Beta-mannan can make you feel better and remain healthier!

Several thousand years of recorded history have explained the famous recovery benefits of the Aloe vera plant.

And the healing wonders of the molecules in Aloe vera were more amazing than the early researchers had imagined possible.

Nonetheless, until recently, researchers were puzzled.

In the lab Aloe vera was often worthless since the primary recovery compound in Aloe vera degrades rapidly after it is harvested.

After simply a couple of hours, if not properly preserved, the active compound of Aloe vera falls apart.

Not a lot of doctors understand about that.
