

How to download TikTok videos without watermark

TikTok is everyone's favorite video social network and a lot of people scroll it every day including us. We often find TikTok videos we really love and want to save locally on our device, however its not possible.

Well, it wasn't possible before Snaptik: <https://snap-tiktok.com/snaptik/>

Snaptik is a free online service that allows us to download TikTok videos for free in Mp4 format so you can watch it in any app or device anytime you want – even when you're offline.

The website above works really well and it is dead simple! Simply, paste TikTok video url in the box and click Download button. In a sec you'll see several download options.

But wait, what **Download options**?

Snaptik lets you download videos from TikTok without watermark! You can save any video as it was uploaded to TikTok, without watermark and author info.

This gives you more flexibility and comfort as you can watch videos in original quality.

Another cool feature? You can also download background music from TikTok videos in MP3 format.

If you still prefer to download TikTok videos with watermark you can do this too with Snaptik. You have all 3 download options!

Enjoy!
