

“Daesh”/ISIS And The 2016 Ramadan Terror Attacks In Dhaka

By: Salman An-Noor Hossain

Part 1 - Background Information

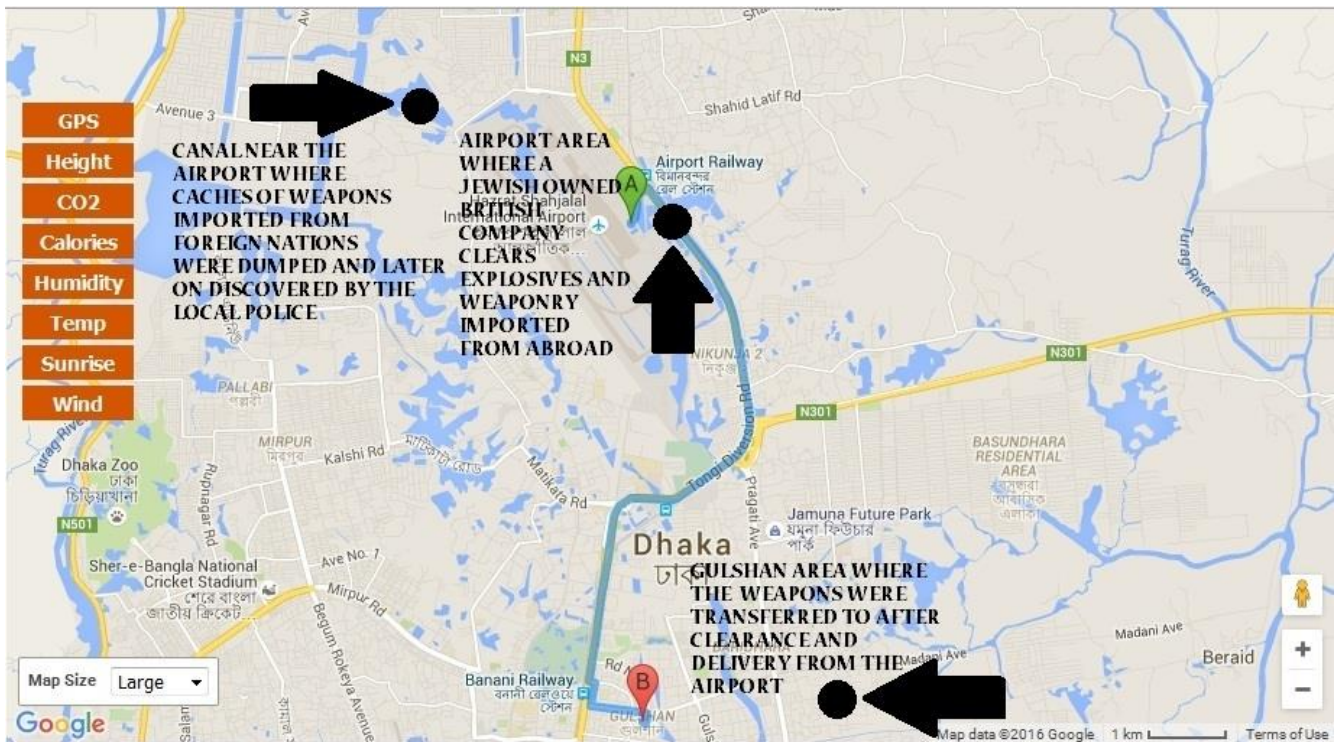

On the night of July the 1st (the 26th of Ramadan), right after the call for Esha'a prayers between 8:45 PM and 9:20 PM, a group of up to [nine terrorists](#) armed with Kalashnikovs and high-grade explosives entered the Holey Artisan Bakery restaurant. They started yelling “God is Great” (Allahu Akbar) while firing blanks. They began separating the foreigners from the locals and [turning off the lights](#) and the CCTV cameras. Foreigners were hacked to death with machetes, meat cleavers, and swords. TV networks were down for half an hour during the night of the attack as the police knew that the gunmen would be [watching television](#). All roadside stalls were shut down within the vicinity of Dhaka. Up till 20 civilians, 2 police officers, and 6 gunmen were killed. The police officers were killed with explosives that is why no other police or under-armed officers were willing to reach. Unfortunately zero Jews died (the most tragic part of the massacre for me). A small preview of how people are hacked in Bangladesh can be seen in this [cow sacrifice](#) video (starring myself back during the second Eid – Eid-ul-Adhza - of 2014 as a spoof “audition video” for Daesh/ISIS). It's a great idea to start hacking livestock for practice before moving onto people in real life!

The official narrative is that 6 gunmen were killed and one taken alive thereby indicating that other two had somehow managed to escape. However, an alternative account from the Bangladeshi press states that three men were taken away in handcuffs around 11:25 AM on July 2nd. It doesn't seem like these three men were part of the original 9 man armed terrorist team that launched the attack. Perhaps they had assisted them, willingly or by compulsion. Two of the armed terrorists had fled a few hours after the attack as they weren't killed or apprehended by the army. Since the terrorists were intelligent enough to shut down the CCTV cameras, it would probably implicate who the real brain-childs, directors, mastermind of that particular terrorist operation. It would show clear evidence as to who was running the operation and if there were any internal collaborators in the building (which I suspect there to be). Dr. K is wrong in his [analysis](#) when he suggests that the attacks were staged with fake deaths and/or injuries. I personally know of three people (a maternal cousin and two other friends/acquaintances) who were close confidantes of at least three people killed in the attacks (foreign expats, locals, and police officers). Unlike the terrorist attack in the [Ankara airport in Turkey](#) where the Israeli Mossad rigged and detonated with electronic sensors various high-grade explosives inside the airport ceilings and walls resulting in mass casualties of mostly innocent Muslim civilians while deranged and drugged out gunmen from the Former Soviet Union (Kyrgyzstan, Russia, and Uzbekistan) shot up the place and blew themselves up, this particular operation employed real extremist from affluent families that underwent several months of brainwashing and indoctrination (a real covert operation). Thus, the terrorist did not expect to survive and were prepared to meet their destiny (death). It wasn't a kamekaze operation and none of them had any [particular demands](#) that needed to be met. However they were expecting death and were expecting to go to paradise.

The explosions rocked the cafe and prevented the local SWAT team otherwise known as the Rapid Action Battalion (RAB) from taking out the terrorists. The terrorists had superior fire power. For the first time in the country's history – well armed terrorists were able to overpower the police and frighten the professionally trained SWAT team from entering. The government never had to deal with a terrorist attack of this magnitude before. Thus, the entire navy and platoon had to be brought in from the border region with Sylhet in order to take out the gunmen execution style the next morning. Apparently, the

gunmen made no demands against the government of Bangladesh either exposing it as an operation to destabilize and smear the nation's reputation. Surprisingly, no Americans, Australians, Britons, or Canadians were killed in these terrorist operations.

Over three months prior to the attacks, the Bangladeshi government was forced to hire a British Firm, Redline Aviation Security under direct orders from the British Security establishment which sent over three dozen men (close to 40) to “supervise” airport security “include manning screening points at passenger terminals and the cargo complex”. This implies that the Mi-6 military intelligence teams aided by moles from the Israeli Mossad were providing “security” to the free flow of goods. The statement further adds: “A high-profile steering committee has also been formed to oversee the Bangladesh government's measures and ensure robust security at the airport. The move comes after the UK government last month banned cargo on direct flights from Dhaka to the UK until further notice. The move comes after the UK government last month banned cargo on direct flights from Dhaka to the UK until notice. It blamed poor security procedures at the Dhaka airport and said some international security requirements were not being met. Airlines carrying cargo between Bangladesh and the UK on indirect routes are also being asked to ensure it is re-screened before its final leg into the UK. The ban has been criticised by manufacturers and exporters in Bangladesh, who say it will hurt ready-made garment exports as the UK is the second biggest garment export destination in the EU after Germany”. The government was to fork over 732 million Taka (9.34 million USD at the time of signing) to the British-Based company to carry out “security management” in Dhaka airport.

The above map shows the route in Blue where arms and explosives would be trafficked and shipped from the airport area (point A) to Gulshan (point B). The Black arrow in the top left corner of the map shows where huge caches of arms imported from overseas were discovered on many occasions 2-3 weeks before the Gulshan terrorist operation. Most of the the Blue route shows “Airport Road” from the Airport until the Banani Railway junction - probably one of the country's longest roads (much like “Yonge Street” in downtown Toronto).

The airport contract with [Redline Aviation](#) was signed on Monday, March 21st, 2016 between CAAB's Acting Director Nurul Islam and the [Jewish](#) CEO of Redline - [Paul Mason](#). A day after the attack, the British High Commissioner shed [crocodile tears](#) over it. Their own intelligence services had a role in facilitating and organizing the attacks by importing weapons never used by militants before in the country. It is also easy to bribe local security officers to look the other way when trafficking in weapons. Towards the end of June 2001 (3 months before 9-11), my mother and I were returning back to Canada after a four month stay in Dhaka and we were forced to bribe luggage carriers to smuggle an extra suitcase full of personal items (clothes, merchandise, souvenirs, etc.) from Dhaka's Zia International Airport (now renamed Shah Jalal International Airport). The reason we had to bribe luggage carriers (approximately \$400 USD) into smuggling a suitcase was because the travel agent we purchased tickets from had lied to us about the total number of baggage we could carry as two individuals (I was about 16 at that time). So we paid them off and the luggage ended up arriving on time at Toronto's Pearson International airport. It would be very easy to plant or sneak in suitcase sized bombs in the luggage compartments of airplanes this way without raising any suspicions.

Bangladesh boosts airport security after UK cargo ban

By Leonie Barrie | 12 April 2016 Font size Email Print

Bangladesh is taking steps to upgrade security screening procedures and equipment at Dhaka International Airport after the British government last month imposed a ban on air cargo from the country.

A two-year contract awarded by the Civil Aviation Authority of Bangladesh (CAAB) to UK firm Redline Aviation Security will deliver aviation security services, including training, to security officials and screeners at Hazrat Shahjalal International Airport in Dhaka.

Redline will deploy nearly 40 of its team across a variety of aviation security functions, including manning screening points at passenger terminals and the cargo complex.

A high-profile steering committee has also been formed to oversee the Bangladesh government's measures and ensure robust security at the airport.

The move comes after the UK government last month banned cargo on direct flights from Dhaka to the UK until further notice. It blamed poor security procedures at the Dhaka airport and said some international security requirements were not being met.

Airlines carrying cargo between Bangladesh and the UK on indirect routes are also being asked to ensure it is re-screened before its final leg into the UK.

The ban has been criticised by manufacturers and exporters in Bangladesh, who say it will hurt ready-made garment exports as the UK is the second biggest garment export destination in the EU after Germany.

[Bangladesh calls for UK cargo ban to be lifted](#)

Part 2 – The Israeli and Jewish Connection(s)

The Bangladeshi Home Minister [Asaduzzaman Khan](#) is correct in stating that it is a part of a global international conspiracy linked to the Israelis thereby attempting to make the nation completely dysfunctional. He had also mentioned that Aslam Chowdhury, an opposition leader, had arranged a

meeting with Israeli businessman [Mendi Safadi](#) who [allegedly](#) had plans to overthrow the government which had been admitted by the accused. It is quite obvious that Chowdhury did in fact attempt to cause instability and help organize a coup to overthrow the government since Bangladeshi citizens are forbidden establishing relationships with Israeli citizens as there is absolutely no diplomatic relationships between the two countries. Not surprisingly, the Israeli-Mossad's voice piece (aka SITE) published [photos](#) of the attackers. Three of the gunmen had been immediately identified and had reportedly gone missing 4-7 [months](#) prior to the operation in order to undergo intense brainwashing. These youths did not spontaneously go on an infidel-killing impulse. One of the men had left the country at the end of December 2015 (Rohan Imtiaz). The other had gone missing before February 29th 2016 (Mir Samih Mubashir).

2) Meanwhile [#Bangladesh](#) gov finds a solution for [#SIS](#) in its borders: blaming [#Israel](#).

For once, I'm speechless!

Bangladesh home minister suggests Israel behind spate of killing...

The Bangladesh home minister suggests to the BBC that Israel could be linked to a spate of killings otherwise blamed on Islamist militants.

[bbc.com](#)

The photo op taken show the young men dressed in full black attire appearing in broad daylight brandishing guns. However, when they entered the restaurant they were dressed in casual clothes with their pants tucked in. The images released by the police after their execution show that they were not dressed in black outfits and typical “Daesh” regalia as SITE/Amaq “news agency” had published on their website. Rita Katz, the Israeli Jewish witch from hell, was of course jumping in glee pointing out the success of the operation that her allies in British Intelligence had orchestrated. She had also falsely claimed that Daesh or ISIS had killed Italian aid worker Cesare Tavella and a Japanese farmer (who converted to Islam) but the perpetrators of the killings were either [contract killers](#) or [drug addicts/narcotics traffickers](#) as claimed by the police and not connected in anyway, shape, or form to any “Islamic groups”. Thus, Daesh didn't exist in Bangladesh back then and it still doesn't operate in the country now. Rita Katz and SITE pick up their “information” from Amaq – but they never link to the websites posting the information and statements with regards to the terrorist operation. It is obvious by now that Daesh is a cut-out organization for Mossad and Mi-6 Operations worldwide. In Bangladesh they had morphed into a hired mercenary group targeting religious minorities and foreign workers and since I live in the country I can certify with absolute confirmation that Daesh doesn't exist and is nothing but a form of extremist nihilism organized by America, Britain, and Israel.

The killings of [anti-Islamic atheist bloggers](#) (falsely dubbed as “Liberals” or “Secularists”) and [Homosexual activists](#) (financed by USAID) are carried out by my friends in the [Ansarullah Bangla Team](#) (not Daesh/ISIS). Their targeted killing was necessary because the corrupt government of Bangladesh doesn't protect the religious sensibilities of its society (and in effect undermines their own political authority and popularity in order to appease the demands and pressure of the Jew-run Infidel West). The Prophet Muhammad may have forgiven his enemies and those that openly disrespected and mocked him but we as his followers will not hesitate to send the enemies of Islam who make a concerted effort to continuously blaspheme the religion straight into the afterlife. A one way trip that is. Many Bangladeshi Muslims (like myself) support the killing of any one blaspheming and disrespecting the Prophet Muhammad. Since western society considers it a freedom of speech to openly attack Islam and defame the Holy Prophet while submitting to the influence of the Jews as God's chosen and arresting historians who deny the holohoax, I have been openly trying to facilitate and organize the genocide of a good chunk of Western Europeans and their descendants in Australia and North America (along with the evil Jews of course) but I haven't been able to do anything much besides cheer on such an [invasion](#) and extermination campaign. Yes, I stand by my calls made earlier six years ago and am in fact doubling down on it. By including the populations that serve as proxy arms for Global Jewish

power, I ended up being charged with unfortunately only 2 counts of genocide against an identifiable group whereas I was aiming for a full 3 counts (similar to my extreme hatred of the Jewish people). That is because I don't recognize any laws that contradict Islam, especially when it includes such important issues with regards to the Jewish question. Since the Jews and Judeo-Christians in the Western world (Europe and North America) are oppressing Islam and Muslims by falsely labeling and imprisoning them as "terrorists" when they are completely innocent, I am more than anxious to see a full blown genocide occur.

Five of the gunmen had been identified as being from upper class neighbourhoods in the country and from rich and well-to-do families. Only two were from economically deprived backgrounds and had also gone missing for over 6 months. Three of them went to English speaking schools in Dhaka and studied overseas in Monash University's Malaysia campus and had gone missing for many months before the operation. One [news report](#) states that the parents claimed that all the alleged militants had gone missing for months before the operation was carried out. Some of them went on live TV to claim they had [lodged reports](#) with the local police months ago to declare their sons missing. These were clearly misguided youths who carried out the operation but under intense preparation and were instructed by handlers in the Mi-6 overseeing the mission. These local malcontents were certainly given instructions and procedures on how to carry out the attack successfully without leaving any evidence (and only turning back on the Wi-Fi connection after the killings had been perpetrated in order to update the massacre that took place with pictures). They were most certainly coerced into participating in the terrorist attack. The planners of the attack had to have some level of technical expertise and connections with the facilitators of terrorism worldwide in order to publish the scene of the crime right after it took place.

Around two weeks before the incident, heavy caches of weaponry [imported](#) from overseas had been found near the airport area not too far from where I live. “According to the Agency, the cache was discovered in the Northern part of the city near Uttara in one of the channels close to the international airport. The cache was hidden, 108 pistols, 1000 cartridges, 189 shops and ten men”. Five days prior to the confiscating of foreign made weapons, another [cache](#) was found as well on June 18th. Police discovered a cache “which includes 97 Chinese pistols and 1,000 bullets, scouring the canal. The arms and ammunition were wrapped in paper and kept in seven travel bags, according to the sources”. The weapons were not trafficked in from the Indian or Burmese borders as overhead costs would be too much for such a transfer operation. So it is easiest to import huge caches of contraband and narcotics via the loophole in the security system.

These terrorist attacks were organized by malcontents in the country who are opposed to the government along with the aid of Israelis and British Intelligence (Mi-6) to be exact. The reasons for these types of attack are pretty obvious – Bangladesh has never recognized Israel and will not play along the game of the “Islamic terrorist” bogeyman. It's officially an Islamic state although the laws don't exactly reflect that. Daesh doesn't exist in Bangladesh at all, except as a strategy of tension, and there is clearly an International conspiracy (albeit Jewish/Zionist inspired) attempting to prove its [existence](#) according to the local police themselves. Other reasons include making attempts to [drop Islam](#) as the state religion in the country and removing it from the alliance of Islamic nations by making it recognize the illegal Zionist entity in Palestine. Daesh doesn't reside in Bangladesh nor any other Muslim country (except for parts of Lebanon, Iraq, and Syria) for that matter. As a Bangladeshi-born Muslim, I have more rights to reside in Occupied Palestine than that of Jewish people from anywhere in the world– ask my brothers in Islamic Jihad, Hamas, and Hezbollah if you don't believe me.

At the same time however, the current government isn't sinless either. The ruling Awami League party has undermined social and political cohesion by clamping down on the political and social rights of over half its population. It has not allowed for transparent elections to take place and during the last two years has held onto power by absolute brute force. It also collaborated with [India's RAW](#) in 2009 to help organize a [mutiny](#) against the Army Officer's Corps who were strong supporters of the Bangladesh National Party (BNP) opposition. Right after the publishing of the main suspects in the Bangladesh Army mutiny by the pro-Caliphate Hizb-ut-Tahrir group (Party of Liberation), the party was completely banned. Not only that, the government went too far in suppressing the political culture of hartals (or strikes) which is often damaging to the economy. “Hartals” and Nationwide Strikes have been banned the last couple of years after the government usurped power through sham elections. Last year the ruling Awami League party decided to rub it in their opponent's face by declaring a victory celebration a year after strikes had ended. Calling strikes by the opponent is now ineffective in Dhaka City – the main center of trade and commerce in the country. It may have improved the economy temporarily but it resulted in furious and rogue elements in the opposition to collaborate with the enemies of Islam and Muslims in order to overthrow the government of Bangladesh. Plus, the Bangladeshi government has already pinned the blame on their political rivals in the banned Islamic group [Jamaat Islam](#) and not [Daesh/ISIS](#) (although Jamaat has nothing to gain from this attack either).

The main opposition to the Awami League (Bangladesh National Party) decided to take assistance from the Israeli Mossad via the British Mi-6 in undermining local security and government functionality. The only problem with this is that when working with the Israelis/Jews/Zionist – the entire religion of Islam and Muslim will come under attack. Both parties have malcontents engaged in serious treachery and thus need to be purged. However, collaborating with the evil and subversive Jews and Judeo-Christian

alliance is far worse than the ruling Awami League collaborating with the Hindu government of India to squash its enemies. If I were running the government of Bangladesh, I would immediately retake full control of the security in the airport and bring in Chinese and Russian troops in the country to assist in counter-terrorism (anyone but the Israelis).

Part 3 - Dealing With The Jews

Ever since the colonial period, Bangladesh has had poverty imposed upon it via the global Jewish-dominated banking industry which has resulted in predatory capitalism. Interest rates are generally amongst the highest in the world compared to other countries. The local currency has been devalued against the world's reserve currency – which was at first the British pound and after the second world war became the US Dollar. This cowardly move was done by the British government in order to cripple the local economy, a large part of it being based on the garments and textile trade, and make the country completely dysfunctional. This was done through covert means by the Jewish-owned and run British security establishment which did it with the assistance of local malcontents. In order to get Bangladesh to submit more to the International Jewish plans to rule the world with complete domination, it has to strike it where it hurts the most – in its economic underbelly. The International Jews that run governments in the Western world are attempting to bring the world of Islam into complete submission by either blackmailing, bullying, or invading it in order to recognize Israel. This plan is not just for the Muslims in the Middle East but Muslim majority populations in the regions of Anatolia, the Balkans, North Africa, Russia, Sub-saharan Africa, South Asia, and South-East Asia. These subversive operations have been ongoing and increasing at an exponential pace immediately after 9-11 in order to completely fulfill the stated objectives. Thousands of innocent Muslims (before the creation of Daesh/ISIS in 2014) in the Western world and beyond had been framed for the crimes of Jewish terrorists worldwide (both Israel and abroad). However, if Bangladesh or other Muslim countries recognized Israel and had diplomatic relations, there would definitely be infinity more terrorist bombings than ever before. Israel will never be recognized in the hearts of over 2 Billion Muslims worldwide and when our time comes we will eradicate all the Jews living there. If all the Palestinians in Israel and neighbouring territories were exterminated tomorrow by the Jews, we would replace their population with neighbouring Arabs and Muslims from all over the world. The Palestinian issue will never be given up and the Jews will never rule the world. The Jews (big, medium, and small) can continue on day dreaming. They will kill others but also get themselves killed while doing so and have ultimately sealed their fate.

More than 6 years ago, I began employing underhanded and ruthless blackmail and bullying tactics myself against the NATO governments of the Western world by calling for the extermination and genocide of the Jews that currently operate in the West (not just restricted to Canada) since they are openly and covertly propagating a global war of terrorism against Islam. One aspect of this includes daily blasphemy against the Prophet Muhammad (another trigger for my plans to genocide civilians in the Anglosphere) and Islam. To be explicit - I support executing anyone blaspheming the Prophet Muhammad any where in the world (east or west) and the promotion of the LGBTI lifestyle in the Islamic nations. Another immediate trigger for my genocidal plans against Diaspora Jews and Western societies was due to the persecution of innocent Muslims as being “Terrorists” in false flag operations organized and carried out by International Jewry and their various assets while the sheeple in the Western world purposefully support what the secret or shadow government of Jews are manipulating them into carrying out and doing. I left the country in order to help facilitate and organize this genocide – specifically seeking assistance from China and Russia to invade and nuke the main powers in the Western world excluding Muslims from being wrongfully blamed as the aggressor (but still resulting in a humanitarian crisis with mass graves for the Jews). A state-backed genocide is far greater than

anything an act of “terrorism” could ever achieve! Since the Jews and their supporters falsely label Muslims a security threat and “terrorists”, then the best way to put the rats in their place would be to organize an extermination program against them (something much worse in practicality than being falsely accused of terrorism)– and if they resist even with backing by popular support – they will also be stamped as “insurgents” or “terrorists” by those engaged in eradicating and exterminating them. I planned on attempting to help others in wiping hundreds of millions out of existence. Jewry and their allies and supporters in the Western world also need to endure mass trauma and suffering. The genocide against them needs to be permanent and psychologically so damaging that their next few generations will suffocate in pain and misery. They will soon reap the rewards of what they have sown. No mercy shall be shown to them for what their governments have done to others throughout history often at the manipulation of the top Jews who will suffer disastrous consequences.

The main government(s), populations, and societies, that I targeted that time for liquidation besides “Steven Harper's regime” included America, Australia, and Britain at the time. My first attempt at bringing about socio-political changes while in Canada was through an armed coup d'etate against Steven Harper's government using the Canadian Army. Knowing that plan wouldn't work, I opted to leave the country in order to organize a revolution and attempt to begin promoting and pushing for a full-blown genocide against the Jewish owned nations of the Western world – targeting the main financial and political elements of Western society by supporting the interests of anti-Western nations (China, Korea, Russia, among others). The main elements of Western society that I have targeted included the private Jewish Bankers, Jewish Media Moguls, Lawyers, Lobbyists, Judges, Security Services, Subversives, and more members of the establishment of Organized Jewry. Others include gentile collaborators like Academics and Freemasons. I still continue on preparing and [promoting genocides](#) as a means of blackmail and bullying against the Diaspora Jews (starting with the big ones) and their subservient Western populations which they control. I will never stop promoting and attempting to facilitate and organize multiple genocides against the Jews and their allies until Jewish power is permanently decimated.

No matter where the elite Jews and their collaborators go, an international resistance will have to hunt them down and liquidate them. Low/Mid-Level/High-Level Jews and their gentile collaborators will be nuked from their locations in cosmopolitan/metropolitan cities where they are concentrated in the former colonial nations of Belgium, France, Holland, United Kingdom, and the United States. By calling for the genocide and other forms of vicious atrocities against hundreds of millions of people with the assistance of Chinese and Russian troops, I also began to hold entire populations hostage for the actions of their governments being subservient to Global Jewish interests. It was a semi-successful psychological operation that is still ongoing. It resulted in the Jewish Bankers directing the Mi-6 in London attempting to coax the Bangladeshi DGFI in apprehending me via pressuring the Bank of Bangladesh (thereby confirming my hypothesis and suspicions about Jewish financial control of the entire world) which runs the country's economic policies and frequently interfering in the internal socio-political agenda. This is because I have personally called for the destruction of Western economies which are solely controlled by the Jews. So in essence, I am on the right path in my mission and attempt to fulfill my objectives.

If a full blown genocide is indeed carried out against Western society, then all other casualties and victims are expendable for this cause. This includes people of non-Jewish and non-European descent. Having hatred for the Jews and my desire to exterminate them from the face of the earth even if it means liquidating my immediate and extended family which resides in Australia, Canada, the United Kingdom, and the United States.

So I say to the Jews: You can run, but you can't hide – we will be hunting and liquidating those who rule the Western world by proxy and if that is not possible, then a Sino-Russian armed invasion and genocide will get the job done. It doesn't matter whether the [elite Jews](#) and their [collaborators](#) (both Jew and Gentile alike) go into the mountains, run deep underground, or move to desolate/isolated island(s) and/or [countries/locations](#) (thereby making it difficult to get [access](#) to them), they will be hunted down, tracked and killed. Running to the [bunkers](#) (mostly underground) and hills won't save the Jews and their assets from death and permanent liquidation. Due to technical reasons, I could never be labeled a “Terrorist” but I'm rather a wanna-be “war-criminal” – which I openly, and proudly admit towards being. I left Canada with the intention of trying to help cause a humanitarian crisis in the Western world by pushing for an agenda of full blown genocide using Chinese and Russian troops. The entire world outside the Jew-run West knows who I am and are currently supporting my mission. Violence does indeed solve problems in more ways than one! To the Jew Devils and their assets worldwide – let me give you a big middle finger (Fuck You). Today I am a free man and I will die a free man no matter the consequences (no money or women). As a free man, I am still pushing for the freedom of the world from the control of the Jew Bankers and thus aiming for the total devastation of the main NATO member states that contributed towards the destruction of Afghanistan post 9-11. I have been having visions of a global genocide against the Diaspora Jews coming very soon since I resided in Canada. This has been ongoing since late 2007 actually. That is why I have been looking towards implementing my visions by helping to engage in the mass killings of the Jews and their serfs in Western society. If death has been stamped on the forehead of the Jews and their allies, then nothing will be able to stop it from manifesting itself. The [Angel of Death](#) does not lie and has already spoken to the Israelis of their impending extermination and the hands of the Muslims worldwide via nuclear weapons. I believe the Chinese and Russian armies will liquidate a good chunk of the western world which will automatically consume most of the Jews residing there. When I was in Canada, a few months before leaving after harassment from CSIS, I would tell my colleagues and supervisors at the company that I worked at the time that China and Russia will be invading and killing you all including all the big Jews (and I will fully extend my support to them). In order to survive from any potential frame ups by the big Jews, I decided that I had to strike the head of the snake which propelled me to call for the genocide of the diaspora Jewish communities publicly. A pre-emptive strike by victimizing the invisible Jewish enemy was the strategic approach that I took in saving myself and exposing the Jews for being the terrorists that they are.

Furthermore, similar to many Jews having imperialist ambitions to manifest the [Greater Israel project](#) and own and enslave the entire world while ruling from Jerusalem after establishing their [third temple](#), we also have ambitions in our religious scripture(s) which mention end-times battles that will end in the literal [genocide](#) of the Jews at least in Occupied Palestine. At my last place of employment back in Canada, I was told by a non-Muslim that the Christians are literally bitch-boys for the Jews while Islam and Muslims are a direct force opposing them. Since I am a Muslim, I represent the authentic Forces of Islam opposing Global Jewish power and hegemony (not the Takfiris subverted by Global Jewry). My duty is to get rid of all of the evil Jews in the diaspora (especially the Western World) while other Muslims join the jihad to liberate Palestine and fulfill the end-times religious [prophecies](#) in both the Qur'an and the “Hadiths” (Traditions) attributed to the Last Prophet Muhammad which indicate the end of Israel to be around 2022. The world will return to Islamic rule after that. It will be seen as a blessing to keep the power of the elite, oligarchic, and parasitic Jews in deep check. Or should I say: “Cheque Mate”!

Part 4 – Reflections Upon The Incident

My issue with all this is that why is there such importance being given to the lives of [Italians](#) working

in the garments/textiles industry in Bangladesh who were there to exploit the usurious financial system setup by Jewish Bankers in Europe and North America which target defenseless and poorer nations in the third world? What about consultants and volunteers from the Japanese Aid agency that were there to help improve the country's infrastructure? Their blood is clearly more valuable for Bangladesh than that of the Italian and even the other Bangladeshi casualties themselves. This terrorist operation has only damaged the possibility of necessary foreign aid for the development of [Bangladesh's economy](#) and infrastructure provided by Japan to the tune of 1.2 Billion USD. The Japan International Cooperation Agency (JICA) whose consultants and engineers had been killed in the [attack](#) are considering withdrawing. The Japanese have been [assisting](#) Bangladesh for over 40 years in genuine aid and development to Bangladesh – something that Western governments have rarely ever done (thus my lack of sympathy for dead Italians). This includes technical advice, grant aid, and a steady flow of volunteers. The damage to the Bangladeshi economy due to it not submitting to Israel and International Jewry enrages me and thus their genocide will take place very soon. What is even more incendiary/inflammatory and provocative is when the Italian Prime Minister [Matteo Renzi](#) blames this attack on “radical Islam” but the Japanese Prime minister Shinzo Abe calls it an “[inhumane atrocity](#)” and “[unforgivable act of terror](#)” (the latter head of state's statement is more accurate).

Why are the lives of the Jews and their White European slaves so important to the rest of the world? Who cares about a bunch of dead Jews and Europeans whenever any silly or tragic incident happens anywhere in the world? What about the thousands of Bengalis killed by the Indian and Western backed governments during the last six years – sometimes dozens if not hundreds daily? Is it because their blood is cheap? Jewish/European blood is just as cheap to me as Bangladeshi and Muslim blood – if not cheaper (the blood of Muslims is more precious to me than the blood of the Jews and their European gentile slaves with the exception of White Muslims in the Balkans, Anatolia, Caucuses, North Africa, and Siberia – another reason for my pushing a genocide using Chinese and Russian troops against the Jews/West). What gives the Jews in the Western world the right to devalue the currencies of the former European colonies which results in millions of economic migrants moving to Europe, North America, and the rest of the Western world. Furthermore, most of the peoples in the Western world do not believe in justice or else the real perpetrators of the 9-11 terrorist attacks (among hundreds of others) would have been tried, convicted, and executed.

Some people say that Europeans (except for the Russians) and the West gives “Aid packages” to the third world. The truth is that they give the third world aids (literally and figuratively). The only nations that have given assistance to the genuine infrastructure development to the third world are the East Asian countries (like China, Korea, Japan). Australia, North America, and Western Europe has essentially provided nothing but poverty, usury, and free handouts for the third world (like a breadbasket) that creates perpetual dependency. Unlike the Japanese example in this article, Europeans and North Americans (Westerners besides the Jews, who will always be Jews) have never provided genuine aid and infrastructure development to the extent other developed nations have. Europeans and North Americans have just provided handouts to give each other a pat on the back, make some cash, while adulating themselves as being morally superior. To them – they don't mind killing others that pose an economic, political, and spiritual threat to them and letting an overpopulated third world exist as long as it is a slave class that serves them. Even the scientific and technological assistance that is provided to third world nations is backdated and obsolete by at least two generations unless it has to do with the consumption of Western products or exploitation of its human labour (i.e. garments, plastic factories).

It's due to the economic plundering of the wealth of the poorer nations through the ultimate crime against humanity known as Usury via compound interest that has resulted in the transfer of millions of

economic migrants to the Western world. It is also the sin that causes millions of money hungry capitalists, including predatory capitalists (the worst of them all and usually Jews) that are continuously seeking an easy fortune to enter third world nations and exploit them for cheap labour. What gives Jewish bankers based in Europe and North America the right to devalue Bangladesh's currency at 78 local units (Taka) to 1 foreign unit (US Dollar)? Every single national currency – especially those in the third world should immediately de-link from the British Pounds, Euros, or US Dollars. After living in Bangladesh for the last 6 years, I am more than convinced that my calls for genocide against the Jews and their western slaves worldwide is more than necessity. It's of utmost important. I have never backed down for calling for a genocide against the big Jews and their slaves (both gentile and Jews alike) especially those in the Western world. I continue on doubling down on exterminating the Jews worldwide and the destruction of Western economies due to terrorist and treacherous Jewish behaviour.

The land will soon be uninhabitable when nuclear weapons start raining all over the Western world. Chinese and Russian troops will arrive and begin killing and raping civilians (unarmed men, women, and children). In order to add salt to the wounds of the dead, they will consume their corpses in a cannibalistic fashion after exterminating them (Among the dead will be the International Jewish bankers and their supporters). In order to add insult to injury, the survivors of the invasion who witness these live atrocities will be called “insurgents”, “miscreants”, and “terrorists” if they fight back even if the resistance is backed by popular demand. Not only that but those who are alive will wish they were dead instead as the toxins released into the atmosphere and the environment will result in their flesh falling out. None of the inferior races from the third world will want to ever immigrate to the West again and the Jewish population will be liquidated. Thus will my heart be healed and the evil doers will pay the ultimate price of going on a one way trip to meet their Maker.

The best way to deal with international trade is through barter in the form of human labour, goods and/or services between nation states. That is authentic fair trade. Devalued currencies are a horrible way to destroy a nation. Especially when the world's reserve currency is the US dollar. The US Dollar is being crashed right now for electronic and invisible currency. The truth to the matter is that none of this will matter any more. A permanent state of economic slavery is what the elite Jews in the West want and that is precisely why I am pushing for their eradication and the confiscation of their assets and wealth. Without Usury and the military might of the United States Army and NATO, Jewish power will get to be totally crushed and their ruling class will not be able to take over the rest of the world. I really don't see any other way out of this situation without the use of pure brute violence and extermination. Ideally we wouldn't want that to happen, but due to the primitive tribalism of many Jews, that is going to be their end destiny eventually. I can't see any other option for them.

This is precisely why Islam must rule some parts of the world like it did during the Ottoman caliphate. Insha'Allah this will eventually come to pass very soon in the near future. Global Jewish power is waning and will eventually be destroyed. The end is coming. Islam is rising. Islam is the only force that will keep aggressive, excessive, and extreme Jewish behavior in check. There is no way to stop it from ruling the world. Jerusalem will be liberated and a genuine Caliphate installed in the Levant from which Muslims will reconquer Rome and the Vatican in Italy. La hawla quwata ila billah! (There is no power but with God!)
