

What is this and why was it linked?

This details the Rules and Guidelines for Vinesauce's chat on Twitch. It has been linked to keep the community abreast of the always changing dynamic of the twitch chat. As we grow as a community it becomes necessary to effectively communicate with each other. The intent of this document is to be sure everyone has an enjoyable time in chat.

How do we have an Enjoyable Chat for all?

Following some simple rules will go a long way:

1. Be respectful to the streamer, mods and other viewers.
2. Do not post gore/porn/extreme imagery.
3. Do not spam or post walls of text.
4. Do not post Sexist or racist comments.
5. Do not be an attention whore..
6. Do not post a streamer or viewer's personal info, including your own. If you want to share Info with a friend, use a whisper. *"/w **username message**"* Please use common sense about what info you give to strangers and do not share info that is not yours to share.
7. Do not stalk or harass streamers or other viewers.
8. Do not post misinfo on streamers or chat members.
9. If you have an issue with another viewer or a mod, take it to whispers.

Additional Guidelines for Offline Chat:

1. Please refrain from using the chat during extended slow mode. Please see below for alternates. To find out more information about why the chat in such a long slow mode when Vinny is not streaming please visit [this forum post](#).
2. Please refrain from asking when Vinny will go live. In general he will stream when he feels like it. There is often an indication at the end of his last stream as to when he will be streaming next. Please check the [VODs](#) or the [Vinesauce Twitter](#) instead of asking for him in chat.

How do we help keep Vinesauce a Fun place?

The easiest way to help out is to follow the above rules. Anyone who does not adhere to the rules will receive anywhere from a warning to a permanent ban depending on the severity of the infraction and/or number of infractions. Mods have the final say. If you have further questions please use the whisper command “/w *username message*” to reach out to us and discuss it with us. Please be civil with us as we will be civil with you.

Etiquette

Vinesauce is a Video Game chatroom, as such it is not a good place to fight your internet battles. The following is considered bad form to talk about:

- Politics
- Private information
- Personal help
- Internet battles
- Gore/porn/extreme imagery (Including “Shipping” and FanFics)

Unban

If you feel you were banned unfairly or just want a second shot, you can email vinesauceunban@null.net. Be honest about why you were banned and there's a higher chance of an unban. If you are amicable instead of argumentative there is an even higher chance. Please do not take Unban requests to the forum or chat. You can also directly message a moderator. Feel free to reach out to us for general questions as well.

We understand the reflex reaction is to badmouth the mods upon being banned. Just keep in mind though, the mods are only doing their job and are trying to keep some semblance of sanity to the chat.
