

Veloren, the Open-source Multiplayer Voxel RPG, is Slated for a Major Release

Want to try another quality free and open source game? extremecraft Veloren is an online voxel RPG that was inspired by games such as Cube World, Legend of Zelda: Breath of the Wild Dwarf Fortress, Cube World, and Minecraft. Created in the fancy Rust coding language, Veloren has grown massively over the past year and it's steadily turning into what could be the next major FOSS game.

This release includes some of the following:

Climbing speed and cost New Skills - Pickaxes can be used to gather gems or mine weak rock. - Jumping out of rolls can provide a slight boost. It is also possible to jump out of rolls. Dungeons now offer a variety of stairs. Trades now show item prices in tooltips. Attacks now emit sound effects from the target on the hit. Crafting menu tabs – Auto camera settings make it easier to play the game using just one hand. Topographic map option Search bars for crafting or social window Villagers, guards and other players now spawn with potions and know how to use them. - Combat music in dungeons when within range of enemies. - One handed weapons can now be used and found in the world - Players can now opt-in to server-authoritative physics in gameplay settings. Sort inventory button Crafting stations in towns Missing translations can be displayed in English. New large birds npcs Wildlife spawns that are dependent on the daytime you can now block and parry using melee weapons. Lift is now calculated for gliders on the basis of dimensions (currently the same for all) Certain music tracks can now play exclusively in towns. Custom map markers can be placed now mountain lake and peak markers on the map - A minimap mode has been added that depicts terrain within an area. Chat tabs - NPCs now hear certain sounds

This is just a tiny portion of the lengthy and extensive changelog for the 0.10.0 version.

Download it from the Veloren website. There's numerous ways to download it including a direct-download with a launcher to keep it current, Flatpak, Snap and more. If you do choose to download it today there's a celebration for the release on the official server It looks like it could be an enjoyable experience and the download is quite small , so it won't occupy much space.
