MARKER 2000

Marker 2000 is the first professional electronic machine to use a micropoint system of engraving without the removal of material, specially designed for the marking of keys, cylinder, plaques and medals.

STANDARD

Quick and easy to use.

Marker 2000 engraves any type of metal: silver nickel, brass, steel, ensuring high precision and excellent quality.

Can be adapted for the application of over 15 different clamps.

Menu available in five different languages: Italian, English, French, German, Spanish.

Wide choice of characters and graphics contained in the menu.

Wide choice of optional clamps.

Marker 2000 can be linked to other electronic key-cutting machines and its compact design facilitates its installation anywhere.

CE

Machine built to CE standards.
