On the morning of February 4, the Central Cyberspace Office's Leading Group for Pneumonia Epidemic Disposal of New Coronavirus Infection held a special meeting to convey the spirit of the Standing Committee of the Political Bureau of the CPC Central Committee, the spirit of General Secretary Xi Jinping's series of important instructions on epidemic prevention and control, and the spirit of the special meeting of the Central Propaganda Department re-mobilized, re-deployed, and re-emphasized the implementation. Zhuang Rongwen, deputy minister of the Central Propaganda Department, director of the Central Cyberspace Office and director of the National Cyberspace Office presided over the meeting. Yang Xiaowei, Sheng Ronghua, and Liu Liehong, deputy directors of the Central Internet Information Office and deputy directors of the National Internet Information Office, attended the meeting.

The meeting pointed out that the important speech of General Secretary Xi Jinping at the Standing Committee of the Political Bureau of the CPC Central Committee, and a series of important instructions on the prevention and control of the epidemic, fully demonstrated that the Party Central Committee with Comrade Xi Jinping at the core is highly responsible for people's life and health. Responsibilities and feelings for the people have injected strong confidence and motivation for the people to resolutely win the fight against epidemic prevention and control, and provided us with a fundamental basis for doing a good job in epidemic prevention and control. We must conscientiously study and implement the spirit of General Secretary Xi Jinping's important speech, quickly integrate thoughts and actions into the central decision-making and deployment, firmly establish the "four consciousnesses", firm "four self-confidences", and resolutely achieve "two safeguards". Take epidemic prevention and control as the most important task at the moment, play good chess first, take the initiative to fight, and truly implement the responsibility of keeping the soil, the responsibility of keeping the soil, the responsibility of keeping the soil, earnestly implement the work, and resolutely win the fight against the epidemic prevention and control.

The meeting emphasized the need to strengthen the momentum and effectiveness of positive publicity on the Internet, highlight the propaganda and interpretation of the important instructions of the General Secretary's important instructions, in-depth publicity of the major decisions and deployment of the Party Central Committee, fully report on the effectiveness of joint prevention and control measures in various regions and departments, and vividly describe the anti-epidemic response. The touching story of the epidemic, focusing on summarizing and propagating the advanced models and moving deeds of party organizations at all levels and the majority of party members and cadres in the struggle for epidemic prevention and control, telling the story of China's fight against the epidemic, showing the Chinese people's spirit of unity and togetherness, A strong positive energy that unites the will of the people, goes all out, and overcomes the difficulties together. It is necessary to strengthen the management and control of network media, urge the implementation of the responsibility of the main body of the website platform and the responsibility of the competent unit, fulfill the territorial monitoring responsibilities of online information departments at all levels, and provide solid network security for epidemic prevention and control.

Relevant bureaus and units directly under the Central Cyberspace Office are responsible for the comrades' participation.
