FOX NEWS POLL

All results are for release after 10AM/ET Monday, November 7, 2016

Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers November 3-6, 2016 among a random national sample of 1,410 registered voters (RV).

Results based on the full sample have a margin of sampling error of plus or minus two and a half percentage points.

A subsample of 1,295 has been defined as likely voters (LV), with a margin of error of plus or minus two and a half percentage points.

A portion of undecided likely voters were assigned a candidate preference based on underlying attitudes. This adjustment increased support for Clinton and Trump equally.

Landline (612) and cellphone (798) telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Results are of registered voters, unless otherwise noted.

An asterisk (*) is used for percentages of less than one-half percent.
A dash (-) represents a value of zero.
Some percentages may not add to 100% due to rounding.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.

1. How interested are you in the 2016 presidential election? Are you:

	------------Interested------------			---------Not interested---------			(Don't
	TOTAL	Extremely	Very	TOTAL	Somewhat	Not at all	know)
Likely Voters

Fox News Poll -- Margin of Error for Subgroups

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers November 3-6, 2016 among a random national sample of 1,410 registered voters. A subsample of 1,295 has been defined as likely voters. The margin of sampling error is plus or minus 2.5 percentage points for results among both registered and likely voters.

Results among the attached subgroups have larger sampling errors:

	Registered Voters +/- 2.5%	Likely Voters +/- 2.5%
Democrats:	+/- 4%	+/- 4%
