

- **RCL**

- New Strategic Plan for 2030 Bicentennial in Focus
- Seeing what kind of renovations, phased renovations, are possible
- Looking at restoring/renovating stacks areas, and in the next 4-6 weeks will narrow down on a firm that has experience in restoring stacks, then brainstorm for 6-9 months
- David Figlio is in support of the project, usage of space is important, possibly consolidating and compacting stacks so we have more room for collaboration on floors higher up
- POA Library: Jim Mayer, a past supporter, made a sizable donation to continue support for POA. Putting up/tearing down walls is off the table, but rearranging and changing some spaces is in the plans. Looking for stakeholders in the community to have input on the spaces or things like the chalkboards vs. blackboards debate. Also, most of their furniture is hand-me-down, so funding more will improve the look.
- HIV/AIDS posters project, check out the link, and maybe share the outcome on SA Insta.

- **Transportation**

- Plan to change the 9 large size buses to hybrid by 2025
- Innovation Square should be almost all students by the end of this year, and U of R has 2 full floors (50 students) under res life contract
- they are guaranteed to shuttle as part of their res-life contract, so the university must provide shuttling
- Adding an additional shuttle for the line this year would cost \$53,000
- The cost of another mid-range shuttle to serve as the new backup would be 150-200k
- We also can't just use a bigger shuttle to use for the orange line because of the turning radius in the city
- Option 1 is to come up with 53k, and Option 2 is to somehow only give shuttling to those 2 floors of students. Maybe by using id card swiping, which they are actively procuring, but the supply chain is inconveniencing it.
- Things they said: Encourage students to walk to the red line at Eastman. But with the weather and Eastman kids, it will just congest that line more. Encourage kids to walk to RTS and use that. Possibly add a full line that hits Erie harbor, innovation square, u of r, etc.
- "Nobody has extra money."
- "We guarantee you a ride, not a specific ride time."
- **Jackson Court Parking:**
 - Students with Permits are allowed AFTER 4 pm. Anyone is allowed after 7 pm. But you must not have cars there before 4 pm
 - Signs will be posted detailing when and when you cannot park.
