About Legacy

Legacy is a Decentralized Eco Friendly Token,(Defi)

Legacy uses a Next Generation Cross Chain smart contracts EVM between networks,
To ensure transparent and fair deals.

Legacy is a bep-20 token on the Binance smart chain,with a 300,000 supply.
Burn able events are intergrated, to a reduce of 150,000 max supply.

Beyond the simple management of decentralized applications,our goal is to create a
Decentralized Legacy Eco Friendly Dex.

Legacy can interact with all Blockchains supported by Evm,simplicity in one click.

ABOUT LEGACY Eco Friendly Consumption & Foundation

-We from legacy,try to help to reduce the energy consumption.

This is verry important for legacy to be a part of,and help Build back better.

A cleaner world for us,and for the future generation's,our bsc chain is Co-Neutral.

We don't need heigh energy consumption like Pow networks do need.

Ever human and animal,deserve to live on a healty and clean earth.

Animals deserve to live in a safe peace fully part of nature,unfortly nature getting destroyed 24/7.

Duo to heigh energy consumption,and big company's spreading rapidly,there for a lot of forest getting destroyed,we from Legacy are against this.

We stimulate to be Clean and eco friendly energy,not only for us but also for the next generation's after us and nature.

There for Legacy will set up a foundation,we will Donate a percentage of our Launchpad raised cap.

This we will donate to a,Eco friendly tree planting charitable organisation with a complete documentation.
