
The Federal Government of The Imperium of Diamond's

The One World idea on The Peacefull Development

The One World is an unitary project for global unification of all states and the nation's, politics and government's.

The One World vision and right of development act is protected be the natural right's of claim of government's and states to their own political or national development or international partnership, bud the vision of the One World have a protection on own right of act, in vision of International Right's be the UN Charter, UNGA Declaration's and Geneva Convention's, who are has a declaration be the Global majority of Governmental democracy of the world.

People have right on their self determination and diplomatical expansion of their territory be The One World vote, peacefull cooperation and unity on International level, the same as a right of people for their own self liberal life development.

The nation's have a right on their self determination, and therefore The Federal government in strategy of vision on the One World development, have a claim on right for people and their act of Dual Citizenship application which can use every one single person in the whole world, as a registry of his or her dual citizenship be his or her state country and our Federation, legalize right of entry into territory of federation, peacefully associate with people and develop business or policy support, using a dual citizenship which change a system of VISA similarity in use of right.

Therefore, when foreign citizen claim ID's Dual Citizenship of Federation, than his or her foreign country dont losse on state population capacity, no losse on own inter state democratical support, bud the government and state get a chance of own expansion on new territory and right to step by step, generation for generation, one day legally join into the Global Government of all unified polity and states of human world.

The Dual Citizenship is act without losess for foreign states, act on The One World unification is act who only strenght power for all unified government's and states. When people registry their dual citizenship of federation, they are is Federal citizen's. When people of foreign national majority registry their dual citizenship of Federation, than people legally determine the act of their self determination when their act of dual citizenship application is their vote for their own national and political expand into the foreign country, territory and civilization and start connection in ID's Federation.

This is the step's of Federation be the National Democracy in peacefull vision which are is most profitable step for all states in the word, and it is a step which dont damage any of Your national border's, dont act position for conflict or violence of state integrity. Peacefull and Progressive step of national development, this is The step for The One World Unity, Your right for federalizing of the whole world, step for Global Superpower !

King Gottwald Peter diplomatically support The One World
