Legal Status Cheque Values and Usage as a Company Grants:

1. The federal government uses development planning strategies to ensure the budget of the quality of economy and the needs of each company and, according to the maximum usable resources and development opportunities, also establishes its own civilization development and the strength of the economy.
2. The federal government will establish development projects that are ratified by the economy budget strategy, so the values are registered in the Central Bank of the Federation.
3. Registered projects are assets of a Governmental investment property that can be strategically marketed, exchanged, or otherwise commercially and economically exploited, State budget.
4. The Holdings Register in the Central Bank of the Federation means registering the Gross Domestic Product value that establishes the strength of the financial currency.
5. The Central Bank and the Federal Government therefore use their own legal, economic, financial, and trade administrative strategies to determine the function of civilization, and thus the Federal Government and the Central Bank determine the norm of budgets for business companies as individuals and the number of business entities active in the federation. in the interest of the budget of available or planned products on the market, thus establishing the state budget.
6. The federal government, according civilized law, has the right to limit and decide how many coins and what amounts of money a citizen or companies can obtain, which currency and how. Thus, this check is created, which is based on its own value on the average monthly payout of the company profit norm purpose of the autonomy of civilization, allowing the stable functioning and development of the country.
7. The Federation therefore issues a financial check for each of its business company, including for every new company who registers as Imperium of Diamond's Federal Citizen.
8. The cheque value is a stabile budget on the date of the check-document creation, and Every month, the value of the check is regulate autonomously by the savings budget on the rhythm of the state trade payout power in the category of corporate business.
9. The federal government has the right to pursue the strategy of the economy, to regulate check payment capacities, depending on the current product market capacity, and to allow stable development and currency until full development planning capabilities are attained.
10. A registered company of this document, and every company of the Federation, has the right to register his check value in the nature of the present date, thereby also enforcing his rights before Courts, Tribunals and Legal Institutions.
11. This right is subject to a Federal Government Certified Check for each business company individually.
12. Every institution of Business company, has always the open rights to use this citizenship registration and the profit of a financial check, so without any discrimination on grounds of business category or employment. Everyone is equal in law.
13. The document is legal in case it is filled in according to the legal instrument and the form which is written in this document of a certified Company Cheque.
