

TUCSON

Design that's thrilling and timeless.

With its 3D parametric-style grille and jewel-like surfaces, Tucson is for trendsetters with a taste for futuristic design. Adopting a daring new design language we call Sensuous Sportiness and created with cutting-edge digital design tools, Tucson stands out with its concealed daytime running lights, angulated wheel arches, and contrast side cladding.

TUCSON

Experience that open feeling.

A feeling of openness welcomes you the moment you step into TUCSON's cabin. The open-type cluster is a major innovation in design that establishes a premium, high-tech atmosphere that makes you feel safe, relaxed, and confident. Hidden out of sight, the innovative multi-air mode system diffuses cold or warm air gently and indirectly so it's not as harsh on your skin.

HTRAC HTRAC™ All-Wheel Drive System.

When the weather takes a turn for the worse, HTRAC keeps you moving. The heart of this all-wheel drive system is an advanced electronic controller that continuously analyzes your speed and road conditions. It automatically optimizes torque distribution among the four wheels and will apply the brakes, if necessary, to ensure maximum traction and directional stability when the going gets rough.

Drive Mode

With Drive mode, you get to pick the style suits you best: NORMAL is for relaxed everyday driving while ECO gives you optimal fuel efficiency. SPORT is for quicker acceleration, and SMART automatically adjusts gear shift intervals based on an analysis of your recent driving patterns.
