

# Minecraft Servers : Buy MINECRAFT Server Hosting (rental)

Minecraft Servers embrace McMyAdmin management panel!

Daily Backups, Bukkit, one-click plugin installs, Static IP, optionally available FREE web site (with MySQL), and more!

Many plugins are available with one click in our trade leading management panel, including: Tekkit, ChestShop, CommandBook, iConomy, Necessities, GodPowers, Factions, McMMO, WorldGuard, WorldEdit, and more! You even have the power to upload your own custom plugins!

Put in in Minutes, Online 24x7

After your order is placed, GameServers.com's instant activation system deploys your Minecraft server and keeps it online 24x7, even when your private home Pc is off!

Simple MINECRAFT Server Management

Our customized control panel permits you to configure and customise your MINECRAFT server, upload recordsdata using FTP, set up plugins and mods, switch locations, and add further administrators.

Low Ping Game Hosting

Our worldwide community, designed by avid gamers for players, affords multiple redundant places in your geographic area for lag free Minecraft internet hosting. Should you alter your thoughts, you may migrate your server to a brand new datacenter from the control panel any time!
