On January 20th, 2017 George Soros, during an interview, was asked what would happen to the markets under the leadership of the Trump Administration.

"Trump Is a con-man would-be dictator who is going to fail...In the cabinet (Joint Chiefs of Staff) You will have the various establishments fighting with one another and that is going to cause a very unpredictable outcome...So I don't think the market is going to do very well"

On January 24th, 2019. George Soros gave a speech at the World Economic Forum that had described a road map of what the future would look like in the coming years. He had described that Trump wasn't really in control of the Federal Government and that those behind the scenes within the government were executing a "carefully prepared plan" in secret that would ensure total supremacy over China and bring forth a World Order between nations that would allow George Soros's Open World Society to thrive.

"My present view is that instead of waging a trade war with practically the whole world, the US should focus on China."

Soros is saying that the United States Federal Government needs to focus on destabilizing China

"The US government has now identified China as a "strategic rival." President Trump is notoriously unpredictable, but this decision was the result of a carefully prepared plan. Since then, the idiosyncratic behavior of Trump has been largely superseded by a China policy adopted by the agencies of the administration and overseen by Asian affairs advisor of the National Security Council Matt Pottinger and others. The policy was outlined in a seminal speech by Vice President Mike Pence on October 4th. Even so, declaring China a strategic rival is too simplistic. China is an important global actor. An effective policy towards China can't be reduced to a slogan. It needs to be far more sophisticated, detailed and practical; and it must include an American economic response to the Belt and Road Initiative."

Soros is saying that despite what Trump does as POTUS. The United States Federal Government has secretly developed a very sophisticated plan to deal with China in such a way that will ensure total supremacy of the USA.

"It is possible to dream of something similar to the United Nations Treaty that arose out of the Second World War. This would be the appropriate ending to the current cycle of conflict between the US and China. It would reestablish international cooperation and allow open societies to flourish"

Soros is saying that he wants a unity of nations that is similar to the collective togetherness system that was achieved post World War 2. He is implying that he wants a World Order of sorts. One that is unified and will allow George Soros and his philanthropic organization to flourish.

to flourish.

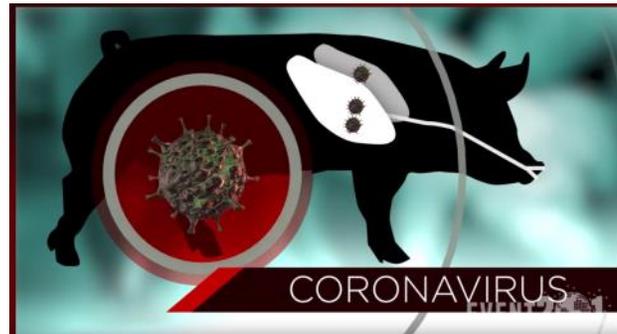

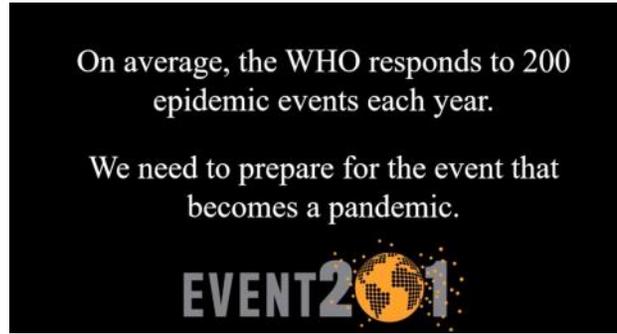

On October 18, 2019 a Pandemic Exercise called Event 201 was hosted in New York by the World Economic Forum and the Bill and Melinda Gates foundation. The exercise detailed: What would happen if a Pandemic of a deadly infectious **Corona Virus** were to spread across the world and cause mass chaos and cause damage to markets world wide?

The Johns Hopkins Center for Health Security in partnership with the World Economic Forum and the Bill and Melinda Gates Foundation hosted Event 201, a high-level pandemic exercise on October 18, 2019, in New York, NY. The exercise illustrated areas where public/private partnerships will be necessary during the response to a severe pandemic in order to diminish large-scale economic and societal consequences.

On January 23, 2020 George Soros gave a speech that included 2 interesting words to describe Trump as well as 1 word to describe Chinas Belt and Road initiative. The words in order were: "**Pathological**" and "**Disease**" to describe Trump. And "**ill**" to describe how China can't afford giving loans that will never be paid back. Interesting to note that George Soros chose those words to describe Trump and China and that very day Wuhan China was ordered into total lockdown by the Chinese government.

"President Trump is a con man and the ultimate narcissist who wants the world to revolve around him. When his fantasy of becoming president came true, his narcissism developed a **pathological** dimension... This has turned his narcissism into a **malignant disease**...The Belt and Road Initiative has required giving large loans, some of which will never be repaid. China can **ill-afford** this... The **stock market**... is breaking out to reach new heights. But an overheated economy **can't be kept boiling for too long**...From an open society point of view, the situation is quite grim... Taking into account the... worldwide unrest, it's not an exaggeration to say that 2020 and the next few years will determine not only the fate of Xi and Trump, but also the fate of the world.
