The World Diamond International Alliance

and The United Nations organization

Proclamation of King Diamond's Imperium

The Organization of United Nations was the result of efforts to end WWII., Especially the war Adolf Hitler, but as well with wars of some countries as members of the OSA, and Turkey.

WWII war cruel and ending fighting the enemy defeat of Adolf Hitler and the Third Reich German fascist order, therefore, in the interest of world peace established in the UN Charter, to ensure human freedom and states' rights. The act of international political response which means that the Second World War and such an outcome a victory today is a significant and important part of our global history of all humanity, especially for today's UN policy and the member states of the organization.

War strong and full of threats, but not strong and full of threats of war as the value of the largest and strongest in the history of human existence. Our human history knows many other forms of war have already surpassed criminal values the Second World War, but our world could not achieve the same success as at the end of WWII., And the founding of the UN Charter.

Therefore, the United Nations is not confirmed as an entity that is able and willing to win in achieving success at the level of pride greatest forces of mankind, and the main force of the step to maintain peace throughout the world.

Napoleonic Wars as the first form of a global war over an area of many continents and war that brought death to many nations and states. Criminal act of Napoleon's wars, which to this day not beat a real and fully resolved justice form of act of diplomacy and world politics united victory.

Therefore, the United Nations still beating full and supreme pride confirmed as the winning entity that is able and willing to win in achieving success at the level of pride greatest forces of mankind, and the main force of the step to maintain peace throughout the world.

Today, silent and corruption, and falsification crimes censored European terrorists regimes under legitimate rules of world politics, we the people of our world, we are experiencing together days that are based on actual values, crime and war as the First Largest Global Wars of human history.

European crimes and targeted killing of 320 million innocent people during the last 16-18 years. Strategic support for European countries to uprooted more than 70 million innocent people, many forms of disasters and genocide using weather weapons and impact strength of tornadoes, tsunami and earthquakes or acts such as stealing and blocking states using technology to influence the rhythm of physical mathematics of our reality or violation of national jurisdictions of all countries around the world, therefore, the European criminal acts as a symbol of defiance against all international rules and overwhelming international value of world politics licit states that these rights and conventions advocate sign of defiance to oppose international politics and on the ability of war altos confirming that the European rogue states and governments are willing to accept their victory risks of having to

destroy the structure of world politics and exterminate our entire human world in the value of a population of over seven billion people on the planet.

Threats had a core value of the criminal act as the greatest crimes of human history, and immediately realized after today that Altech has legitimate by the rules recognized exceed the largest criminal values of humanity and our world since the creation of such a human race.

Yes, statistics and principles are indeed true, we humans live in a world of global politics and the rights of society and civilization, legal rules and principles that legitimately confirms that such policies on the European crime are real and affect all countries of our world.

Therefore, in the interest of world peace and the reason for the creation of the United Nations and the Organization of United Nations has the right of use of its power and value because of the formation in order to the actual act of prevention of crime act who confirms global partnership of power and ideology UNSC, UNGA and the UN Charter, on conviction that the UN is really strong and determined political entity to realize and respect the name of the greatest achievements of the peace and the real intent of the measure.

The Biggest Victory in Human History and right's for Great Political Celebration with pride.

Today, after 18 years refusing to acknowledge these facts and cowardly dodging the responsibility, if the UN will continue to refuse, so I King Peter Gottwald honor for my person and interests All the realization of world peace, I want to publicly acknowledge that the legal form of the government alliance and constitutional strategies of The World Diamond international Alliance at our own true function of international cooperation between states and can actually provide value sufficient forces capable of the complete destruction of all of today's global threats, conflicts and acts of war, and thus the ability to ensure the future security of all states and nations, the governments of countries with full step involving the elimination of the terrorist regimes of the European countries and their international alliances.

In this interest I am doing and delight all states and governments of our world, a challenge for our common commencement of cooperation and thus step as to achieve the greatest peak of human history and our success victory with a defeat of today's largest criminal threats that mean in our power truly common step for the realization of genuine world peace and triumph of the human race, with the power to ensure that all the stability of such precious and humanity important values, our victories states living in a democracy and equivalence with alacrity and vigor to develop our shared world on behalf of peace, justice and victory over today's biggest-ever values of crimes and threats catastrophe entire range of human era.

Therefore, if the UN refuses to acknowledge its own interests and the ability to actually win, to maintain peace and order, the security of nations and their justice maintaining the function of international rules and political principles in today's world, then the UN is losing pride of winning values of freedom and the security of nations because World Diamond the International Alliance is thus confirmed as one of the subjects of the Imperium of Diamond's federal government entity who can accept those values and willingness to win is proud to help the human world, for the better development of nations and global society.

Therefore, we the people of our world and we work together with happiness in their
