What is a Minecraft SMP Server?

You have probably already heard of SMP servers! They are even more popular than regular survival servers. The biggest minecraft youtubers in the community share a SMP server to engage with their community.

How to play Minecraft Servers MP?

Search between lots of Minecraft SMP Servers to find the most popular servers on this Minecraft Server List. When you find the SMP Server you want to try, copy the IP Address to your Minecraft Client and begin your journey.

Choose from the Best Minecraft SMP Servers

SMP quite literally stands for Survival Multiplayer. SMPs can be very basic to the point that it's just a survival server. There is also a possibility that the server has a ton of features, it does not really matter though. All SMP servers focus on getting a heavily engaged staff team and community vibe.
