A conversation from the NEW EARTH Happenings skype room;

Would you want open borders Norm?  
that is for Hitlery so she can get more fake votes

norm; nope not at the expense of the whole country

pd; If ones next door neighbour family is large, poor, scared, hungry came over to your house, walked in or broke their way in, and demanded you feed them and supply their many needs; even if it was at a sacrifice to meeting your own families need, would you say WELCOME.

The tactics of the dark is to always frame problems as black or white, either/or., right or wrong, all or nothing, and yes or no.

Part of awakening is realizing that most all problems, lacks, etc are filled with grey areas, not absolutes. The dark divides and conquers by framing problems as having only two 'possible' answers. Giving at a sacrifice to ones

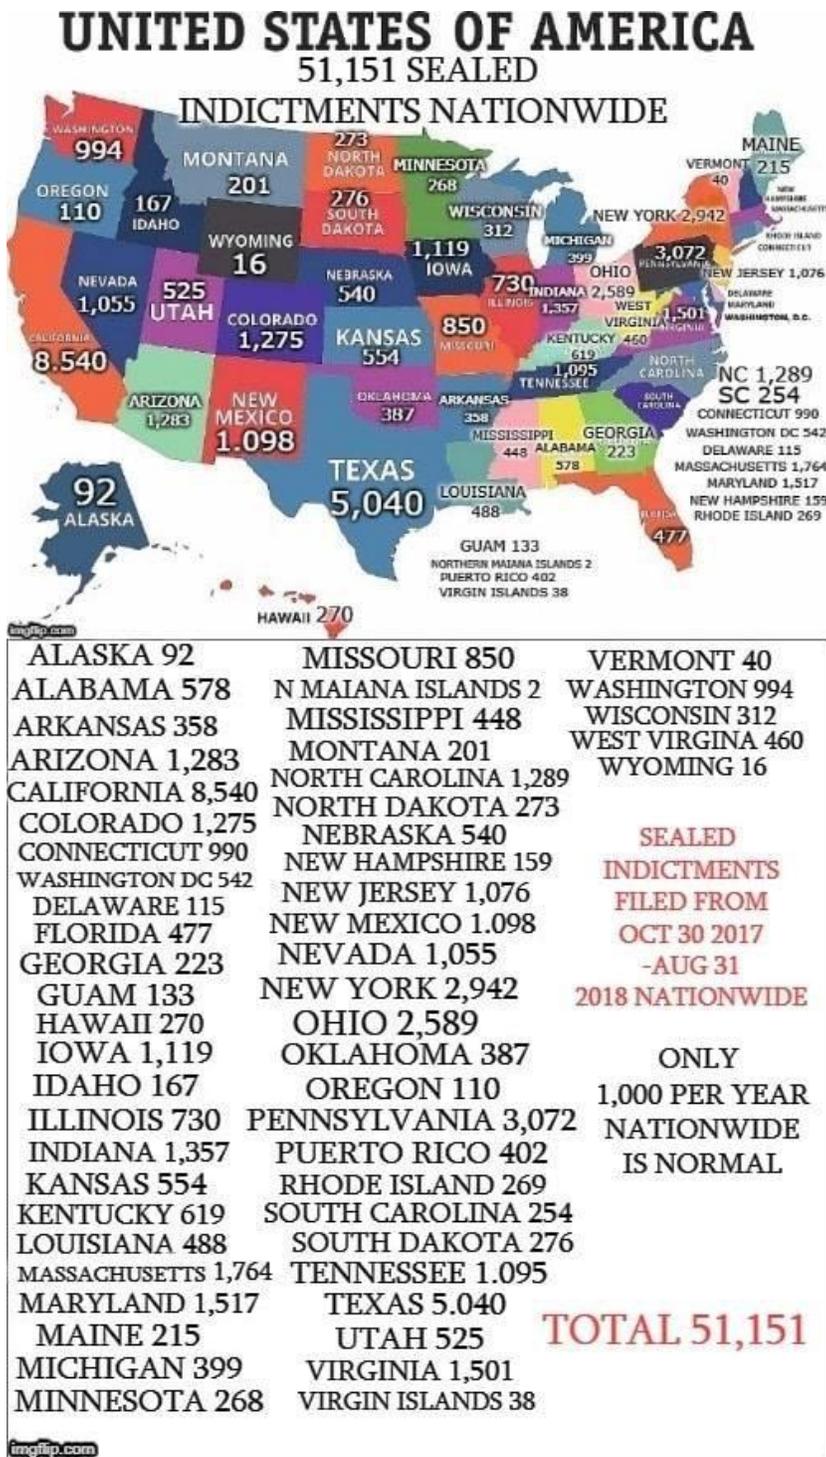

own well being is not loving. It is enslaving for all concerned.

A wealthy country can offer, or not offer, to help another country on the other countries soil.

All abundance is found within any individual, or group of individuals, such as countries, or neighbour families.

No individual, or groups of individuals, has the right to invade another individual, or group of individuals, space uninvited; period. For any organized group in today's grey areas of uncertainty, the power to maintain their sovereign freedom lies in the power of the vote and collective choices. Making decisions based on guilt, which is the case at American borders in today's state of the world, will never bring relief from the pain of confusion and lack. The American Nation is at a point of change where the vote will determine the future collective experience. Free will choice will determine the future. Choose wisely.

This is a month old, but it is a nice graphic

## "The RV, the NDA, and your Plans" by Ron Giles - 10.17.18

Entry Submitted by Ron Giles at 8:08 PM EDT on October 17, 2018

OOOO Scary stuff, that RV project. The big monster is the NDA? The rumors are part of the Shill-Deal-Gig. Are the NPTB (New Powers That BE) the villains or is it still the OPTB (Old Powers That Be)? Who is really Superman while disguised as the mild-mannered reporter from the Daily Planet to save us from ourselves? Oh My, Oh My, who should I believe? This project RV is not for the faint of heart.

Many posters give their daily quota of dates, rates, and planned expectations. A lot of posters give in-depth info of the political Iraqi landscape and leave it to us to see what relevance there is, if any, to the RV release. Is it really necessary to know this stuff? Is it given to us for an expectation as to the date and the expected timing, or is it given as a set of circumstances so our expectations are high, just to be dashed on the, shill alter-of-destroyed-expectations, used to create doubt? It's never been relevant or right, so why do they keep saying it? Follow the money.

The RV is shrouded in mystery. We have received a lot of information over the years, but the RV landscape has changed and evolved. Where the Dinar was the drawing point, in the beginning, the Dong and other currencies were included in the "First Basket" of revalued currencies. The Revaluation is a pittance when the real game changer was revealed as the Zim Bond notes. Most active posters are still hanging onto the Exchanges of currencies because they have not progressed in their thinking and embraced the Zim Bond redemption as the tool of choice. They are holding on to a slingshot weapon in comparison to the big guns on a battleship. Each currency has its value for sure, but to destroy the Cabal World-Wide Economic System, the battle weapon of choice has got to be the Zim Bond redemption.

Much of the concerns about the use of funds comes from exchanging of currencies, not the redemption of Zim Bonds. The 80-20 split of funds for humanitarian projects as compared to how much we get to use on ourselves is old thinking and not a part of the Zim Bond redemption funds. You can't spend 20 trillion dollars on yourself, it is impossible. Leftover thinking for sure! Old posters and con-call hosts want to remain relevant but they are a dying breed of irrelevant reporters. Often, as a course of action, they spread rumors and innuendos as truths but they are not capable of giving even "reasonable proof" as to the veracity of their claims. To be a relevant source of information, one must keep up with the newest and latest info. If you don't know the Cabal plans, you will not know victory over them. Learn to recognize old stuff/info and keep advancing into the newest and best info. This war is real and old soldier information is irrelevant. If your "stuck," the lay of the land doesn't change, but if your moving, it is always changing. The road will take us to where we want to go, just stay on the road, keep it between the lines and we will make it.

Let's look at the NDA. The NDA means the Non-Disclosure Agreement. A lot of shill BS has been posted that gives us significant fears as to; what it is, what can happen to us if we break it, are our funds going to be clawed back from us, or all kinds of dragon fears that we need to be scared of. **Why do they do that to we Sovereigns? Rest assured it is the slave masters treating us like slaves again.** Is it hard to see that these scares and fears are calculated to keep us in fear and doubt as to moving away from the slave chains? **If they can keep treating us like slaves and we continue to respond like slaves, then we are losing, and showing ourselves that we do not deserve to be Free Sovereigns.** Slaves think one way – Sovereigns think a better way. The change is compelling us to move forward in our actions and thinking.

**The NDA is designed to keep us safe** by not talking about the exchange, the rates, the amount of funds we have, and where we got them. This information can be used against us by the unscrupulous to put us in harm's way. With the NDA, we get to just go about our projects without having to prove our self-worth to anyone. We get to be wise and prudent and go about our activities without fear because we hold on to correct principles that keep us safe. **The NDA is a two-way street. They cannot let out who we are or what funds we have, to anyone who does not have a "need-to-know."**

The NDA rates are our business alone. So-called, contract rates, sovereign rates, etc. will not be the rates we get. If we did, why would we need to sign an NDA? If everyone is to receive the same, contract or Sovereign rates, why the NDA? Wouldn't everyone already "know" what the rates are? Same as everyone else? Duh! We will receive negotiated rates that are designed to cover our humanitarian projects. That is all you need to know and believe in. This funding is designed to give each individual the funds necessary to destroy the Cabal Economic System as a team effort. Not every soldier drives a tank. Not every person has control over the atomic bomb. In this regard, some will do their work locally, some nationally and some internationally. Each is given according to their capacity to use their weapon effectively to accomplish their individual part of the whole and do that without destroying themselves. This is not rocket science. It just plain logic.

I believe it is time to reevaluate our thinking and to harmonize with the plan that dictates when we will be given our weapons for this Economic war. Be the General, the Commander, the Responsible Steward and plan out the part that you want to play. God knows we've been given the time - have we complained it away or have we used it to complete the planning stage for our project? To each his/her own - your rate and my rate will depend on our preparations, not just because we have been waiting for such a long.

Wishing happiness and joy to all and hope you've planned big.

## **Massive Censorship Sweep Rolls Over America After Leftists Hide In Terror From (Seriously, You Can't Make This Up!) Cartoon Face**

<http://www.whatdoesitmean.com/index2686.htm>

I have spent some time thinking and discussing the strange SORCHA FAAL story posted yesterday, with people on a dinar info room. If you missed the Sorcha Faal article, check it out above.

Why should the MSM go whackadoodle about an innocuous cartoon face? UNLESS there is, hidden in that cartoon face, a truth which they are dedicated to keep people from knowing?

I first ran into this idea a few years ago on the <https://cassiopaea.org> website. There was an article there which told about human beings who seemed to actually NOT be human beings, but amazingly, intricately controlled copies of humans. And these fake humans had the whole human shtick down oh, so ALMOST perfectly...

But when they failed to perfectly copy the human plan, they often showed up as a soul-less, conscienceless, morality-less person which we have decided to call a *psychopath*. Unless, of course, you weren't calling him Governor, or Yes, Officer, or YOUR GRACE, or your Honor.

This whole idea took me back a few more years to the time when I was living with a young woman from another culture, who was striving to fit into the American culture, but not really making it. I could tell that most of her life was based on following the behavioral clues from others, and if she did not have an already instilled behavioral program, she was unable to think of a new way to act.

Not only that, but every third or fourth day, she returned home from her job as a waitress, and her personality had totally changed. She smoked, physically abused me, and had no concern about what others thought of her behavior. This was the opposite of her behavior on the other three days.
