will be.

Each of You deserves great rewards, and each and every one of You has the great rights to stand public as one that stands for the better future of the world, for mankind and peoples, for a better future of states and the power of world peace, but also for much greater purity of politics. Therefore, You have the right to public pride of this important meaning, and thus be socially valued.

That's why I suggest, in the interest of the open possibility of certainties, a much better cooperation between states, peoples, world business showrooms, as well as all actors and artists, singers and players, sportmans, each of You here has the right to participate and publicly speak, to show the world, for which You stand side and for what purpose the future of human generations, and the future of the base for the civilization of all states, but also the prevention of the growth of crime!

I would like to ask You for Your act of establishing the International Association as a group of all Showbusiness artists and creators, which also means the importance of steps for joint global conferences to enable the joint

organization of the showbusiness to consolidate Your legal parties and to establish such contracts in the trade union to expand global artworks based on the participation of all artists from all over the world, and as one of the world's largest media showbusiness records.

Your steps towards a global unification are important for the purpose of Your dominance, Your world success and the opportunity to further organize a much better enrichment of peoples and public society, give people much more inspiration, and create a world-wide social ideology that establishes friendship among peoples and support human rights.

Your common unity is a great and significant voice of world importance, and together You can fundamentally influence the development of many political and business acts that, for Your part, have a meaning in the view of the world society, so no politician will risk his crime a step that might to be a world social rejection, a loss of all political positions and partnerships, but also a bankruptcy of all its visions, so Your unification is also an important step in enabling the promotion of human rights and freedoms of nations of all peoples, again a great success in charge of Nobel Peace Prize and world public peace recognition.

Your common world unification also makes it possible to make a significant impact on the economic and no-poverty development of nations, as well as a major breakthrough in opening up new trends to support development in third world countries and states, and to stop global poverty, as well as shortages of civilization resources and raw materials.

Your common unification is a step in the union for the sake of world politics and the opening of Your own and shared ability to open political debate and objections to the purpose of the idea of growing world politics, world peace, resolving and halting conflicts, and achieving many deeds with the meaning of truly significant world recognition of Your heroism.

A step towards a global act association is also a possibility for You to raise Your career, which can be ensured by the step of Establishing Common Agreements on the Growth of Common Music, Film, and Representation and Sports Production of All Participants at Global Level, Expanding Sponsors, and New Markets throughout world, important positions of art and work that will be known throughout the world, but also recognized in world history as one of the most revolutionary steps of public showbusiness and the world of globalism.

Your association can be founded naturally as a form of a new club, at the International level, when each of You will publish Your vote, each of You will confirm Your interest, and each of You will use the steps that are organized to organize Your joint events and musical performances as well as common steps of creation and global media impact on global society.

Each of Your managers will surely get good finances and profits from the potential of developing this work on a full International level, and every manager of yours knows how to apply such options very quickly among singers, musicians, actors, directors, athletes, artists and models from around the world, but also state and International associations.

Today, most nations of our world are living together in the peace world, and it is therefore easy for us to organize the purpose of peace on an International level, and our whole world will therefore always support, appreciate and admire such assertions.

If Your government blocked this exercise because of their fears of the risks and threats of detection and public affirmation of their interests in the pursuit of

corruption, treason against the state and acts of global terrorism, that is why I can at least offer the legal form of the position of the first foundations of the association in the territory my country recognized by International law and respecting the duty of all nations of the world for such recognition. My country is always free and dedicated to the One World vision, always inviting open to all foreign and International communities.

My country is, however, still under the blockade of the European Terrorism, and therefore it is not to use more than just sand, bare ground, and dry deserts. Therefore, I can only guarantee the legal recognition and foundations of the association capable of enabling the centralization of at least International communication, thus also enabling the ability of a common rapid shift.

It is also my request, so long as Your country's government and state diplomacy are allowed, so please also Your own public support for the stabilization project of my country's government according to the basic provisions, and it is real that You also have the possibility to be part of at least provisional the office of my country's government, to show the world Your political aspirations and interests in promoting the development of the nations, with Your ability to continue to cooperate with world politics, governments and organizations, and countries of the world.

Each of You has the right to participate, to publicly establish plans and declarations, to establish trade relations, to create public relations and development, to promote trade growth and to promote the development of world trade and political cooperation, to represent a joint declaration for world peace development strategies, and to publicly build and organize development of global humanitarian projects.
