Yes they can

But also the problem with most cracked servers is that anyone can login as anyone, meaning if someone were to login as the owner, they could screw up the server

Thats why they don't make op's the use the console command?

i just made a server but how do i play on it

Anyway... why not just host the server yourself? hamachi sucks.

-Facebook wrote How to set up a cracked server.

Step 1. Download 'Log Me in Hamachi' [Register or Signin to view external links.]

Step 2. Download 'Minecraft_server.exe' (or the mac version) [Register or Signin to view external links.] (go down to 'Multiplayer beta server software' to download)

Step 3. Make a folder called 'minecraft server' and drag both those files in.

Step 4. Run 'Minecraft_server' until it says 'done' then CLOSE it

Step 5. in the folder you ran this in you should have a file called 'Server properties' Open it in notepad.

Step 6. Change 'Online-mode' to false, change player numbers to your player numbers Add in at the bottom 'verify-names=false' save it. (DO NOT PUT IN YOUR IP)

Step 7. Run log me in hamachi and make a network.

Step 8. Run 'Minecraft_server' again and thats your server set up.

NOTE : your friends must have hamachi and must connect to that network, in minecraft they enter the IP that hamachi says.

feel free the thank and +rep

-Facebook

if dont work it says connection refused wtf????????? Minecraft servers ?
