

Originating in Victoria BC, off the west coast of Canada, Torrefy have been perfecting their extreme approach to an eclectic and progressive thrash-inspired sound. Taking influence from many different musical genres, Torrefy combines speeding, pummeling guitar riffage with relentlessly feral drumlines and blackened, inhuman vocal shrieks!

Their compositions are an exposition of their plethora of inspirations. They have gained notoriety for their high-energy performances that have been selling out venues in their neighborhood and beyond. Following up their debut album "Thrash and Burn" with a macrocosmic concept album "The Infinity Complex" they have been sharing the stage with big-name thrash acts such as Havok and Skeletonwitch, working tirelessly to bring their unique and extreme sound to an audience hungering for something new!!!
