Monthly Meeting News.

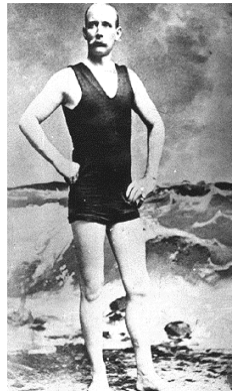

August / September 2015.

Good evening and a warm welcome to you all.

*The King Of
Rock n Roll*

What year did Elvis die?

What did Mathew Webb do and when?

What unwanted claim to fame doe's Mrs Bridget Driscoll have?

What year was Lord Nelson born?

The Great fire of London started in Pudding Lane, but where did it stop?

MP William Huskisson also has an unwanted claim to fame but what?

From The
Chairman

Chairman Olly.

Well, it's been a busy month.

Thank you to everybody for coming to the summer bash, I hope everybody had a good time, and thank you Nicky for doing the food, it was brill.

Shows every weekend at the moment, hope that if you come to them you chill out like I do?

I've broke my truck twice over now, a new member (he knows who he is!) made me break it at the summer bash and now my diff has imploded, never mind as my wife Jenny reminded me she has the better truck now !!!

Vol 7. Issue 8 & 9. August / September 15.

Well hello again.

Hi all you happy Landie lovers, another month has flown by and as usual we are all enjoying our trucks, making the most of what is turning out to be a pretty good summer (so far!). Myself and a few other members have had another trip to Salisbury Plain and I think it would be fair to say it was the best so far. We had a good day on Saturday tackling a few new lanes and as usual I managed to break something. All was well as we trundled along and I put the Landie into low range to make it a little easier on a slippery bit and when I returned it back to high range it kept jumping out of gear to leave me with no drive at all, so a quick call on the CB and the convoy was halted to help Ted (poetry there!). Good old Shaun donned a very fetching orange boiler suit and under he went after a few errms and a couple of ahhs, you've broke it mate! A couple of taps and a tweak and it was back in drive but no low range or diff lock but being a Landie she was ok for the rest of the trip. The shows are going nicely and as I write this we have just returned from the River show, to those that haven't attended a show, why not give it a try it's a good way to have a chill out and visit some nice places. Our friends ROMMCC (Ramsgate Old Motor and Motor Cycle Club) are at a lot of the same shows as us and we all get along great and there are always some nice motors to remind us of better times.

On a more serious note it is now three months since the club subs were due and we have given a fair amount of leeway to members that have not renewed, so as from now we are presuming that they no longer wish to be members, we hope this isn't the case but if you wish to re-join you will always be welcome.

As I've mentioned before we would love to hear about your Landie adventures and any ongoing improvements you are making and the club mag is a good place to do this, so come on folks send Phil Letley your jottings, it only takes a few moments and we would love to read em. (Pictures as well if you have them please Ed.)

Some of our members went to Essex to have a play on some PROPER off road tracks and they all had a great day with very little damage and a lot of friendly banter, they will be organising another one soon so keep your eyes on the Invicta facebook page, if you wish to go next time see Phil Webber when you are next at the Club meet and he will gen you up on it all. I think that's about all the news from me now so I'm signing off, happy Landie adventures to you all

Hope to see ya' soon, OTTO TWANKER.

When I first came here in August of 2007 I never thought that it would be my future home, but we can never know what is waiting for us. ?

The life here is very laid back, partly I think because of the lack of job opportunity and partly because it's easier not to work. The reason for this must surely be the relentless heat, rarely below 24c, even at night, and daytime mostly in the high 30,s with a sun which will blister a white skin in about 20 minutes. You get used to it and learn how to deal with it. Use an umbrella (sun and/or rain) if you leave the home and aircon when needed in the home.

Traffic is heavy, which you might expect in a city but the standard of driving is poor with no proper driving test and it seems no condition of vehicle testing! I don't drive now as no vehicle but when I did it was quite hairy.

How many on board??

Just found this pic. Not seen as often these days, but still happens.

The day starts very early here, schools start at 7am and breaks for a couple of hours during the hottest part of the day. Most workers start at 7am or earlier, but the shopping malls open at 10am until 8pm but of course are air-conditioned.

As I live here and am not a tourist, the days are taken up by the usual things in a household, get up, not too early, get coffee going, sort out the dogs, we have three, the two pups who are 18 months old and sleep outside and the mother inside. As you already know I'm sure, if you own a house there is always something needs doing! Since being here I have put in two new windows and built and fitted a new bay window plus two new doors and frames. The whole house has been decorated in and out except the second bedroom which I am starting shortly.

When I first came here we rented but soon wanted our own home so after looking at many houses, many of which were barely liveable, we opted for a corner house, 3 bedrooms, 1 toilet (called CR-comfort room) and 1 shower. We later had an extra shower put in but I was very disappointed with the standard of work that from then on I have done all the work I was able to do. I was in the building trade all my life so I know a fair bit about most things

When I undertook the writing of this 'experience' I didn't realise how difficult it would be! I hope this gives you a brief insight into my life here. If you have any questions, please ask. Regards for now and keep up the good work of the club.

Regards to all, Ken.

For those who are new to the Club, our Life President is Ken Harmes who now lives in the Philippines. He was Chairman before moving to the other side of the world and was one of the founding members of our club.

Hi All.

Well the seasons finally drawing to a close, with the London 2 Brighton to come next month let's hope the weather stays with us for what is always a great run and good fun.

Did everybody enjoy the Gears of Change Show at Quex Park and the early November 05th arena fire during the re-enactment! (The fire brigade had fun putting it out).

Hope everybody has enjoyed this seasons shows and will be looking forward to next years with a dryer summer for some of the shows!

See you all out there soon Jules.

We have most show forms now, if you need some see me tonight at the meeting, or phone me on 01843 845778 or 07702960644 and I will post or email them to you.
