

Verified PayID

How to verify & use the PayID

Why verified PayID?

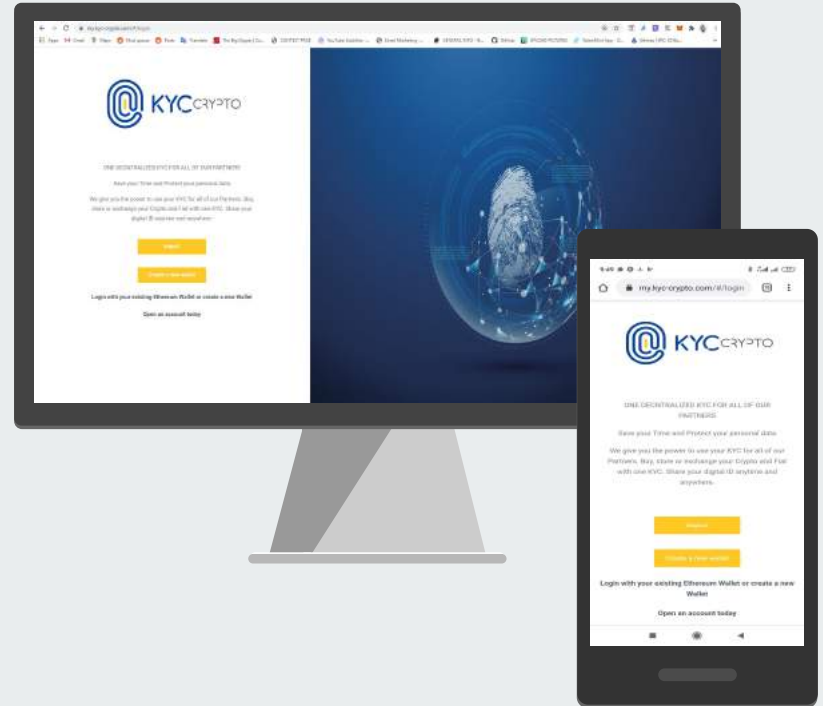

Between \$800bn and \$2trn or 2-5% of
global GDP is laundered away annually!

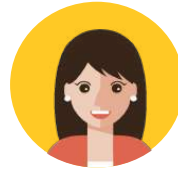

Why Pair PayID with KYC.Crypto?

Use one simple PayID instead of complex account numbers.
Make payments across global payment networks.
Give each transaction a KYC verified face!

How to get the Verified PayID

Information architecture is the flow of content across the site or application ([more info](#)).

What Makes Verified PayID Score Over Existing Solutions

- KYC Approved Users
- Decentralized & Stored User Data
- Withdrawals or Paybacks to Wallet Addresses with Verified Face
- Deposits and Purchases from Wallet Addresses with Verified Face
- Easy Integration with Exchanges, Online Shops, Wallets or KYC & Payment related Services
- PayID connected Wallet Scans (Bitcoin and ETH so far)
- Globally Documented Payment History
