SKILLS

Ruby on Rails	JavaScript	Git	MySQL	Sass
React	Node.js	JQuery	Mongoose	Bootstrap

EXPERIENCE

Creative Percent Full stack developer Apr 2019 - Sep 2019

- Created 5 web pages and 2 web applications. In addition, I collaborated with other programmers who use applications and websites using tools such as Git, Zeplin, Monday among others.
- Develop more than 5 responsive websites for multiple companies.
- Created 2 web applications using MVC, ruby on rails, JavaScript, jQuery, Sass, Ajax, Git, Bootstrap, PostgreSQL.

Freelance Full stack developer Aug 2019 - Actual

- Developed 2 Websites and 1 app for companies as Integral, Egensa and Vespucio Clinic. I gave maintenance to the server and hosting of multiple applications and web pages.

CyberPark Team leader, 3D designer Nov 2015 - Feb 2017

- Technological and educational project to enhance the Dominican Republic learning experience, changing the life of 15,000+ students.

EDUCATION

CareerFoundry (Certificate in Web Development) Aug 2018 - Feb 2019

- Designed and developed several projects from scratch as part of the Learning Path using the MVC design pattern, REST and object oriented programming.
- Learn to structure a project from scratch with sketches, wireframes and database schemas.
- Built a fluency in Ruby on Rails, JavaScript, jQuery, HTML5, and CSS3.

Udemy Web Design and development Jan 2018 - May 2018

- Learned new web designs and development skills making multiple projects. During this course I learned by doing realistics projects common nowadays, using html, css, sass, JavaScript and JQuery

ITLA (Institute of Technology) *Programming logic, Mechatronics* Feb 2014 - Dec 2016

- Learned electronic and robotics concepts, including the microcontrollers (PIC) programming.

Udemy *React, node.js, Mongoose* Jan 2020 - Jul 2020

PROJECTS

Bike online shop UX, DEV Dec 2018 - Feb 2019

- Online shop (Ecommerce) where people around the USA can buy or publish a bike for sell. I made the development and desing part using Bootstrap, sass, JavaScript, jQuery and ruby on rails.
- Web application built with Ruby on Rails as part of coursework. Implemented Actiocable from Rails 5 to show live updates on certain sections of the app. Used Devise and CanCanCan to manage user access. Ran security tests against the app.
- View Project: <https://github.com/felixpro/New-app>

Ars reclama DEV Mar 2019 - May 2019

- Desktop Web app made for doctors and therapist to store, print and manipulate their customer information. I made the whole Development part using Ruby on rails among other technologies.
- View Project: <https://ars-public.herokuapp.com>
