

Hello Dear 'Association's of Trade, Business and Industry, Engineering or Agroculture and Development, Utilities and Finances

Let my performances, King Peter Gottwald, today I want for You before the invitation in the interest of the cooperation and development of trade with Your Weighted Corporations, and corporation's in industries, businesses and corporations who may find interest for the opportunity to develop and expand its own business structure and launch new markets of The Independent Government Imperium of Diamond's in territories north Africa Bir Tawil as the business opportunity to commonly develop and utilize new Global infrastructure mineral resources and transport centers in positions of international waters to free movement, or even on the territory of free space in Universe, on Orbit, early The Orbital Cities and Towns, others planet and in the case of cooperation on the production of special-type technology will enable and exploit development of Common Centers in other Galaxies.

The Federal Government Imperium of Diamond's promises security to the economy Territory Bir Tawil, the ability to build a stable market and GDP at a minimum level 50.000.000.000.000 Euro in the first five full months of development activities and cooperation Bir Tawil. Cooperation trade includes the possibility of soon to markets Imperium of Diamond's in the position of other planets in the Universe, in the interests of economic networks that significantly surpass the economic value of our planet Earth, or for example, the positions of business networks of new Corporatocracy government with options of global collaboration of corporations and so is the opportunity to use forms of political position and activities.

The Signature of The King Peter Gottwald, The ID's

Please, if You and Your association or corporate members and marketers, if you own interested, I'll ask for „Documents downloaded or Legal use” from an online source, according to the Internet-link's and sources.

I want to ask about the possibility of direct visits to Internet-Serwer for the opportunity to get more information and contact:

- <http://www.theimperiumofdiamonsgovernment.populiser.com>

The possibility for establishing a new branch office and create a new business, developing your business.

- <http://theimperiumofdiamonsgovernment.populiser.com/disscusion/the-global-multi-outsourcing>

Corporatocracy as additional interest on communication theme of our relationship:

- <http://theimperiumofdiamonsgovernment.populiser.com/disscusion/the-corporatocracy-government>

Global Option for International Policy collaboration and Business Development of WD Alliance.

- <http://theimperiumofdiamonsgovernment.populiser.com/disscusion/the-world-diamond-international>

The Culture Center cooperation:

- <http://theimperiumofdiamonsgovernment.populiser.com/disscusion/the-culture-center>

The Offshore cooperation

- <https://www.docdroid.net/qCdZPm/the-offshore-company-services-be-the-government-support0001.pdf.html>

Special Agreement form's of possibilities for development The ID's New Federal State's and Civilization's according The Business cooperation between trader's and corporation's in new form of Political Activity, Legal form under The UN Charter and International Right's

The Bir Tawil Province Office Government of The Imperium of

Diamond's *plan's it's own development in industry's interest in the structure of Robotic's Industry, Galactic ship's and Industry of engineering, Chemical Industry, Transport Industry of transport equipment, Industrial Machinery & Mechatronic's, Recycling Raw Resources production & Industry, Weapon's and their production, Laboratory Activities for Industry & Industrial work and Engineering, Electronics Industry, Engineering from Bacteria and Organism's, Cyber Industry, Digital Industry, Biological and Genetic Engineering Industry and Industry in the form of Artificial Intelligence of Android's and Mechanical Organism, the Industry profit Laboratory Supplies and Raw Material's Mining, Rubber Industry and Processing, Pharmaceutical Industry, Oil Industry, Textile Industry, Paper Industry, Food Industry, Construction and Ceramic's, Scientific Industries, Glass Industry, Banking and Services, Recreation and Urban Services, Digital Industry, Music and Movie Industry, other special field's and Industrial option's.*

Stable development grow of Gross Domestic Production, Infrastructure of Civilization and value of Curency, with system's of Dual Curency.

The Bir Tawil, start in Colony Second Phase, one of Global Center's of Colonies, one of Civilization Federal Government ID's

Terra Nullius territory, claimed by The Imperium of Diamond's in 1998, territory between board's of The Sudan and Egypt republic's.

Space for population of 10.000.000 person's, with possibilities to development civilization capacity for 30.000.000 of person. After population development and natural increase of population have possibilities for strategical use of Flaying Cities, and Orbital Cities. Space for start in 70.000.000 people.

The first number, 10 milion people as the population will be obtained in the first year.

- Consumption of water infrastructure in the interests of the population is *300 milion cube* every day. Financial gains every day can achieve in value by *60 miliard's euros every day. Gross Domestic Production per 1 Year of Water Consumption is in value of 40-50.000.000.000.000 Euro. Water Economy, 1 DMD to 90 -120 \$.*
- Special systems infrastructure for the possibility of *lowering the temperature in the streets*, automatic air conditioning by utilizing *cyclisation atmospheric air via the water tank's.*
- Special Hi Tech agriculture system. Size of the basic agricultural center is a *15 x 5 kilometer*. The ability to produce coarse food for *10 milion people* for a whole year. *Cows, chickens, potatoes, carrots, tomatoes, beans, lentils, peppers, apples, rice, melon, peach, plum, cherry, gooseberry, currant, orange, black and white olives, more than 30 kinds of spices and much more else.* Grains Bakery working to consumerism for 10 milion people every day. The budget agricultural center at the same time can produce many of the ingredients in the interests of the *international market*. Only in Start.
- The following area agricultural area will be designated for the development of plantations for industrial plants and wildlife. *Rubber, cotton, other plants usable in pharmaceuticals and healthcare.*
- Automatic system airy tubular post for *transferring mail documents*, transfer of *garbage from households and industry*, transfer of other *basic package* system *connects each house and the station.*
- *23 and 25 rail stations*, with special tracks of *automated transport* and the ability of exploitation rate of *100 milion kilometers per hour*, and the population distribution of materials, the *possibility to extend for Foreign Relations.*
- *Airline digital Ways* for population and material traffic across *25 floors digital paths in the air*, with a minimum of *80,000 x parking.*
- *Plan* to build a *water route* that will be a water harbor, a water route is planned as a river *between Sudan and Egypt, the Arabian Sea*, the river is the option to *extend into the Nile in Egypt.*
- *Airport* for international travel *11 to 15 stations*, four stations as the center which is designed only for the population.
- *Airports Orbital Travel as The Orbital Port, 11 and 15 stations*, two hours time-limit trips to orbit and back.
- *1x special Airport for travel between galaxies, The Galaxy Port or The Universal Port*, the ability to travel to the territory of another galaxy ave universe, a *distance* of more than *1 quadrillion light years*, beyond the limit of the observable universe.
- *Transportes Consumption* of fuels, only *electrical energy* and also the possibility of using *biogas, bio diesel.*
- Own production of *biogas* and *biodiesel*. *Internal* use with option's for *International trade.*

- **Basic Warehouse zone** for *Internal* and *International Transport* store is **70 square kilometers**. **High Tech technology systems** may increase the **Warehouse Center transports of container** to well over **an area of 7,000 square kilometers**.
- Basic civilization will be designed for electricity consumption in the form of **20 nuclear power plant units**. Civilization use only secure technology without the risk of catastrophe. Imperium Technology of Diamond's can actually produce the same dimensions, in the form of **20 units of the nuclear energy, 20.000 MWe**. In the case of the development of civilization to the level of **30 million people population**, then the energy industry upgrading to level **70 block plants, 70.000 MWe**.
- **Paper recycling, water, food, metals, some chemicals, organic waste, electronics**, striving for the development of recycling in the **interest of all raw materials**. Use as **The Cycle Center's of National Mine and Sources**.
- **From 9 to 15 major broadcasting radio signal**. Internet, digital television, radio, many forms of Intra net, Android Net, 3D world, security infrastructure, much more. The system is extended to the **ability to contact The Air Cities and in The Orbital Town's** in circular flay on orbit around the planet Earth.
- Plan special systems for automobile production. Creating your first **15 automobile factories**. Production for the **10 million population**, according to the period of economic budget.
- Development for the possibility of **electrical machinery, mechatronics, robotics, industrial systems, transportation, electronics, robotics, and many other technologies behind consumer**. According to the basic factors of modern civilization and opportunities for international markets.
- A city which is built from a skyscraper's and advanced buildings. Each apartment with a minimum size in diameter as **25 x 25 meters**. The population of **10 million people**. The urban dimension only **8 x 7 kilometer**. Comercial center for commerce resulting own dimension in the form of **24 x 21 kilometers**. The City is therefore quite with dimensions of **32 x 28 kilometers**, one urban civilization in the Central block area.
- Plan for the construction of over **7.000 residential skyscraper** as a social center with the ability to accommodate **5,000 families, 10,000 people**. **The Commercial City Center** with plans for development at the level of **20.000 skyscraper, recreation and tourism, sports, Business** and other activities. **Four large gardens, nature reserves**.
- Population and agriculture, an area roughly as **500 square kilometers**. Industry in the form of an area of **1,500 square kilometers**. Special high tech systems can increase the dimension of industrial soils to a level of **75,000 square kilometers**. Other industrial centers can be placed in orbit around the Earth, or other places in the Universe.
- Four blocks. **The Central block** for the development of civilization, agriculture and industry. **South Block** for the development of military infrastructure basic format. **Eastern bloc** for central transport format and at the same time raw material warehouse or international material. **Western bloc** as a High Tech industrial zone's.
- Military Infrastructure developed in every block and center's.

***Your Investment = 100% Back Profit and rapidly grow !
Cooperation possibilities between every Government's, Bank's, Corporation's,
International Monetary Fund's, Business Investor's***

First investment: The need is to be able *Government Office, Official functions of communication, conferencies, information development, contact center*. Business activities *Development and manufacturing of pre-emptive networks worldwide*, enlarging political relations.

First Investment and Trade Cooperation: Constructing a special *water centers (Arabic sea, Indian ocean, Atlantic ocean, Pacific ocean, North ocean, Mediterranean sea)* in vision technology for profit *Special Generators* for production of *metallic materials* from the water zone's, at the same time the ability to get *pure water* and *(90.000.000.000 Euro in economy cyclus every day)* *salt*, other *raw materials*. Stock and initial processing of *fish*, system use as a port for *Ships, Aircraft, Iono-Truck's. Water Economic activities*. Possibility to use as a *hangar* and *harlots Middle industry, construction work*. In the future as a *production ship and water technology*. Form of mechanical Artificial Island in the water's.

Special Water center's, the value of investments may be of interest to the management of business cooperation, so only minimally, with certainty paying your profits to several weeks, calculation for *Miliard's Euro*.

Part of the plan is to gain *investment* effort for the foundation *soil survey Bir Tawil via radio detection* effort to obtain *an analysis of soil, iron ore, precious stone, a type of clay building materials, oil, coal, gold and diamonds more*.

Major projects to take advantage of every *raw material sourcing* option for immediate establishing an *automated mine* for the *extraction of raw materials*, also has the *financial and investment ability* to instantly *build the infrastructure of factories for the processing of raw materials*.

Master plan is contacted by other corporations around the world, thus setting up *special centers* for the production of *laboratory materials. Diamonds, silver, propulsion, materials*, today is the possibility of *autonomously in the laboratory* to produce *more than 100 kinds of materials*, it means the *ability to instantly expand the plan and project's construction of civilization* to level with the ability to instantly *payout on your investment*. Development plans of raw materials we can utilize *recycling system*, because security is the ability to establish a *new recycling center to function/re-production as a raw material source*.

Second of investment: *The basic infrastructure of civilization*. Factories for the production of *electronic ovens, robotic arms, metalworking and materials, foundry, engineering, industrial Manufactures network processor*. Processing of raw materials for manufacturing *Electric generators*. Production of special *Iono cars and trucks. Investments are always returned in a few weeks, the gain is 100%*.

Is the need to provide personal communications.

Subsequently, we stand together we can expand many forms of our common friendship and trade activities on a global dimension to business networks or the political level.

In the event that the Federal government Imperium of Diamond's, not can to pay all the financial agreement's and treaties, then there is the possibility to ensure the cooperation of Creditors, as the person who receives special privileges for support of organized trade in the interests of international common markets with other banks, countries' governments and business corporations, with BONUSSESS PROFIT.

Organizational activities is based on the ability to act political strategy member of Council of Central Bank of The Imperium of Diamond's, Bir Tawil right for the establishment of an unlimited number of business corporations, the opportunity to expand international markets that are in denominations from Tens of Millions to over Hundreds of Miliard's of Euros in per contact with one the country's government.

The Federal government Imperium of Diamond's at the same time strategically provides capabilities for the development of their own civilization to the level that is able through a basic infrastructure industry, the ability to reach the 30 days of the economic budget that immediately pay all investments. The investment is equal to 100% of the profits from the return of investment.

*The ID's primary design of Banknote, every 1 second value of The 845.500.000.000.000.000x time's of Global Economy GDP 2015

Strategies for Gross Start a part of the water industry using modern technology ID's

- Investing in Metallurgy, each investor will *receive 100% profit on his investment.*
- Federal government Imperium of Diamond's being formed *own land survey Bir Tawil*, then we will be created *survey of water resources in International waters*, the next step will be obtaining resources of raw materials on the *territories of other planets and in meteorites.*
- Extraction will be created through the acquisition of *services as a corporation for mining and sale* simultaneously by creating *ID's Governmental & National own corporation for mining.*
- Minimum value of the *Iron Ore Mines* and amenities and other metals is over *10.000.000.000 Euros at the start.* Goal of civilization Bir Tawil is to develop the maximum level and use all available resources.
- Next destination is the use of metallurgy and capabilities for production of steel constructions, warming and manufactured technology. Therefore they arise *Special Aircrafts Ship's* that are due to *import water from marine center's.*
- 1 Air-Boat can bring the *water up to 15 minutes, 300x50x50 m*, using an average of 1,000 lines as first base of quality technology and system's geometric intelligence forces. Value per Air-boat may be in *proportion 200.000.000-300.000.000 Euro* in the first moments of the economic budget.
- Price of corporation ID's for engineering centers for *production of Flying Ship* will be worth *50 miliard euros in trade.*
- Subsequently metallurgy will be used for securing the ID's Corporation for production of special technologies to excavate land and labor in mining interests. *One Special Excavator* may possess values of *minimum 5.000.000 Euro.*
- Price corporations and industrial zones to produce such technology may be in denominations of *400 Milion Euro*, if it is planned to develop *only 80 dredge for ground excavations works.*

- *Aquatic Center to gain clean water* is positioned in *international waters* in order for the *extraction of water through desalting thermal activity*, and subsequent *purification fundamental process of filtration, organic filtration and sand filtration*.
- Market value per **Aquatics Centre** will be the first day of **19.000.000.000 Euro**, following days value will drop to poor performance and therefore annual profit on aquatic centers will be in *the ratio of 2.130.000.000.000 Euro for the whole year*.
- Water reservoir located on the territory Bir Tawil, because they will contain enough water for *daily consumption in the interests of the first population to 10 million people*, subsequent consumption in *agriculture*, consumption in *industry* and in *chemistry* consumption in *urban areas of irrigation and recreation*.
- Total profit for content consumption from water reservoirs will be at *the rate of 29.000.000.000.000 Euro/ 1 Year*. The price for one cubic meter of drinking water will be the conversion of values *for 12 Euro/1mq*.
- Subsequent *recycling of water* may be in the shared values of **7-15.000.000.000.000 Euro**. Recycling target is to maintain the operation of the recycling cycle at full power, to create an *Internal raw water source on the territory of Bir Tawil*.

The total budget of *Watter economy* to market water consumption, the calculation comparable as

40 to over 50.000.000.000.000 euros per One Year.

Therefore, in case of looking at the coin value of *DMD*, in comparison to the *US dollar exchange rate*, then we will realize that through *the aqueous economies Bir Tawil*, the price per coin will exceed a record ***1 DMD to 90 - 120 \$\$***.

Development plans Bir Tawil, civilization for ***10 milion people, the economy worth 10 Quintilion Euro per year.***

Development plans for *Bir Tawil, The One Great City, & The Leviting Cities, The Orbital Cities*, the ability of a ***minimum capacity for 130 milion people in 20 of the year full settlement***. Imperium of Diamond's own ability to get enough of the population to realize the full budget capacity.

Today, the first population of ***10 milion people in the values of up to one year.***

Population gain on tourism may in values additional ***100 milion people capacity every day.***

The IMPERIUM OF DIAMOND'S

CREATE FOR GLOBAL UNIFICATION
THE ONE WORLD

I Thank you for Your cooperation, and I hope in your interest and direction for progress. Together the first steps of cooperation may be based for facilities Conference activities and dissemination of information about the cooperation and at the same time for the development and commercial enterprises, the profit of cooperation was high. I hope for you soon, and I believe in our joint support.

Thank you, have a nice day
