1	Avid	9900-55498-00	Avid VENUE Profile, D-Show Main, Redundant PSU	Main Console	Main Control Surface for Digidesign VENUE with Redundant power Supply. Digidesign D-Show Mixing Console with Redundant Power Supply
1	Avid	9900-32598-02	VENUE FOH Rack with 3 DSP Mix Engine Cards, Redundant PSU	FOH Rack w/ 3 DSP Mix Eng. Cards, Redundant PSU	<i>FOH Rack serves as the central processing component of the D-Show and Profile live sound systems. Generally positioned near the console, the FOH Rack houses an embedded control computer and DSP Mix Engine cards, with room for additional hardware option cards, providing connectivity for local inserts and outboard devices. It works in conjunction with the Stage Rack for remote stage connections, employs VENUE software as its graphical user interface, and enables full Pro Tools integration with optional interface cards.</i>
1	Avid	9901-58617-00	DPS Mix Engine Card	DSP Mix Engine Card w/ VENUE Pack Pro plug-ins	9-chip DSP Mix Engine Card gives you more system power and creative opportunities, letting you increase the number of Pro Tools plug-ins in your mixes.
1	Avid	9901-37605-00	Avid VENUE ECx Ethernet Option Card	ECx Ethernet Option Card	<i>Ethernet Option Card for Digidesign VENUE... This is an Ethernet option card for the Digidesign VENUE system's D-Show console.</i>

1	Avid	9901-62733-00	Avid IOx Option Card for VENUE FOH Rack	FOH I/Ox Card	The IOx Option Card is an option for the VENUE FOH Rack that provides eight AES digital inputs and outputs (via XLR connectors) and eight pairs of analog inputs and outputs (via 1/4-inch TRS connectors). This additional I/O can be used to connect digital and analog outboard equipment to your VENUE system at the front of house position, such as CD players and recorders as well as hardware dynamics processors, EQs, and crossovers. All digital and analog I/O are digitally controlled, fully recallable, and fully routable from VENUE D-Show® software.
1	Avid	9900-31286-01	Avid VENUE D-Show 48x24 Stage Rack	Stage Rack	<i>48 x 8 Mic/Line I/O Rack for Stage, 19" Format, Redundant Power Supply... The 19" format Stage Rack handles I/O for stage mic/line sources and return signals. A single Stage Rack accommodates up to 48 remote-controlled mic preamps and converters and can be configured with up to 48 outputs (comes with 8). It connects to the mix engine over the digital snake system.</i>
	Avid	9901-31303-00	Avid VENUE D-Show SRO Card	SRO Analog Output Card	Output Card for Digidesign D-Show Console with Eight Balanced Line Outs... Each SRO (Stage Rack Output) output card provides eight balanced analog line-level outputs

1	Dugan	9900-65519-00	VN16 Option Card		<i>The Dugan-VN16 Option Card brings industry-leading automixing capabilities to Avid SC48, FOH Rack-, and Mix Rack-based live sound systems, offering the easiest way to mix perfectly balanced speech and dialog across multiple live mics. The card automatically detects active mics and adjusts volumes accordingly, minimizing feedback, comb filtering, and background noise.</i>
