Incident Report

- Due to extreme weather conditions, the start and first lap were run under the safety car.
- On the first green flag lap, Arriola spun in the Senna S. Then Colak spun his car coming out of Juncao and collected Hirani. The Croatian was out while the Kenyan had to make a stop to change his front wing.
- On lap 4, Arriola spun off again, this time into the gravel while Urrutia slips off track but rejoins.
- Sa Silva is the next victim of the early thunderstorm as the Angolan gets trapped in the gravel.
- On lap 9, Hauser runs off the track at Ferradura dropping him from 7th to 23rd.
- On lap 11, Jefferies loses the lead by sliding off at Juncao. The Zimbabwe driver rejoins in 6th. Meanwhile Couto has a separate off track moment and damages his front wing.
- On lap 14, Mikola spins coming out of Pinheirinho losing four places.
- By lap 18 it is dry enough for everyone to start making the switch for dries, the bulk of the field doing so this lap.
- However Bradley spins into the gravel on dry tires on the next lap.
- Couto's miserable race comes to an end at his pitstop where a clutch failure leaves him stranded.
- With the rest of the race in dry conditions the only notable incident was a spin by Moreno who was near the back anyway. Everyone that survived the early storm would make it to the finish.
