PT-141 is also known as Bremelanotide and is most known for its ability to treat sexual dysfunction in men and women. It is a derivative of Melanotan 2. It's a synthetic peptide blend, as it isn't naturally produced in the body like growth hormones are. PT 141 was developed from the Melanotan 2 hormone which is known to help darken ...

This was 212.5kg @7 from Monday's squat session. Super happy with how this moved ☐.....must be all that proprioception from last week's tempo squats ☐.

☐ It is paramount that we always invest in ourselves. Whether that's learning a new skill, furthering our learning through education and reading, building better habits, picking up a new hobby or sport- whatever you choose to do it's super important to always have a goal in mind and to keep challenging ourselves to be better.
