

## Day 14 Discussion: Hofstede activities, observation and reflection

---

1) On your papers, write down:

- Three things you value
- Three people you think of as heroes
- Three things in this room that Hofstede would call a “symbol”
- Three things that happened this week that Hofstede would call “rituals”

2) Think of:

- One time you remember when two people were judged according to different sets of moral rules
- One person who identifies more strongly with people with whom they are *not* biologically related, than with people they *are* biologically related to
- One example of cultural change

**Leader:**        (*ask people to reflect on what just happened and make observations*)
