The Greco-Persian War 499BC - 449BC

Unofficial "Age of Hannibal" (by littlewarstv.com) army lists

by Kai Wilts With help of: **The Community**

Army Lists

Notes: Here you will find the army lists for "Age of Hannibal" designed by me, with the help of the community. At the end of theses set of list you will find a second set with optional traits for more diversity.

The rarity-system is only for fast, semi-balanced fun games and not for historical battles. You can quickly put together two army lists with these or build the OOB for historical battles, which was the point. No need to prepare two or three hours before every game.

Asiatic Greeks

Notes:

I assume that the Greek cities of Asia minor did lack experienced soldiers and equipment during their revolt, because there are some sources, and I personally do agree with them, that say the Great King of Persia did not allow the cities to have a well-trained standing army, except for those units he used as levies and mercenaries.

Optional Traits and Abilities

Notes: this is a very small selection of optional traits which I felt were essential for detailed army list. I also changed one trait "Unreliable" because I felt it has not the full impact it should have, especially in long and brutal battles.

Expert Javelin Thrower, Slingers, or Archers (5pts.)

Units with these traits can reroll a missed ranged attack, once per turn.

Expert Chariot Drivers (5pts.)

Chariots with this trait can make a rally test to disengage from close combat without gaining a demoralized marker.

Expert Horsemen (5pts.)

Cavalry with this trait can make a rally test to disengage from close combat without gaining a demoralized marker.

Scythes (5pts)

A chariot unit equipped with this trait gets +1 to its charge attacks.

Horse Armor (5pts)

A cavalry unit equipped with this trait gets +1 to its charge attacks.

Pavese (5pts)

All units have -1 to range attacks against a unit with Pavese.

Unreliable (-5pts)

Poor discipline or questionable loyalty means this unit must make a rally test after the loss of every three points from the "Morale Clock" (at 6 and 3). If the test fails, the units does get a demoralized marker.

Slow (-5pts)

Poor training, cumbersome equipment or no taste for combat makes this unit slow. -1 to movement in open terrain.

Asiatic Greeks

Notes:

I assume that the Greek cities of Asia minor did lack experienced soldiers and equipment during their revolt, because there are some sources, and I personally do agree with them, that say the Great King of Persia did not allow the cities to have a well-trained standing army, except for those units he used as levies and mercenaries.
