Subject: Support for Tonight's Council Meeting

Hi Fred,

Here is the note and the attached news release for the meeting tonight:

The UVSS greatly appreciates the collective work of the Councils of Saanich, Oak Bay and Victoria and the inputs from the administrations of UVic and Camosun in supporting this important resolution at UBCM. Working together to request the attention of the province for student housing in the region and across the province has been very encouraging to our student body. It also speaks highly of opportunity for student societies, campus administrations and local elected officials working together for a stronger voice with the province on important issues. We especially appreciated the work of Councillor Fred Haynes in enabling us to be “Stronger Together” .

Note that I do not have Alex’s news release but have CC’ed him on the email!

Thanks,

Maxwell Nicholson
