HANDE TOZUN INTERIOR DESIGN STUDIO
www.handetozun.com

Tözün interior design studio is established to provide interior architecture and design services for commercial and residential projects in 2007.

Philosophy of the studio is to create projects that differentiate in their unique design qualities and artistic character while providing long lasting and feasible solutions for the operational needs.

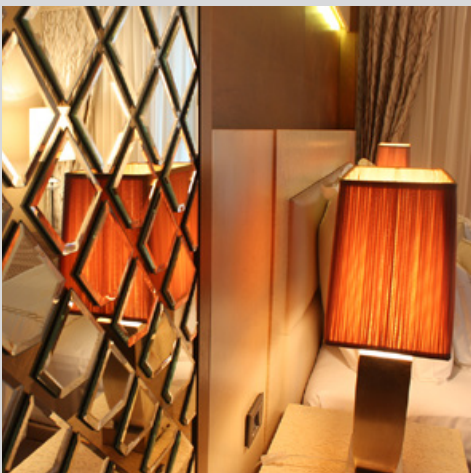

Design team approaches all projects with fresh enthusiasm and gives a restless effort to create the best and assists the project until completion with all design aspects.

Services are provided with a holistic approach. Every item in the project is a concern of design process and all details are considered since the beginning. The level of presentation documents show our attention applied in the stage of design process.

In large scale commercial projects; design development, bidding and construction documentation, site consultancy services are provided. While in residential and small-scale commercial projects our approach is design and construct.

Hande Tözün acts as the principal designer with her team of dynamic designers to provide a unique design service. Tözün has combined her interior architecture education with an 11 years hotelier experience gained in Kempinski chain. The hotelier experience provides the team, the power to easily adapt hotel concepts and produce feasible projects. Different tastes and talents of designers in team gives the studio the power to design projects both in classical and contemporary concepts.

The studio has provided several unique projects since it has been founded in 2007. Some of the projects have received awards from International Property awards. Grand Tarabya Hotel has been awarded for best Hotel interior Turkey 2013-2014. Al Mansoori residence has been awarded for the Best Interior Design Apartment Turkey 2015-2016. Nova City Show House has been awarded for Best Show House Turkey 2015-2016. Some of the selected commercial and high-end residential projects realized between 2007 and 2019 are presented here.
