## WHO WOULD WANT TO JOIN THE MFMA?

The MFMA is a global martial arts society. With the MFMA, anyone can join and learn martial arts from home. Who is the MFMA ideal for?

- Anyone who likes martial arts.
- People with busy schedules, who want to learn martial arts, but can't commit to a weekly schedule.
- Those who always wanted to learn martial arts, but never had any decent schools nearby.
- People who want to learn martial arts in private, without belonging to a local group.
- Those who want to learn martial arts, but were refused, as they have disabilities or exhibit behaviours that challenge.
- Celebrities who are always busy, yet still want to study martial arts.
- People who can't afford local martial arts schools.
- Existing Instructors, who want to learn something different, and teach a new class.
- Martial arts nerds who simply want to belong as members.
- People who trained in martial arts for years, yet their school suddenly closed down.
- Marketers who want to sponsor us and in turn have MFMA represent their brands.

- Those who left their local schools, as they felt they weren't learning quickly enough.
- Individuals who trained years ago, and want to get back into martial arts.
- Victims of bullying or domestic violence, who want to empower themselves.
- People who have jobs that require lots of travelling, and live in hotels most of the year.
- Parents who want to teach their children how to defend themselves.

Everyone over 18 is welcome to join. Come and learn from the experts.

## THE MFMA WEAPONS CLUB.

In 2020, I created the MFMA Weapons club, so that people can learn all MFMA weapons from one place. The weapons club gives people a sense of belonging, and students can get discounts and free gifts at the members only area.

I recommend training with wooden or foam, safety weapons in all martial arts that study them. Many people ignore advice, and have life-changing injuries, as a result of messing about with weapons. For those that want to learn weapons properly, with official ranks and structures, the MFMA is the place to start. Our techniques get the job done, no overkill or waffle, as with most weapon courses. The MFMA weapon courses are easy to follow, and hard to put down, once you get going. Our weapon courses are amongst the best tuition in the business.

Not everyone likes training with weapons, but the weapons club gives people the option. A true master of the martial arts is skilled with weapons and the empty hand techniques.

## MFMA ELITE MEMBERSHIP.

The MFMA Elite are the best of the best in martial arts. I have students worldwide, and at least forty of my students are Masters and Grand Masters in other systems of martial arts.

Elite MFMA membership is primarily for those who wish to teach others, and open schools one day.

Elite MFMA members get better discounts on all courses, and the MFMA Newsletter each month, directly from me as Grand Master.

In the MFMA, no student is left behind, and everyone is kept up to date with the monthly newsletter. I often give away a free karate book or something just to show my appreciation for my membership. In fact, over the years, I have probably given away more knowledge than most instructors have to teach!

As a Grand Master, it is necessary for all students to know what I am doing, and be kept up to date. In many martial arts schools, the Grand Master is made out to be this mythical being, and when you meet them, it is a huge let-down. We realise that these Grand Masters and experts are just people, like you and me, not fire-breathing Dragons. What is the point of teaching martial arts, if nobody knows you, or what you are doing?

If you want to be 'in the know' and up to date with all the latest things MFMA-related, Elite membership is the way to go.

## MFMA BLACK BELT CLUB.

The MFMA Black Belt Club is the place to be for all those who are black belt or above, in any style of martial arts. The black belt club is also the only place whereby you can learn the higher ranks of MFMA systems.

As the owner of the MFMA, I gradually got fed up with people emailing me, simply wanting a high rank. I have said to people, you can buy a course, learn it and train hard, then you will be the rank stated. I also offer FREE video testing for verification purposes, unlike most online schools, who charge around fifty dollars, per test. My point is, that whatever system you study in the MFMA, you cannot have any rank, without the moves to learn and study.

I have turned down many people who were angry with me, for not taking their money. In my mind, I have done the right thing. In real life, if you want to pretend to be a black belt, someone will always find out. Also, those who open schools and are not the grade they say they are, will meet their match one day.

The MFMA is a serious martial arts school. All certificates with ANY rank allocated, come without dates. How long it takes to earn a rank is up to the student, not the instructor: we are all different levels of ability, physically. One technique a student may find easy, may be impossible for another. I could teach 100 people *any* style, and they will all have different strengths and weaknesses.

For those that want to learn the high grades, and get discounts, the MFMA Black Belt Club is the place to be. As a special gift for Black Belt Club members, they are the only ones who can earn rank in Elite Fighting System. Elite Fighting System is a simple, deadly martial art that packs a punch. Only black belt members can gain rank and certification above 1<sup>st</sup> Dan in any MFMA system. Join a club designed for the best of the best. Some students don't even want rank, they are in the Black Belt Club simply to belong. The choice is yours.

## THE MFMA INSTRUCTOR COURSE.

The MFMA Instructor course is designed for those who wish to teach and open a Dojo of their own someday.

The MFMA Instructor course is perfect for those that always wanted to teach, but never had any idea where to start. A no-nonsense, common sense approach to modern martial arts tuition. The MFMA Instructor course is also good for existing instructors, who maybe want to learn something new.

The MFMA will help you to open your Dojo, wherever you come from. I recommend an Instructor course for anyone approaching 1<sup>st</sup> Dan black belt or above. In the MFMA, you can promote up to one grade below yourself. In an ideal world, 2<sup>nd</sup> Dan is the perfect grade to start teaching, though not necessary.

The MFMA Instructor course is ideal for Black Belt Club members, or those of at least the Elite level of membership.

## BOB DUMMY WORKOUT FOR BEGINNERS.

The Bob Dummy workout for beginners has a misleading title. In fact, the Bob dummy workout video should be called 'Beginner to Deadly Expert in Five Minutes'. Well, not quite five minutes. Yet the point I am trying to make, is that this Bob dummy workout is the best you will get.

I have had feedback from people who have felt that they have literally transformed, because of the Bob Dummy workout video. All it takes is patience, learning a little at a time. Some students may be existing instructors, wanting something new to teach: that is perfectly fine with me.

How long it takes to learn any system is up to the individual. Yet I can guarantee that all students of the Bob Dummy workout will be superior Boxers after just months of training.

For the complete beginner who wants more, I recommend learning the Bob Dummy workout with the Combat Boxing 1<sup>st</sup> Dan black belt course. All are welcome to come and join the fun. Please note, this is a Bob XL dummy I am training with.

## IN THE MIND OF A MARTIAL ARTIST.

In the mind of a martial artist, there are many topics to consider. Any martial arts expert's greatest weapon is his mind.

In the mind of a martial artist course, I cover topics that many think they know already, but may have overlooked.

When we get to be martial arts experts, we often forget that most people have not been through the same training as we have.

Punching and kicking is something anyone can do. Yet without the right frame of mind, every second training is a waste of time. Without the correct attitude, even the strongest man can be beaten easily.

The mind of a martial artist course is perfect for anyone, especially those who have never done martial arts before.

## LESSONS WITH GRAND MASTER DAW.

Lessons with Grand Master Daw is a project I wanted to start many years ago, finally available to the public.

With my lessons program, anyone can join and learn whenever they wish. You may have been 3<sup>rd</sup> Dan twenty years ago, and want to get back into training. Or you may be a complete beginner in the martial arts: and what better place to start than with my lesson program?

No stone is left unturned in my lesson program. Enjoy being able to learn wherever you are in the world. No pressure, hidden fees or time limits.

But that's not all. Elite level MFMA members will have access to a hidden style of martial arts, only available via the lessons program.

As time goes on, there will be more and more lessons updated to the program. Learn everything you need, and nothing you don't. All styles, all levels of ability, welcome to join me.

## COMBAT KNIFE CRIME.

Primarily designed for those in the UK, Combat Knife Crime can still be learnt anywhere in the world.

In the UK, knife crime is at a shocking high. Don't be a victim. Teach others this simple course, so that you can help to save lives of other people.

This course contains manuals and is a complete syllabus, with written and practical elements.

The Combat Knife Crime Course is ideal for anyone who is teaching secondary school age or higher. The Combat Knife Crime Course is also perfect for those who run youth clubs and work with young people.

The problem with most knife crime courses, is that they are designed by people who are not experts in using the knife. Learn from one of the best knife experts alive, and see just how easy this course is to teach others.

Teachers often know that they are teaching people things that are soon forgotten. Why not teach your students something valuable, that may save their lives?
