Scam Company

Rise is a scam company like Envion. There are most of the Envion Team involved. They have no BaFin licence and promise unrealistic returns.

Scam

Scam. Founding members are from the scam ICO Envion who defrauded investors of 100 million just this year. Laurent Martin (and others) is from Envion and now posting under the fake name "Clay" in RiseSTO social media and Telegram. They are using fake FB accounts for fake comments and like and banning anyone who asks questions. BEWARE OF THE NEW SCAM.
