cross stitch is the perennial favorite of needlecrafters who enjoy seeing a design come to life on blank fabric. Many artistic styles and subject matter are suitable for this craft—from florals, to landscapes, animals and portraits. Our talented artists translate original artwork into counted charts, selecting each thread color and interpreting the shading and details that make each design look so realistic.

needlepoint is a traditional needlecraft popular since the 19th century. Stitching is done on an open-weave canvas which makes it durable and lends itself to pillows and cushions. Our designs are stitched predominantly in either cotton thread or wool yarn on a fully printed color canvas.

minis are ideal designs for the busy stitcher or the stitcher who wants to branch out and try a new craft. These smaller kits may require less time to complete, but the artistry and subject matter are every bit as appealing as larger designs. Mini kits are available in counted and stamped cross stitch, needlepoint and embroidery.
