GOLDEN COMPANY CRYPTO

Crypto isn't a pit. Crypto is a ladder.

TABLE OF CONTENTS

The freedom to make my own mistakes was all I ever wanted.

OUR MISSION

$GCY is BSC's next-level BEP-20 token that aims to redistribute the wealth among holders tired of saving Lannister and Blackfyre while rugged, scammed and robbed.

This is not a meme coin, we are looking to propose to build a utility token, building a very energetic crypto-community based application on iOS and Play store. We will be building an app that enables you to submit meme tokens and the community can upvote and comment on them, whilst displaying the token leaderboards, showing the biggest gains and losses.

We will be breakingthe gap in the crypto-market affiliating with the Game of Thrones's reputation with our passionate community. NFTs will also be explored in the further stage - discussing the potential licensing with Game of Thrones but due to our members of the community, it is highly likely to make this partnership happen.

OUR GOAL

- *__Golden Company__ will be the largest community for investors and traders focusing on the meme coins. When coins are moving, we can tell, and our app will show you the coins that are seeing the most unique changes in the message volume.*

- *On the __$GCY__ app, you can see how many people follow a particular meme coin. That means they've added it to their watchlist and have decided to follow all messages associated with that meme coin. By tracking followers, you can learn about a meme coin's popularity and interest.*

- *We believe, to keep up with the popularity of the app, it is important to engage with other members. However, this proposed app will make it easier. You will be able to follow anyone on __$GCY__, you can create your own profile, and you can publicly reach out to anyone else you see on the app.*

- *Due to the forum and communication between the members, it's never been easier to open a __NFT__ marketplace where the members can submit their own art based on the TV series.*

GOLDEN COMPANY

ROADMAP

LOREM IPSUM

JUNE 2021

- TOKEN CREATION
- WEBSITE LAUNCH
- DXSALE LAUNCH
- PANCAKE LAUNCH
- AGGRESSIVE MARKETING CAMPIAGN

JULY 2021

- COINGECKO LISTING
- CMC LISTING
